**F-100 Super Sabre at War** Thomas E. Gardner, 2007-07-15 The first supersonic fighter in not just America but the world, the F-100 Super Sabre marked a real revolution in aircraft design. A celebration of this truly remarkable fighter, F-100 Super Sabre highlights the many firsts in a long and distinguished career: The Super Sabre preceded the Soviet Union's Mig-19 into the supersonic arena by as much as five months. It was the first operational jet fighter to exceed Mach 1 in level flight. And in its heyday the F-100 set a raft of speed and altitude records. The first in a noble line of fighters soon to be known as The Century Series, the F-100 had the F-102 Delta Dagger, F-104 Star Fighter, F-105 Thunderchief, and the venerable F-160 Delta Dart as stablemates. In authoritative text and pictures, technical drawings and photographs, F-100 Super Sabre details the aircraft's every variation, her weaponry, and equipment. The book is a fitting tribute to the fighter nicknamed Hundert or more affectionately, The Hun--an aircraft loved by nearly everyone who flew or tended her and respected by all.

F-100 Super Sabre Units of the Vietnam War Peter E. Davies, David Menard, 2012-11-20 The F-100 Super Sabre may have been superseded by the superior technology of the F-105 Thunderchief and the F-4 Phantom by the Vietnam War it remained in service. The Super Sabre was deployed as an air defence fighter, and was later given nuclear capability. The F-100's toughness, adaptability and reliability made it ideal for the incessant missions that were demanded by close support and counter-insurgency missions. 242 Super Sabres and 87 aircrew were lost during the war but their role, particularly in developing the tactics used for discovering and destroying SAM sites, was invaluable. This book describes some of the most important actions that the F-100 took part in, looks at the pilots who flew it and analyses the impact of the aircraft on the war.

*F-100D/F Super Sabre Walk Around* Len Lundh, Don Greer, Dave Gebhardt, Matheu Spraggins, 2007-01-01 F-100D/F Super Sabre Walk Around. North American's F-100 Super Sabre was the first of the famous Century Series fighters, and America's first capable of supersonic speed in level flight. During the Cold War, it stood as a guardian of freedom around the world. Capable of carrying nuclear weapons while operating from bases in the US, Pacific and

Europe, it helped deter communist aggression. In Vietnam, Super Sabres shouldered the bulk of the attack role for many years provided a platform for high-speed forward Air Control, and pioneered the Wild Weasel concept before the F-105s and F4s took on the role. Under peaceful skies, performances by the USAF Skyblazers and Thunderbirds served to awe the crowds and inspire future pilots. At the end of their service lives, more than 200 F-100s served as target drones, training the crews of later generations of fighters. More than 150 photographs, line drawings and 20 color profiles.

F-100 Super Sabre Units of the Vietnam War Peter E. Davies, David Menard, 2011-08-23 Osprey's examination of the F-100 Super Sabre Units' participation in the Vietnam War (1955-1975). While the F-105 Thunderchief and F-4 Phantom flew the majority of the fighter-bomber missions over North Vietnam, the Thunderchief's service predecessor, the F-100 Super Sabre stayed on to fight the air war in South Vietnam until June 1971. Although it was designed as an air defence fighter, and was later given nuclear capability as the mainstay of Tactical Air Command's deterrent posture, it was the F-100's toughness, adaptability and reliability that made it ideally suited to the incessant 'taxi-rank' close support and counter-insurgency missions in Vietnam. The jet's four 20 mm cannon and external loads of bombs, rockets and fire-bombs defeated many enemy incursions, with US troops in contact expressing a preference for the accuracy and skill of F-100 pilots to save them in situations where ordnance had to be dropped very close to their own lines. Many courageous deeds were performed, although 242 F-100s and 87 aircrew were lost in action. Used at the start of Operation Rolling Thunder in March 1965 as an escort for F-105 strikes, the Super Sabre fought MiGs and one pilot made a credible claim for a MiG-17 destroyed, but the more capable F-4 Phantom II soon replaced it in this role. The air-to-ground war was fought by F-100C/D/F pilots from 21 TAC and Air National Guard squadrons at six bases in South Vietnam and Thailand. From September 1965, a number of two-seat F-100Fs were equipped to detect and pinpoint SA-2 missile sites, and they led F-105s in to destroy them in hazardous missions that founded the suppression of enemy air defences (SEAD) techniques developed for F-105F and F-4C 'Wild Weasel' aircraft later in the war. Other F-100Fs replaced fragile piston-engined forward air control (FAC) aircraft, providing more survivable high-speed airborne management of strike missions. Maj George Day, awarded the Medal of Honor in 1973, was the first leader of this 'Misty FAC' unit. The aircraft's strengths and eccentricities will be examined through analysis of its performance and the anecdotes of

those who flew and serviced it.

Century Series Fighters Peter R. Foster, 1992

*The Friday Pilots* Don Shepperd, 2014-11-10 This is a book of first-person stories written by old pilots, those who flew the old airplanes in the old air force. These are personal stories of growing up in a different America, their lives before political correctness, back when airplanes were dangerous but flying was fun. The group calls themselves the Friday Pilots. They gather at McMahon's Prime Steakhouse in Tucson, Arizona, every Friday for lunch. There are those who finished careers as generals and colonels and majors and captains and even first lieutenants. They laugh. They exchange stories, some true. They have become legends in their own minds. There are fighter pilots, bomber pilots, airline pilots, corporate pilots, and astronauts. They have run large companies and been on boards. They have been rich and they have been poor. They have landed gear up and gear down. They have ridden huge rockets into space. They have crashed and burned. They have been to war. They have been blown from the skies, have run through jungles, and have parachuted into oceans. They have been captured and imprisoned as POWs and horribly tortured. There are heroes at the table, but none will admit it. They will tell you they have flown with those who were. It seems everyone talks about writing a book. The Friday Pilots have done something few do: they have written their stories for their families and friends. Strap in, hold on, and enjoy the ride!

**F-100 Super Sabre in Action** Lou Drendel, 1973 Beskriver den amerikanske jagerbomber North American F-100 Super Sabre herunder udviklingshistorie og versioner.

**American Aviation Icons 1** Theodore Gianna, 2022-07-08 The F-100 Super Sabre, was the first of the elite jets; the famous 'Century Series'. It was also America's first jet to enter the Vietnam War, where it performed well as a close support fighter-bomber. This book offers a concise history of the F-100 Super Sabre, and describes the different variants. There is also a section in the book which recounts some of the more important operations that the Super Sabre performed in the Vietnam conflict, like the 'Wild Weasel' operations, and the 'Misty' 'Forward Air Control' (FAC) operations. The book also includes over 40 paint schemes of the aircraft, and it is mainly composed of color photos of the F-100 Super Sabre. Maybe the 'Hun', as the jet was nicknamed, was not the perfect jet fighter, but it broke several records throughout its illustrious service life, and it will forever be remembered for being the first jet in the world to break the sonic barrier in level flight. No one can ever take that away from the 'HUN'.
