Louis F. Fourie

Bigjam Vol.1 ,

On a Global Mission: The Automobiles of General Motors International Volume 3 Louis F.

Fourie, 2016-12-27 Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the world and the evolution of GM's export operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held. An index ensures that these volumes serve as the ideal reference source on GM.

Ethology and Behavioral Ecology of Odontocetes

Bernd Würsig, 2019-08-02 This book concentrates on the marine mammalian group of Odontocetes, the toothed whales, dolphins, and porpoises. In 23 chapters, a total of 40 authors describe general patterns of ethological concepts of odontocetes in their natural environments, with a strong bent towards behavioral ecology. Examples are given of particularly well-studied species and species groups for which enough data exist, especially from the past 15 years. The aim is to give a modern flavor of present knowledge of ethology and behavior of generally large-brained behaviorally flexible mammals that have evolved quite separately from social mammals on land. As well, the plight of populations and species due to humans is described in multiple chapters, with the goal that an understanding of behavior can help to solve or alleviate at least some human-made problems.

Grammar, Meaning, and Concepts Susan
Strauss, Parastou Feiz, Xuehua Xiang, 2018-05-11
Grammar, Meaning, and Concepts: A Discourse-Based
Approach to English Grammar is a book for language
teachers and learners that focuses on the meanings
of grammatical constructions within discourse,
rather than on language as structure governed by
rigid rules. This text emphasizes the ways in
which users of language construct meaning, express
viewpoints, and depict imageries using the
conceptual, meaning-filled categories that
underlie all of grammar. Written by a team of
authors with years of experience teaching grammar
to future teachers of English, this book puts
grammar in the context of real language and
illustrates grammar in use through an abundance of
authentic data examples. Each chapter also
provides a variety of activities that focus on
grammar, genre, discourse, and meaning, which can
be used as they are or can be adapted for
classroom practice. The activities are also
designed to raise awareness about discourse,
grammar, and meaning in all facets of everyday
life, and can be used as springboards for upper
high school, undergraduate, and graduate level
research projects and inquiry-based grammatical

analysis. Grammar, Meaning, and Concepts is an ideal textbook for those in the areas of teacher education, discourse analysis, applied linguistics, second language teaching, ESL, EFL, and communications who are looking to teach and learn grammar from a dynamic perspective.

Three Years in a 12-Foot Boat Stephen G. Ladd, 2000 For anyone who dreams of sailing away, here's an engrossing, gritty memoir of a 15,000-mile solo expedition in a tiny, hand-made boat. Bent on discovery, Ladd ranges from Montana to a harrowing sail along the pirate-ridden coast of Panama and Colombia, across the Andes, down a 600-mile river by night to avoid guerrillas, to the Antilles and the Caribbean. Robbed, capsized, arrested and befriended, he sails and rows through a tumult of uncharted adventures. The cast of characters: Dieter, mad ex-Nazi on a desert island; Hans, the smuggler who disappears at sea; castaways, prostitutes, and fortune seekers. Stow away with a poetic storyteller on a stormy,

soulful voyage through nineteen countries, on the razor's edge between freedom and fear, loneliness and love.
