Bombardier's CRJ - Rumors of its Demise are Greatly Exaggerated Ernest S Arvai, Addison M Schonland, 2017-03-15 We conclude that the Bombardier CRJ program, considering the various equipment advances and technology improvements, remains an effective and credible regional jet option. The CRJ will certainly be effective through 2019, and if US scope clause size limits do not ease, will be effective through 2024. Rumors of its premature demise are therefore overstated.

Doing Business in Russia, Volume II Anatoly Zhuplev, 2016-12-26 Russia is a major economy and important power in the global political-economic landscape. Following the dissolution of the USSR, Russia has become a premier global marketplace despite remaining enigmatic and challenging. The book serves as a concise guide in understanding Russia from an international business perspective. It explores strategic issues, drivers, constraints, costs, and risks of international expansion and includes analytical tools, practical applications, sources of information, and assistance in international business research. These are supplemented by analysis of Russia's macro-economic profile, drivers, strategic strengths and weaknesses in the comparative context, including its international market attractiveness and opportunities for U.S. companies. The book examines Russia's main industries, their profiles, trends and business attractiveness, trends, and marketing strategies. The discussion of Russia's regions covers regional subdivisions and economic profiles with the focus on Moscow, the leading economic region. The book also covers the drivers and trends of the Russian small business sector and entrepreneurial business venturing. Despite the onslaught of capitalism, Russia retains its relationship-driven culture. The book provides insights by evaluating the determinants of Russian culture, its national profile in major global cross-cultural studies, and practical cultural applications in business, negotiations, and communications. The book's pedagogy includes skill development exercises and cases on doing business in Russia.

From Bali bombing to Sukhoi tragedy Sumy Hastry Purwanti, 2014-04-09 This book is translated from its Indonesian version titled "DARI BOM BALI HINGGA TRAGEDI SUKHOI - Keberhasilan DVI Indonesia dalam Mengungkap Berbagai Kasus" (FROM BALI BOMBING TO SUKHOI TRAGEDY, the success story of Indonesian DVI in uncovering various cases). The publication of this book had gone through a long process, starting from my passion as a writer who has a study background in disaster victims' identification and involvements in the activities of DVI (Disaster Victim Identification), and then encouragements from many people to write about the DVI's works and success in uncovering many cases. The aim, of course, is to make it as a subject of learning for the general public about the meaning and benefit of the works of identifying victims of natural disasters and man-caused disasters. The Indonesian version of this book had been published in mid-2013. It was profoundly welcomed by the general public, the Police, mass media, and academicians, especially those who involve in medicine and forensics. In less than two months, the book had to be printed in second edition. Therefore, as a writer I would like to take this opportunity to extend my gratitude and respect to all sides who had supported the publication of the Indonesian version book. I would like also to extend my gratitude to all officials at that time, including General Police Drs. Timur Pradopo as Chief of Indonesian National Police, Irjen Polisi Drs. Didiek S. Triwidodo M.M, M. Hum as Central Java Police Commander, Brigjen. Pol. Dr. Arthur Tampi as Kapusdokkes Polri and the committee chairman of DVI Nasional Indonesia, Kombes Pol Dr. Musyafak as chairman of Biddokkes at Central Java Regional Police (Biddokkes Polda Jateng), and to Brigjen Pol. dr. Edy Saparwoko, M.M., DFM, Sp.JP., Irjen Pol dr. Musaddeq Ishaq, DFM, as well as many other officers in the Indonesian Police that I could not name them one by one. I would like also to extend my gratitude to Mr. Andy F. Noya as a prominent figure of the Indonesian reading society who provided his own testimony in the book, and my colleagues Kombes Pol dr. Anton Castilani, DFM, and drg. Sindhy R. Malingkas. I would like also to thank my family, my husband, children, parents, publisher, and all people who have contributed to this publication that I could not mention one by one. This English version was published to meet the demands of many sides concerned, including from the foreign police institutions that consider it as a source of learning from Indonesia about the identification of victims in natural disasters and man-caused disasters. The more so, a number of cases mentioned in this book involved foreigners. On one side, the issues of foreigners have encouraged all professionals to study it, but on the other side, all families' members of the foreign victims with various aspects of their background study will also be encouraged to read and study it. In writing this book, I will not only fulfill a moral responsibility resulted from my involvement in DVI Indonesia. But more than that, this book will also show the professionalism of the Police and the team of DVI Indonesia, and that way their works and performances can be well known at the international stage. This English version publication was also a result of encouragement from the current Chief of Indonesian National Police, General Police Drs. Sutarmanto. According to him, the advancement of information and communication technology has made the world without borders. All events in other countries, especially related to natural disasters and man-caused disasters, cannot be concealed from the attention of people in other countries. The Police as the vanguard in handling and uncovering the victims is required to be professional and open to the international community. That is the reason why the Chief of Indonesian National Police has strongly encouraged the publication of this English version, and was willing to write a preface. As a writer of this book, I would like to extend my gratitude and respect to the Chief of Indonesian National Police. Finally, as the Indonesian proverb says "Tak Ada Gading yang Tak Retak" (There is no Ivory that is not Cracked or Nothing is Perfect), allow me to take this opportunity to apologize for any mistake or shortcoming in publication of this book. We welcome any criticism and ideas to make this publication better.

Towards an Increased Security: Green Innovations, Intellectual Property Protection and Information Security Elena G. Popkova, Andrey A. Polukhin, Julia V. Ragulina, 2022-04-08 This book aims to show that modern socio-economic and entrepreneurial systems are on the path to the increase of security and to determine the obstacles they face on this path, as well as determine the opportunities for overcoming these obstacles. The purpose of this book is to study new achievements in the sphere of the provision of security. The originality of this book consists in the development of the fundamental basis of the provision of modern socio-economic systems' security through development and application of the new classification of the directions of provision of security—food and ecological, information and technological, and personnel and intellectual—and their systemic consideration. Five parts of this book elaborate on progressive green innovations in agriculture and the modern experience of food security provision; legal regulation of sustainable development and environmental security; economic security of regions and green innovations in natural resources management; technological security in the digital environment, data protection and information security; and security and the priority for personnel management and intellectual property protection. The target audience of this book are scholars, who will find in it the fundamental inventions and empirical studies of the international experience of security provision; representatives of public authorities, who will find in the book the recommendations on monitoring and regulation of food and ecological, information and technological, and personnel and intellectual security; and subjects of entrepreneurship, who will find in the book the applied solutions for corporate management of security.

Aircraft Valuation in Volatile Market Conditions Bijan Vasigh, Farshid Azadian, 2022-03-15 This book provides indispensable knowledge for practitioners in aircraft financing. It presents an innovative framework that treats valuation analysis as a systematic effort in problem-solving directed at rational financial decision-making. It incorporates much of the modern approach to financial investment decision-making. It proposes essential tools of flexibility, adaptability, and commonality of aircraft financial analyses that apply to an almost infinite variety of valuation problem situations. Once these connections have been introduced, the reader will be equipped with an understanding of the underlying concepts of aircraft valuation processes and techniques and the subsequent financing alternatives available to fund aircraft assets. This is an essential book for airline professionals, aircraft leasing companies, consultants, bankers, government officials, and students of aircraft finance. It is an

approachable resource for those without a formal background in finance.

Modern Global Economic System: Evolutional Development vs. Revolutionary Leap Elena G. Popkova, Bruno S. Sergi, 2021-03-16 This proceedings book reflects the alternative way of development of the modern global economic system. It sets evolutionary development in opposition to revolutionary leap. The search for the best way to develop the world economy in the present and future is carried out. The social environment and the human-centered development of the modern global economic system have been explored. The features of training of personnel for the modern global economic system through the development of vocational education and training have been studied. Sustainable development, energy and food security have been identified as significant milestones of the progress of the modern global economic system. Innovations and digital technologies have been suggested as the drivers of growth and development of the modern global economic system. Consideration has been given to the institutional framework and legal groundwork for the development of the modern global economic system. The fundamentals have been identified and recommendations have been put forward for improving governmental regulation, financial and capital investment support for integration in the modern global economic system. The book includes the best works based on the results of the 22nd International Research-to-Practice Conference "Current Issues of the Global Economy" which was held on June 19, 2020, at the Peoples' Friendship University of Russia (PFUR) (Moscow, Russia) and the 14th National Research-to-Practice Conference "A New Paradigm of Social and Economic Development in the Age of Intelligent Machines," which was held on May 14-16, 2020 (Nizhny Novgorod, Russia), VIII International Research-to-Practice Conference "Multipolar Globalization and Russia," which was held on May 21-23, 2020 (Rostov-on-Don, Russia), III All-Russian Research-to-Practice Conference "Power, Business, and Education: The Ascent to Man," which was held on May 21-22, 2020 (Krasnoyarsk, Russia), International Research-to-Practice Conference "Current Issues and Ways of Industrial Development: Engineering and Technologies," which was held from September 28, 2020, till October 1, 2020 (Komsomolsk-on-Amur), and the 15th National Research-to-Practice Conference "New Models of Behavior of Market Players in the Conditions of Digital Economy," which was held on October 29-30, 2020, at Ufa State Oil Technical University, Institute of Economics and Service (Ufa, Russia). The target audience of the book consists of scholars studying the features of development of the global economic system at the present stage and the prospects for its future progress.

The Global Commercial Aviation Industry Sören Eriksson, Harm-Jan Steenhuis, 2015-07-16 This book provides a state-of-the-art overview of the changes and development of the civil international aircraft/aviation industry. It offers a fully up-to-date account of the international developments and structure in the aircraft and aviation industries from a number of perspectives, which include economic, geographical, political and technological points of view. The aircraft industry is characterized by very complex, high technology products produced in relatively small quantities. The high-technology requirements necessitate a high level of R&D. In no other industry is it more of inter-dependence and cross-fertilisation of advanced technology. Consequently, most of the world's large aircraft companies and technology leaders have been located in Europe and North America. During the last few decades many developing countries have tried to build up an internationally competitive aircraft industry. The authors study a number of important issues including the political economy of the aircraft industry, globalization in this industry, innovation, newly industrializing economies and the aircraft industry. This book also explores regional and large aircraft, transformation of the aviation industry in Central and Eastern Europe, including engines, airlines, airports and airline safety. It will be of great value to students and to researchers seeking information on the aircraft industry and its development in different regions.

Air Transport Management Lucy Budd, Stephen Ison, 2016-11-10 Commercial air transport is a global multimillion dollar industry that underpins the world economy and facilitates the movement of over 3 billion passengers and 50 million tonnes of air freight worldwide each year. With a clearly structured topic-based approach, this textbook presents readers with the key issues in air transport management, including: aviation law and regulation, economics, finance, airport and airline management, environmental considerations, human resource management and marketing. The book comprises carefully selected contributions from leading aviation scholars and industry professionals worldwide. To help students in their studies the book includes case studies, examples, learning objectives, keyword definitions and 'stop and think' boxes to prompt reflection and to aid understanding. Air Transport Management provides in-depth instruction for undergraduate and postgraduate students studying aviation and business management-related degrees. It also offers support to industry practitioners seeking to expand their knowledge base.

Foundations of Airline Finance Bijan Vasigh, 2014-11-13 In recent years the airline industry has experienced severe volatility in earnings, with airlines recording periods of substantial profits that are closely followed by periods of financial distress. This trend has continued into the new millennium, with numerous examples of airlines across the globe entering bankruptcy protection or liquidating. The text provides an introduction to both the basics of finance and the particular intricacies of airline finance where there can be significant fluctuations in both revenues and costs. This new edition also includes: capital budgeting management of current assets financial risk analysis fuel hedging aircraft leasing This textbook contains chapters that cover unique aspects of the aviation financial decision-making process. These include a rigorous and structured presentation of the buy versus lease decision that is prevalent in the industry, a valuation process for aviation assets, the recent trend toward privatization and the difficulty inherent in the valuation of a publicly-owned or semi-publicly owned asset. The Foundations of Airline Finance, now in its second edition, is an introductory text that can be used either as a general financial text or in a specialized class that deals with aviation finance in particular.

New Trends in Civil Aviation Vladimir Socha, Lenka Hanáková, Andrej Lališ, 2018-06-27 The NTCA conference series is dedicated to publishing peer-reviewed proceedings of the conference. The goal is to disseminate state-of-the-art scientific results available in the domain of civil aviation. These proceedings contain a collection of scientific contributions to the NTCA 2017 conference, which took place in Prague from 7-8 December 2017 and was hosted by the Department of Air Transport, Czech Technical University in Prague with the cooperation of the Faculty of Aeronautics, Technical University of Košice; Institute of Aerospace Engineering, Brno University of Technology; Air Transport Department, University of Žilina, and the Czech Aerospace Society. The NTCA conference aims to build and extend a platform for interaction between communities interested in aviation problems and applications. NTCA 2017 followed this established practice and provided room for discussing and sharing views on the current issues in the field of aviation. As a result, these proceedings include contributions on air transport operations, air traffic management and economic aspects, aviation safety and security, aircraft technologies, unmanned aerial systems, human factors and ergonomics in aviation.

Entering the Civil Aircraft Industry Dean C. Roberts,2017-02-11 Most countries aspire to have a civil aircraft industry, but even in the best of times, success at civil aircraft manufacturing is difficult. Technological barriers, governments, and geopolitical considerations are only the beginning of the challenges faced by those aspiring to join the industry. In fact, only four companies in the world (Airbus, Boeing, Bombardier, and Embraer) have mastered manufacturing the extremely complex machines that are civil aircraft. In *Entering the Civil Aircraft Industry: Business Realities at the Technological Frontier*, Dr. Dean Roberts provides an insider's perspective of this fascinating, multifaceted, and challenging industry using his more than thirty years of experience and interest in all aspects of the field. Using in-depth case studies, he examines the interplay of industrial policy, high technology, globalization, and business strategy on the field of civil jet aircraft manufacturing, seeking out the reasons for policy successes—and failures.

Strategic Innovation in Russia Taco C.R. van Someren,Shuhua van Someren-Wang,2016-09-26 This book presents a radically different approach to innovation aimed at creating new growth cycles for the Russian economy. To better grasp the opportunities hidden behind worldwide megatrends, such as the growing economic prosperity of Asian countries and the importance of the internet-based economy, the authors argue for a reinvention of Russia's innovation strategy. Instead of a purely technology-driven approach, the authors illustrate how the principles of strategic innovation help develop institutional and non-technical innovation, as well as new forms of leadership and entrepreneurship within the Russian business culture. The authors also discuss the impact of strategic innovation on corporate strategies, innovation and economic policy, as well as academic research and development agendas. The book also sheds new light on how cooperation between Russia and the EU, the US and China in the area of innovation can be of mutual benefit.

Proceedings of the International Conference Engineering Innovations and Sustainable Development S. I. Ashmarina,V. V. Mantulenko,2022-04-22 This book contains contributions from the international conference "Engineering Innovations and Sustainable Development," organized by three Russian universities on June 17-18, 2021. By presenting international research on various sustainability issues, it includes topics such as current trends in industrial and agricultural development, innovations in the construction and transport sectors, problems concerning the financing of innovative activities and governmental support for innovations, and engineering competences and skills in the era of new technologies. It also covers the economic, environmental, and informational aspects of sustainable development in the context of innovations. Finally, the book addresses theoretical and practical aspects by studying the phenomenon of sustainability and engineering development in terms of comparing international experiences. It provides significant value for scientists, teachers, and students of higher educational institutions, and specialists, who are researching sustainable development issues in the era of engineering innovations.

Buying the Big Jets Paul Clark,2017-07-14 Selecting the right aircraft for an airline operation is a vastly complex process, involving a multitude of skills and considerable knowledge of the business. *Buying the Big Jets* has been published since 2001 to provide expert guidance to all those involved in aircraft selection strategies. This third edition brings the picture fully up to date, representing the latest developments in aircraft products and best practice in airline fleet planning techniques. It features a new section that addresses the passenger experience and, for the first time, includes regional jet manufacturers who are now extending their product families into the 100-plus seating category. Overall, the third edition looks at a broader selection of analytical approaches than previously and considers how fleet planning for cost-leader airlines differs from that of network carriers. *Buying the Big Jets* is an industry-specific example of strategic planning and is therefore a vital text for students engaged in graduate or post-graduate studies either in aeronautics or business administration. The book is essential reading for airline planners with fleet planning responsibility, consultancy groups, analysts studying aircraft performance and economics, airline operational personnel, students of air transport, leasing companies, aircraft value appraisers, and all who manage commercial aircraft acquisition programmes and provide strategic advice to decision-makers. It is also a valuable tool for the banking community where insights into aircraft acquisition decisions are vital.
