Surak's Soul J.M. Dillard,2003-03-01 In this thrilling and eye-opening Star Trek: Enterprise novel, T'Pol finds herself torn between the teachings of Vulcan and the regulations of Starfleet. You are alone in the dark reaches of space, surrounded by aliens who do not understand who you are and what you are, and who will not accept your beliefs. Under such circumstances, an emotional human would feel lost, cut off, adrift, but Sub-Commander T'Pol is a Vulcan, and Vulcans control their emotions. However, no other Vulcan has served for longer than a few weeks on a human ship. Has she, as others imply, lost her way? Pulled, once again, into one of Captain Archer's dangerously impulsive attempts to make first contact, the sub-commander finds her life threatened. T'Pol reacts, draws her phase pistol and kills. It was a simple act of self-defense. But is killing ever simple? Has she forsaken the teachings of Surak? Determined to be true to her heritage, T'Pol forswears violence. She tells Captain Archer that never again will she kill—even if ordered. Is she, as Archer suggests, endangering the entire ship?

Enterprise: Surak's Soul J M Dillard,2012-08-14 From the successful new Star Trek franchise comes the story of its most popular character - the brilliant Vulcan science officer T'Pol. Pulled, once again, into one of Captain Jonathan Archer's headlong rushes for first contact, Sub-commander T'Pol believes her life -- and those of her colleagues -- is threatened. Instinctively she reacts, draws her phaser and kills. A simple act of self-defence. Or was it? As a Vulcan, an alien race under the strictest of self-imposed philosophical regimes, has T'Pol committed the ultimate act of self-betrayal? Has she forsaken the nonviolent teachings of Surak?

The Golden Passport Kristin Surak,2023 The Golden Passport is the first on-the-ground investigation of investor citizenship. Some 50,000 people annually pay cash for citizenship in various microstates desperate for investment. Kristin Surak uncovers the surprising motivations of the buyers, the effects on seller-state locals, and the geopolitical dynamics driving the industry--

Making Tea, Making Japan Kristin Surak,2012-11-28 The tea ceremony persists as one of the most evocative symbols of Japan. Originally a pastime of elite warriors in premodern society, it was later recast as an emblem of the modern Japanese state, only to be transformed again into its current incarnation, largely the hobby of middle-class housewives. How does the cultural practice of a few come to represent a nation as a whole? Although few non-Japanese scholars have peered behind the walls of a tea room, sociologist Kristin Surak came to know the inner workings of the tea world over the course of ten years of tea training. Here she offers the first comprehensive analysis of the practice that includes new material on its historical changes, a detailed excavation of its institutional organization, and a careful examination of what she terms nation-work—the labor that connects the national meanings of a cultural practice and the actual experience and enactment of it. She concludes by placing tea ceremony in comparative perspective, drawing on other expressions of nation-work, such as gymnastics and music, in Europe and Asia. Taking readers on a rare journey into the elusive world of tea

ceremony, Surak offers an insightful account of the fundamental processes of modernity—the work of making nations.

The Lost Years J.M. Dillard, 2003-03-06 After the end of the Enterprise™'s five-year mission, Captain Kirk, Mr. Spock, and Dr. McCoy struggle to establish new lives apart from each other and the starship. The newly-promoted Admiral Kirk is placed in charge of a specially-created Starfleet division and attempts to defuse a critical hostage situation; Mr. Spock, who, in the midst of a teaching assignment on Vulcan, finds the one thing he least expected; and Dr. McCoy, whose unerring instinct for trouble lands him smack in the middle of an incident that could trigger an interstellar bloodbath.

Governing Waste Sarah Surak, 2016-04-15 The activities of Americans create 250 million tons of waste each day, a quantity steadily increasing over the last sixty years. Disposing of waste is a financial burden for governments due to potential environmental, public health, and aesthetic impacts. Consequentially, a complex web of local, state, and federal entities and processes developing since the late 18th century now governs waste removal and reduction practices. As public managers continue to struggle with the environmental and economic impacts of waste management it is important to understand barriers to and potentials for reform in organizational structures and administrative practices. *Governing Waste: Politics, Process and Public Administration* documents and assesses these practices and resulting management activities focusing specifically on the American public administrative experience. It provides both an understanding of the current conditions of waste creation as well as raises possibilities for creating a more sustainable future through the practice of public management. Grounding the importance of the discussion of waste within broader discussions of sustainability and public administration, Sarah Surak begins by providing a description of the current state of waste management as well as the economic drivers for particular forms of management in order to identify overall themes and practices of waste, public administration, and sustainability. In Part Two she describes specific aspects of current practices of waste management: large-scale infrastructure development for the disposal of waste and municipal recycling and composting programs. This section assesses the logistics of municipal management identifying standard practices to distinguish potential barriers and opportunities to sustainable practices. The final section looks towards alternative resource management arrangements, both those found in practice as well as proposed in theory.

Marcuse in the Twenty-First Century Robert Kirsch, Sarah Surak, 2018-12-07 This book engages the critical theory of political philosopher Herbert Marcuse to imagine spaces of resistance and liberation from the repressive forces of late capitalism. Marcuse, an influential counterculture voice in the 1960s, highlighted the smooth democratic unfreedom of postwar capitalism, a critique that is well adapted to the current context. The compilation begins with a previously unpublished lecture delivered by Marcuse in 1966 addressing the inadequacy of philosophy in its current form, arguing how it may be a force for liberation and social change. This lecture provides a theoretical mandate for the volume's original contributions from international scholars engaging how topics such as higher education, aesthetics, and political organization can contribute to the project of

building a critical rationality for a qualitatively better world, offering an alternative to the bleak landscape of neoliberalism. The essays in this volume as whole engage the current context with an urgency appropriate to the problems facing an encroaching authoritarianism in political society with an interdisciplinary lens that speaks to the complexity of the problems facing modern society. The chapters originally published as a special issue in New Political Science.

Citizenship and Residence Sales Dimitry Vladimirovich Kochenov,Kristin Surak,2023-04-13 Citizenship and residence by investment is a fast-growing global phenomenon. As of 2022, more than a third of all countries in the world offered paths to membership in exchange for a donation or investment into their economies. Yet we know little about how these programmes operate and debates in academia and the wider public are often misinformed by sensationalist cases. This book offers a multidisciplinary exploration of both citizenship and residence by investment on a global scale. Bringing together the expertise of leading legal scholars, economists, sociologists, political scientists, and historians, it provides an informative and empirically grounded assessment of the origins, operation, key causes, and the legal bases of the investment migration programmes. By so doing, the volume demystifies citizenship and residence by investment and takes a critical postcolonial global perspective, addressing key issues in belonging, exclusion, and inequality that define the world today.

Beyond Citizenship and the Nation-State Jocelyn M. Boryczka,Sarah M. Surak,2023-06-05 Beyond Citizenship and the Nation-State examines tensions between a push for clear boundaries defining nation-states and who “legitimately” belongs in them and a pull away from citizenship as capturing what membership in a political community looks like in the twenty-first century. Borders signify and represent these physical and metaphorical challenges in a world where (anti)migration and (anti)refugee rhetoric are central to the production and reproduction of postcolonial and nationalist political discourse and identity formation. With an expansive view of citizenship, authors challenge dominant narratives, explore alternatives to neoliberal frameworks, and link theory and practice through participatory opportunities for non-citizen political participation. In doing so, they present possibilities for reimagining citizenship for a just, more sustainable future. This book will appeal to academics and practitioners working in the disciplines of Sociology, Social Policy, Human Geography, Political Sciences, Citizenship Studies and Migration Studies. It was originally published as a special issue of New Political Science.

The Certified HACCP Auditor Handbook, Third Edition ASQ's Food, Drug, and Cosmetic Division,2014-01-14 This handbook is intended to serve as a baseline of hazard analysis critical control point (HACCP) knowledge for quality auditors. HACCP is more than just failure mode and effect analysis (FMEA) for food: it is a product safety management system that evolved and matured in the commercial food processing industry allowing food processors to take a proactive approach to prevent foodborne diseases. Both the FDA and the USDA

have embraced HACCP as the most effective method to ensure farm-to-table food safety in the United States. This handbook also assists the certification candidate preparing for the ASQ Certified HACCP Auditor (CHA) examination. It includes chapters covering the HACCP audit, the HACCP auditor, and quality assurance analytical tools.
