Angelica Danton

**The Sun Goddess** Sheena McGrath,1997 Does the mention of a sun deity make you think of Apollo? Perhaps you should envision a female divinity instead Unlike the Greeks, many Indo-European peoples probably believed a goddess ruled our bright, blazing star. So, dispense with the stereotypes of mainstream culture and set out on a journey of discovery to bring this long-forgotten idol into focus. Through etymology, mythology, and religion, a compelling argument emerges for seeing the sun in feminine terms. Norse, Baltic, Celtic, and Hittite legends, goddesses named Sol and Saule, plus pictures of a variety of artifacts, lend weight to this eye-opening thesis.

Drawing Down the Sun Stephanie Woodfield,2014-05-08 Discover the hidden mysteries of the sun goddesses and reclaim the all-but-lost archetype of the solar feminine. While today the sun is often seen as a masculine divinity, for many cultures throughout history it was the ultimate symbol of feminine power and creation. Join author Stephanie Woodfield as she explores solar-goddess mythology from around the world and shows you how to work with this forgotten side of the Goddess in a modern spiritual system. Drawing Down the Sun features fourteen different goddesses, and provides practical guidance for embracing their divine spirit through pathworking, rituals, and spellcraft. Learn how to bring abundance into your life with the Baltic goddess Saule. Call upon the Egyptian goddess Sekhmet for strength and courage. Draw upon the sun's healing energy with the Celtic Brighid. With invocations, spells, and incense recipes, as well as instructions for solar magick, meditations, and more, this comprehensive guide is perfect for connecting with the solar feminine.

Goddess Signs Angelica Danton,2004 Angelica Danton is a friendly guide on the road to self-discovery, helping women tap into their own goddess power. A professional astrologer for twenty years, she has discovered a fascinating correlation between the Chinese zodiac and characteristics of ancient goddesses. The result is twelve Goddess Signs that help women understand their goddess potential. Learning the characteristics of each Goddess Sign facilitates insight into relationships, work, health, childhood, and spirituality. Recommended magical symbols, lucky numbers, colors, ritual robes, tarot cards, incense, and herbs are also included for each sign.

*The Far-Shining One* Shirl Sazynski,Brenda Noiseux,Lorna Smithers,Erin Lale,Steven Klepetar,Scott Couturier,Ariadne Rainbird,Bibliotheca Alexandrina,2019-06 Dæg. Sunne. Maonos. Saulè. Lugh. Helios. Surya. Ra. Taiowa. Belenus. The Sun Goddess of Arinna.Without the Sun, life as we know it would not exist.An obvious statement, perhaps, but the profound, primal truth of it is reflected in the spiritual traditions and mythologies of people from around the world. In many, the Sun is the first Deity or one of the first generation who oversees the creation of the world. Sometimes the Sun is the keeper of time and order, an all-seeing guardian of justice. In many tales, the Sun warms the world of both the living and the dead, traveling to the underworld each night. And, ultimately, the loss of the Sun means the end of life, even the death of the whole world. This devotional is only the beginning, a small glance at a much larger subject. The poems, prayers, hymns, rites, essays, short stories, and artwork included here only hint at the vastness of the Deities and mythology of the Sun. It is our hope that this anthology -- created by devotees of Solar Deities from all over the world -- will inspire others to create their own celebratory works.

**God/Goddess the Astrologer** Jeffrey Armstrong, 2019-01-03 This book won New Age Book of the Year when it was written in 2001. At the time of its writing, NO scientist would agree with Jeffrey Armstrong that the ayurvedic body type could be provably predicted from a Vedic astrology chart. Then in 2015, after the genome project was well on its way – a group of scientists in India discovered that the ayurvedic body type was in fact predictable in the genome. One of the first things that Jeffrey can predict when looking at a person's chart is their Ayurvedic body type: what they look like and the qualities of that personality type. This not only validates Jeffrey's personal research but the validity of Vedic Sidereal astrology. Since the rights to this book have now reverted to the author, he is making this historical book available as an e-book. Jeffrey Armstrong is also working on a 2nd update version of this book that will include recent scientific information, to be available soon. God the Astrologer systematically reveals the lost links between religion, science, destiny and free will. It is a clear guide to how the Divine manifests in the material world and how we can cooperate. It explains the true spiritual relevance of astrology in our lives and offers the profound revelation that God is the original programmer. DISCOVER: -You are not the sign you think you are. -Western Astrology uses star positions that are off by 2,000 years. -Scientific proof of karma & reincarnation. -Vedic astrology clearly shows the evidence of a personal God. -God has both male & female aspects. -Your Ayurvedic body type is written in the stars.

**Sun Good & Moon Maiden** Gordon Strong, 2023-07-11 The Holy Grail is many things to many people. The medieval troubadour saw it as a vision of heaven. In the twenty-first century, the quantum physicist finds heaven in parallel universes. The shaman, who links prehistory with the modern world, travels in other dimensions knowing he will experience the parameters of existence. In Sun God and Moon Maiden, Gordon Strong suggests that the presence of the Grail questions not only space and time but perception itself. The philosophy of Plato, the psychology of Jung and the nobility of kings are within the Grail's domain. It resides in the endless galaxy of the mind. This interior landscape is where we discover yet more gateways into Inner Space, realms where we may come to know the universe, and ourselves. From Atlantis to Arthur's Camelot, the path to Avalon still awaits. As Gordon Strong demonstrates in this fascinating book - encompassing mythology, magic and modern physics - the ancient wisdom of the Qabalah, the Tarot and Sacred Stone Circles are poised to lead us to the Chalice of Inspiration.

**Landscape Painting of China and Japan** Hugo Munsterberg, 2011-07-10 The Landscape Painting of China and Japan presents for the first time in English a full and lucid account of the remarkable art form which, as a distinct tradition in Oriental art, has come to be universally recognized as one of the greatest in the world. The author points out how essential it is to an understanding of the Orient when he says: In China alone, landscape painting has religious as well as philosophical significance...and in consequence is one of the great manifestations of the human spirit, as well as the most remarkable creation of the Chinese artistic genius. And it was this same artistic tradition which, brought to Japan, was transmuted by the intense Japanese love of nature into paintings that for sheer beauty of color and design have few equals, leading at last to the simplicity and grandeur of the uniquely Japanese woodblock print. Writing for scholar and layman alike, the author carefully traces the evolution of the art throughout its long history, discusses the major artistic personalities against their cultural backgrounds, and systematically describes the development and forms of the landscape. The text is thoroughly illustrated with over a hundred carefully selected plates and a colored frontispiece.
