Junkers Ju 87 - The Stuka Mantelli - Brown - Kittel - Graf, 2015-03-24 The Stukas if you did not know you knew definitely looking from the deafening roar and fury disruptive. The Stuka was also famous for the scream that emitted launching into beaten against a target. In almost all versions, in fact, was mounted in the basket a siren that you drove with the beaten and emitted, in fact, a kind of scream. This served to terrorize the enemies on the ground and, for this reason, the Stuka earned a reputation even more terrible, the Junkers Ju 87 Stuka also said (in German Sturzkampfflugzeug, literally combat aircraft swooping), was a bomber swooping wing single-engine configuration with inverted gull wing. Although designed in 1933 by the German Junkers GmbH, the Stuka remained in production for over nine years, staying for the duration of the war, essentially unchanged in structure and basic configuration, test the overall validity of the machine. Were built more than 5,700 copies in a dozen versions, which fought on all fronts. In an attack dive against ground targets the greatest operational flaw lay in violent lateral acceleration experienced by the pilot, not having available at that time in chemical suits differentiated compression fainted at the height of the effort (coinciding with the release of the bomb). So not being able to regain control of the plane ended up crashing to the ground ... The German designers solved the problem by designing an automatic recall of the bar that was activated before the dive, and that allowed to bring back to share the plane after the attack in case of fainting of the pilot, who had so everything time to recover his senses and control apparatus.

Stuka Volume Two Peter C. Smith, Professor of Health Policy Imperial College Business School & Institute for Global Health Peter C Smith, 2008-01-24 During the first phase of World War II, the German forces advancing on all fronts, the Ju87 Stuka had been an essential element in the Luftwaffe's armory attack. However, from mid-1943 as the War drug on, the Stuka began incurring heavy losses. Dunkirk, Warsaw, Rotterdam, and other early victories became distant memories as severe reversals came about in the East. Wherever possible and often against overwhelming resources, the Stukas supported the retreating German armies by conducting not just precision dive-bombing missions, but low-level ground attack operations against enemy transport targets, gun positions, and ships. This second and concluding volume in this series examines the role of the Stuka during these years of retreat. Aspects of the Stuka's role, which the book recounts, includes the attacks against the Malta convoys, the retreat in North Africa, the war over the Arctic, the Russian campaign including the battle for Stalingrad, and the collapse of the Eastern front. This volume contains an impressive selection of historic photos, color artworks, and first-hand accounts from those who flew the aircraft.

Hitler's Stuka Squadrons John Ward, 2004 Hitler's Stuka Squadrons is a book that separates fact from fantasy regarding the achievements and military career of the Ju 87 aircraft. Able to deliver its bombs accurately onto a target, the Stuka wreaked havoc in Poland and France against ground targets and refugee columns. Hitler's Stuka Squadrons charts the Ju 87's career in 1939-40, when German aerial superiority ensured aircraft losses were low. However, against Spitfires and Hurricanes in the Battle of Britain in 1940 the Stuka was shot out of the skies. The campaign in Russia saw the re-establishment of the Ju 87's supremacy, and would lead to a change in role to one of tank-busting. Hitler's Stuka Squadrons also covers the individual Stuka squadrons, their campaigns, tactics, and pilots. Illustrated with full-color artworks, which show the various changes in livery and design that the Ju 87 underwent during its career, accompanied by a full specifications table that lists range, armament, performance, dimensions, ceiling and weights;- An authoritative book written by an expert on Military history- First-hand accounts from Stuka pilots- Full-colored artworks- Specifications boxes

The Junkers Ju 87 Stuka Peter C. Smith, 2011 Utilizing this slow and relatively lightly armed WWII warplane the German Luftwaffe spearheaded the Blitzkrieg assaults from Poland in 1939, through to North Africa and beyond. From the very first day of WWII to the very last, the Ju 87 operated on the front line. Famed for its precision bombing, the Stuka's accuracy paid handsome dividends against such pinpoint targets as rail and road bridges, artillery, communications, fortresses, and enemy armor. Its added ability to linger over the combat zone providing continuous close air support to troops in the field and proven capability in the field proved a major asset to the Luftwaffe throughout WWII. For a land-based aircraft, the Stuka earned a formidable reputation as an anti-shipping weapon. Off the coast of Norway, Dunkirk, in the Mediterranean and Arctic, the English Channel, and Black Sea, the Ju 87 chalked up a formidable list of destroyed ships. Later in the war she achieved legendary fame as a specialist anti-tank and night-attack aircraft. Peter C. Smith, a leading authority on the history of dive-bombers and dive-bombing, relates the history of the Stuka and all its variants in great detail. Complemented by more than 250 photographs, comprehensive appendices, equipment and instrument layouts, and color profiles *The Junkers Ju87 Stuka* provides essential reading for researchers, historians, and modelers alike.

Stuka at War Peter Charles Smith, 1980

Stuka Alistair Smith, 2013-01-19 "A very nice release about the most recognizable German aircraft of the Second World War" from the author of *Rommel's Army in the Desert* (Inscale.org). The photographs in this collection belonged to Luftwaffe Stuka rear gunner and radio operator Erich Heine. The collection includes photographs of flights of Stukas in formation, operating training aircraft, and a selection of different Luftwaffe uniforms and flight gear. The photographer was based for a period in Czechoslovakia, was shot down over the Ukraine in August 1943 and for a time was listed as missing in action. This collection offers a unique insight into the German experience of World War Two, providing the opportunity to access materials that have never

been published before "The book very ably documents the war career of the aircraft and the pilots, reproducing some outstanding images of war."

–Firetrench "The most remarkable thing about this album is that it contains photographs of perhaps the most famous Stuka ace, Hans-Ulrich Rudel."

–Inscale.org "The photographs . . . show the life of Erich and Luftwaffe Stuka crew members through training/deployment/leave and include funerals of squadron members . . . The narrative gives a good overview of the Stuka in service and the photographs show varied views of the aircraft and day to day life within the squadron." –WW2 Talk

Junkers JU 87 Stuka Manfred Griehl, 2001 Introduced in 1935, the Ju 87 was one of the finest planes flown in the Spanish Civil War. That experience led to modifications, and during the invasion of Poland, where this aircraft played a major role, it proved to be most effective as an accurate and destructive dive-bomber. This book details the development of the Ju 87 from birth to its demise, covering each model and variant. Many wartime photos are included, as well as original drawings and plans. For military enthusiasts and historians.

Stuka Spearhead Peter C. Smith, 1998-09-30 This addition to the Luftwaffe at War Series is a fully illustrated guide to the formative years of the Ju 87 dive-bomber which dominated the opening campaigns of World War II.

Junkers Ju 87 Stuka Mike Guardia, 2014-07-20 In the opening days of the Blitzkrieg campaign, few aircraft could invoke as much terror as the Junkers Ju 87. Nicknamed the "Stuka" (an abbreviation of Sturzkampfflugzeug – the German term for "dive-bomber"), the Ju 87 was perhaps the most feared tactical bomber of the ETO. With its fixed landing gear and inverted gull wings, the Stuka was the most recognizable aircraft of the Blitzkrieg era. With profile plates, close-up photographs and battlescene artwork, this book reveals the design and development history of the aircraft and how the inclusion of its dive-activated siren changed it from a reliable and sturdy dive bomber into a psychological weapon, spreading panic in ground units. Mike Guardia goes on to explain how the Stuka became easy prey for Allied aircraft and how its influence waned in the final years of the war.

Junkers Ju 87 Eddie J. Creek, 2012-06-07 This large format hardback is packed with information on the Ju87 Stuka. Highly illustrated, it represents a comprehensive, detailed reference work to be used by enthusiasts and modelers for one-stop ease of access to information to one of the most well-known aircrafts of World War II. Unquestionably, the Junkers Ju 87 was one of the most devastatingly effective and psychologically terrifying weapons of war ever produced. The howl of its sirens during a dive-bombing attack struck fear into those on the ground. Spearheading the German advances in Poland, Norway, the Low Countries, the Mediterranean, and Russia between 1939 and 1943, the Luftwaffe's Ju 87 Stuka became synonymous with the art of Blitzkrieg warfare. Next to the fighter aces, it was perhaps the Stuka crews who were held in the highest esteem by both German commanders and the German people and their accomplishments became legendary. This will be the book sought after by aviation enthusiasts and modelers.

Junkers Ju87 Stuka Martin Derry, Neil Robinson, 2017-11-30 The Junkers Ju 87 Stuka (a contraction of the German word Sturzkampfflugzeug, ie dive bomber) was arguably the Luftwaffes most recognizable airplane, with its inverted gull wings and fixed spatted undercarriage. Designed by Hermann Pohlmann as a dedicated dive bomber and ground-attack aircraft, the prototype first flew in

1935, and made its combat debut in 1937 with the Luftwaffe's Condor Legion during the Spanish Civil War. After several design changes in the light of operational experiences, the Stuka went on to serve the Luftwaffe and Axis forces, from the invasion of Poland in 1939, through the Battles of France and Britain in 1940, over the North African desert and the across Mediterranean, the invasion of Russia and the subsequent bitter fighting in that vast area, and following several more design changes and upgrades, continued to serve through to the end of World War Two. This latest addition to the growing Flight Craft range, follows the previous well established format, in that it is split in to three main sections. The first section, after offering a concise design and development history, continues with coverage of the various subtypes, from Anton to Gustav and their operational use from the Spanish Civil War to the end of World War Two. This is followed by a 16-page full color illustration section featuring detailed profiles and 2-views of the color schemes and markings carried by the type in Luftwaffe and Axis service. The final section lists as many of the injection-moulded plastic model kits produced of the Junkers Ju 87 in all the major scales that the authors could find details of, including the brand new Airfix 1/72 and 1/48 scale kits which were released while this book was being written, with photos of many finished models made by some of the worlds best modelers. As with all the other books in the Flight Craft range, whilst published primarily with the scale aircraft modeler in mind, it is hoped that those readers who might perhaps describe themselves as 'occasional' modelers, or even simply aviation enthusiasts, may also find that this colourful and informative work offers something to provoke their interests too.

Conversations With A Stuka Pilot [Illustrated Edition] Brigadier-General Paul-Werner Hozzell, 2014-08-15 Includes the World War Two On The Eastern Front (1941-1945) Illustration Pack - 198 photos/illustrations and 46 maps. General Hozzell is one of a few remaining German officers who fought in the Second World War and held position high enough to allow generalizations about the war and to extract historical genre for future operations. Due to special circumstances involving the eleventh hour sickness of his commanding officer, Hozzell, as a lieutenant, led a group of Stuka (JU-87) aircraft from East Prussia into combat against the Poles in 1939 in the first Blitzkrieg in modern war...Hozzell led his Stukas against the heavy Polish fortification on the Narwa River line and is credited with breaking them with the most accurate tactical bombing technique of the Second World War-the classic high angle Stuka attack... Late in 1941, Hozzell moved to the Eastern Front where he had the distinction as a major, later in 1942, to command the famed Immelmann Wing. The Wing was reinforced to compose over 200 aircraft in support of the 6th Army and its advance toward Stalingrad in Aug. 1942...Later in the year, he initiated the dive bombing operations against the heavy Soviet fortifications in Stalingrad through the dense air defense network screening the city. At the end of 1942, Hozzell conducted defensive air operations against the great Soviet offensive which drove the Germans back to the Central Ukraine. His last, operation as a commander of Stuka units was during Operation Citadel in support of the southern prong of the German attack near Kursk...In late 1944, moved to the Northern Front where he ended the war as Chief of Staff of the Luftwaffe Air Fleet supporting the German army group backed up against the sea in the Kurland (Latvian) pocket. These final experiences in combat against the Soviets are particularly

instructive.

Memoirs of a Stuka Pilot Helmut Mahlke, 2013-05-10 "Well-written and holds the reader's attention . . . an engaging book and a rare personal view of flying one of the most iconic aircraft of WWII." –Firetrench After recounting his early days as a naval cadet, including a voyage to the Far East aboard the cruiser Köln and as the navigator/observer of the floatplane carried by the pocket battleship Admiral Scheer during the Spanish Civil War, Helmut Mahlke describes his flying training as a Stuka pilot. The author's naval dive-bomber Gruppe was incorporated into the Luftwaffe upon the outbreak of war. What follows is a fascinating Stuka pilot's-eye view of some of the most famous and historic battles and campaigns of the early war years: the Blitzkrieg in France, Dunkirk, the Battle of Britain, the bombing of Malta, North Africa, Tobruk, and Crete, and, finally, the invasion of the Soviet Union. Mahlke also takes the reader behind the scenes into the day-to-day life of his unit and brings the members of his Gruppe to vivid life, describing their off-duty antics and mourning their losses in action. The story ends when he himself is shot down in flames by a Soviet fighter and is severely burned. He was to spend the remainder of the war in various staff appointments. "An engaging, engrossing and exceptionally informative book. A worthy addition to any military enthusiast's library and is unhesitatingly and heartily recommended." –Aviation History

Junkers Ju 87 A ,1991

Ju 87 Stuka vs Royal Navy Carriers Robert Forsyth, 2021-07-22 Ju 87 dive-bombers, originally developed for pin-pointing bombing missions against land targets and Allied naval vessels were deployed by both the Luftwaffe and the Regia Aeronautica against the Allied forces. Included in such a target were perhaps the greatest prize of all for a Stuka pilot: a British aircraft carrier. This superbly illustrated book looks at the duel between the Ju 87 Stuka and the aircraft carriers of the Royal Navy. Despite their gun protection ('pompoms') and their squadrons of fighters, these immense and mighty vessels proved irresistible targets to determined and experienced Stuka aces as they endeavoured to stop British naval intervention in the campaigns in Norway, Malta and Crete. By 1941, the Ju 87 had become known by the British as a fearsome aircraft following its operations in France, specifically at Dunkirk, as well as in the Balkans. For the Luftwaffe, it was an aircraft in which they still had great confidence despite its mauling in the Battle of Britain during the summer of 1940. This book examines the key attributes and shortcomings of both aircraft and carrier by analysing various compelling episodes including the dramatic attacks on Ark Royal by Stukageschwader (St.G) 1 off Norway in April 1940, the strikes by the Luftwaffe's St.G 1, St.G 2 and the Regia Aeronautica's 237° Squadriglia against Illustrious in Malta harbour. Aside from outstanding photography and artwork, this volume also includes numerous personal accounts from Stuka crews, the pilots of carrier-borne fighters opposing them and the sailors embarked in the various carriers that came under attack.

Stukas Over The Mediterranean, 1940-45 Peter C Smith, 1999-10-31 This text examines the role of German and Italian Ju 87s in diverse campaigns such as the attack on Yugoslavia, the battle for Crete and operations by the night flying squadrons.

Stuka Christoph Bergs, Bernhard Kast, 2022

Stuka Attack! Andy Saunders, 2013 The Junkers 87 Stuka was an iconic weapon

of World War Two and an aircraft name that was, and still is, instantly recognized worldwide. Its roles in Poland and the Battles of France and the Low Countries are almost legendary, but in the UK its import during the Battle of Britain is one that has never been covered in any specific detail. Here, Andy Saunders takes a critical look at every operation by Ju87s against British targets in 1940 - including those on land and at sea. Each raid is charted, covering all aspects of the attacks including participants, defending RAF fighters and those on the receiving end. Myth and reality and truth and legend are all examined and analyzed in this highly illustrated new book, which adds to our knowledge of one of the most significant periods in the whole of British history. Foreword by Dr Hans Migeod, Ju87 Stuka pilot during Battle of Britain.

Stukas Over The Steppe Peter C. Smith, 1999-03-15 This new edition to the Luftwaffe at War series captures the many roles adopted by the Ju 87 in this demanding theatre - from dive bomber to tank buster and the varieties of plane type. The illustrations show the planes' courageous contribution to war.
