The Fishkill Supply Depot Michael Boyajian,2018-06-30 Sacred history of the Fishkill Supply Depot and American Revolution featuring soldiers, masons, politicians, merchants, women, farmers, slaves and indians. The Depot is the Cradle of the Republic. The British wanted to divide the colonies by capturing the Hudson River. Only the Fishkill Supply Depot stood in the way. Without the Depot there would be no Concord and Lexington, Saratoga or Yorktown. Just read your entire book, Willa E. Skinner, Municipal Historian Emeritus. Defense Inventory U S Government Accountability Office (G,U. S. Government Accountability Office (,2013-07 Pursuant to a congressional request, GAO reviewed the Department of Defense's (DOD) supply depot consolidation program to determine: (1) the validity of DOD-estimated cost savings for the prototype consolidation and for all depots; (2) the validity of actual cost savings at the prototype depots; (3) the impact of consolidation on the depots' performance; and (4) whether impediments exist that could prevent DOD from fully achieving the projected benefits. GAO found that: (1) consolidation of supply depots under single agency management, if properly combined with other DOD initiatives, could result in more efficient and cost-effective depot operations; (2) DOD savings estimates are questionable because DOD based the estimates on the assumption that the depot work would remain constant; (3) DOD calculated the estimated savings for all depots using flawed data, and the workload at the prototype depots has declined; (4) the portion of savings attributable to the consolidation is not known because the Defense Logistics Agency (DLA) has not separated savings due to consolidation from those due to decreased workload; (5) DLA recognizes that its existing performance measurement system

should be improved and is developing a more useful system; (6) the size of the DOD inventory is a principal impediment to achieving the full benefit of depot consolidation; and (7) the latest inventory report from DOD indicates that, as of September 1991, \$21.3 billion of the total secondary item inventory of \$88.1 billion is excess to DOD requirements.
