Sub-Zero Matt James,2019-09-26 The only thing colder than the Antarctic air is the icy chill of death...Off the coast of McMurdo Station, in the frigid waters of the Southern Ocean, a new species of Antarctic octopus is unintentionally discovered. Specialists aboard a state-of-the-art DARPA research vessel aim to apply the animal's sub-zero venom to one of their projects: An experimental painkiller designed for soldiers on the front lines.All is going according to plan until the ship is caught in an intense storm. The retrofitted tanker is rocked, and the onboard laboratory is destroyed. Amid the chaos, the lead scientist is infected by a strange virus while conducting the specimen's dissection.The scientist didn't die in the accident. He changed.

Phoenix Sub Zero Michael DiMercurio,2017-03-03 The Hegira is the finest super-sub that Arab oil money can buy. But the U.S. Navy is only now learning just how good this undersea sword of Islam is. Already one American sub has been destroyed, and another crippled, as the Hegira breaks out of the Mediterranean and heads toward America to deliver its lethal payload. Now it's up to Captain Michael Pacino and the USS Seawolf to find the enemy sub and destroy it—in the ultimate battle between the most advanced weapons technology on the planet...and the sheer force of human courage.

**Sub-zero** John Wingate,2021

**Sub Zero** John T. Campbell,2013-09 The North Koreans are making a brazen grab for the United States' most important missile secrets, secrets which would render South Korea and Japan helpless before a North Korean missile attack. A heavily armed assault team from a North Korean Kilo class submarine is about to shift the balance of power in the Far East and leave the United States also vulnerable to a missile attack. The death ship known as Master Three must be prevented at all costs from returning to North Korea with its load of top secret documents and a kidnapped American engineer whose head is filled with missile secrets. On an isolated Pacific atoll, an undermanned, outgunned band of civilians, servicemen, and engineers is America's last line of defense . . . and her final hope. They must fight the ultimate battle - against an enemy few could have imagined.

**Sub Zero** Angel Martinez,2020-06-15 Returning to the frozen planet Aren died on was bound to have complications... A Science Fiction Mystery from Angel Martinez... Major Aren Dalsgaard's newest assignment is to investigate a series of murders on the frigid planet, Drass, where relations between the Treaty settlers and the indigenous inhabitants have taken a nasty turn. A linguist and trained xenologist, Major Dalsgaard should be the ideal Special Investigations Officer for this case, but Drass is where he died, over a hundred and twenty years ago. Sent by his family to the chigyel city, Nyachung finds himself confronted with a murder charge, racial prejudice, and a man who claims to be a hero from his grandmother's generation. The man could be crazy or he could be lying to manipulate Nyachung, but the sincerity in those spring-green eyes disturbs him more than anything else he's encountered in the foreigners' city.Evidence that makes no sense, mysterious boxes, and a suspicion that they can't trust anyone in the city drives the major and Nyachung together and out into the wilderness. No one's telling Major Dalsgaard everything, but every step leads him closer to a feeling of

imminent catastrophe if he can't wrap this case up in time. Publisher's Note: This is the second edition of the story. The only changes made were edits. ESTO UNIVERSE BOOKS Gravitational AttractionA Matter of FacesVassily the BeautifulSub Zero

The Department for Extraordinary Activity wants him to investigate a distress signal from a ship that has been trapped in the ice and whose crew has mysteriously vanished. *Sub Zero* Larry E. Lavoie,2017-07-22 It's not Global Warming that's heating up the frozen continent. Russia has broken the 1959 Antarctic Treaty that forbids using the continent for anything other than scientific research. Scott Tanner and David Stafford are in Antarctica testing a revolutionary new type of machine called Sub Zero that can travel through and under the Antarctic Ice and are asked by the CIA to head a rescue mission for two environmental scientists thought to be held captive at Vostok Station, a remote Russian outpost. Russian military is able to track Sub Zero as it travels under the ice allowing Lebedev, a Russian oligarch operating the illegal activities, to launch a plan to kill the crew and steal Sub Zero. With no US military on the continent to save them, Scott and David are forced to play cat and mouse with the Russian military as they race across and under the wasteland of ice trying to reach an American outpost. As the hunt goes on, United States President Tindall is faced with the grim possibility of launching a rescue plan that could lead to war with Russia.

Below Zero Ali Hazelwood,2022-07-05 From the New York Times bestselling author of *The Love Hypothesis* comes a new steamy, STEMinist novella... It will take the frosty terrain of the Arctic to show these rival scientists that their chemistry burns hot. Mara, Sadie, and Hannah are friends first, scientists always. Though their fields of study might take them to different corners of the world, they can all agree on this universal truth: when it comes to love and science, opposites attract and rivals make you burn... Hannah's got a bad feeling about this. Not only has the NASA aerospace engineer found herself injured and stranded at a remote Arctic research station—but the one person willing to undertake the hazardous rescue mission is her longtime rival. Ian has been many things to Hannah: the villain who tried to veto her expedition and ruin her career, the man who stars in her most deliciously lurid dreams...but he's never played the hero. So why is he risking everything to be here? And why does his presence seem just as dangerous to her heart as the coming snowstorm? **81 Days Below Zero** Brian Murphy, 2015-06-02 A riveting...saga of survival against formidable odds (Washington Post) about one man who survived a World War II plane crash in Alaska's harsh Yukon territory Shortly before Christmas in 1943, five Army aviators left Alaska's Ladd Field on a routine flight to test their hastily retrofitted B-24 Liberator in harsh winter conditions. The mission ended in a crash that claimed all but one-Leon Crane, a city kid from Philadelphia with no wilderness experience. With little more than a parachute for cover and an old Boy Scout knife in his pocket, Crane now found himself alone in subzero temperatures. Crane knew, as did the Ladd Field crews who searched unsuccessfully for the crash site, that his chance of survival dropped swiftly with each passing day. But Crane did find a way to stay alive in the grip of the Yukon winter for nearly twelve weeks and, amazingly, walked out of the ordeal intact. 81 Days Below Zero recounts, for the first time, the full story of Crane's remarkable saga. In a drama of staggering resolve and moments of phenomenal luck, Crane learned to survive in the Yukon's unforgiving wilds. His is a tale of the capacity to endure extreme conditions, intense loneliness, and flashes of raw terror-and emerge stronger than before.

*Fifty Years Below Zero* Charles D. Brower, 2017-06-28 Brower had left San Francisco with the intention of making a short dash north on a whaling ship bound for the mythic Arctic Circle. Adventure had a way of following Charlie Brower. His initial landing turned into a fifty-year long ice-bound lifestyle. Once he stepped off the whaler and back onto dry, albeit frozen land, Brower took a job as master of the whaling station. But, though commerce brought him north, it was the people that helped keep him there for Charlie soon became fast friends with the native Inuit people. They taught

him how to hunt seals on the ice, caribou on the tundra, and whales out on the sea. He learned their secrets, lived in their igloos, navigated in their kayaks and avoided being murdered in their feuds. Plus the young adventurer observed the great dramas of the Far North play out. He saw the last of the sailing ships disappear over the horizon, and watched the first airplane fly in. For fifty-seven years, through ice storms and northern lights, Charlie Brower maintained both this lonely outpost and his claim as "Uncle Sam's most northerly citizen." A book to remember, "Fifty Years Below Zero" is richly illustrated throughout with photos by the author.

**The Ground Below Zero** Nicholas Powers, 2013 The Ground Below Zero introduces a new and important voice, one with a trajectory reaching from New York's left and alternative cultures to the present world's vistas of death. It is a voice partly urban-hip and partly epic-tragic. The story it tells is part journalism, part memoir, and part prophetic-apocalyptic vision. - Christopher Z. Hobson (from the Foreword)
