Land Condition Trend Analysis Avian Database: Ecological Guild-based Summaries ,1998 Land Condition Trend Analysis (LCTA) bird database documentation capabilities often are limited to the generation of installation-wide species checklists, estimates of relative abundance, and evidence of breeding activity. The conservation and characterization of biological diversity is becoming a management objective of both governmental and private organizations, and as such, more ecologically descriptive summaries are being required. Ecological guild analyses have been proposed as a means to link wildlife to a specific biodiversity component, and thus represents an option to military trainers in evaluating impacts to wildlife communities. This report documents an LCTA database update that provides selected ecological attributes (particularly for the nesting season) for 676 bird species occurring within the continental United States. This database upgrade provides land managers the capability to: (1) generate ecological guild-based summaries with no additional fieldwork, (2) identify specific groups of birds most likely to be impacted by a spatially discrete training impact, (3) customize the local database by adjusting individual attributes for species specific to the installation, and (4) conveniently cross reference or simply convert all LCTA species codes to more globally recognized American Ornithological Union AOU numbers or the Bird Banding Laboratories Alpha codes.

Excelsior Amusement Park Greg Van Gompel,2017-07-31 Minneapolis roared into the 1920s as a major metropolis, but it lacked the kind of outdoor amusement facilities common elsewhere across the country. In 1925, Fred W. Pearce introduced the Twin Cities to his Picnic Wonderland. Crowds eagerly poured onto the shores of Lake Minnetonka by the trolley load. Luckily, Excelsior Park survived the Great Depression and World War II on the strength of its celebrity acts. Changes in the forms of transportation, combined with innovations in the outdoor entertainment industry such as Disneyland and an aging infrastructure, eventually forced the park to close its gates.

Playland Kathryn W. Burke,2008 Playland offers an inviting look at the historic amusement park on the shore of the Long Island Sound in Rye. This book recalls the early days and the later years of Playland, a national historic landmark and America's only publicly owned amusement park. Opened in 1928 as part of the newly developed Westchester County Park System, Playland originally drew crowds that arrived via automobile, bus, and steamship for the circus acts, sideshows, and rides, such as the Swooper, an oval roller coaster, and the Derby Racer, one of only two left in the United States. An all-purpose resort, the park included a beach, bathhouse, pool, and casino with restaurants and games. Today the park draws even larger crowds--nearly a million people each season--that come for the Dragon Coaster and other rides, Kiddyland, the indoor ice rink, the pool, the beach, and the boardwalk.

The Heart Thief Rose Grey,2022-08-30 Interim Marshal Poe Lancaster tries to maintain peace between factions in his small frontier town, but when a group of unattached women arrives in Sector 1065 all bets are off. Dilara Elian knows all about plans. She planned to marry until she learned she was being played. She planned to flee the galaxy, but now, thanks to the marshal's interference, she is stranded in Sector 1065. The new plan is to keep a low profile until she earns enough money to buy a ticket on the next spaceship out. She didn't plan to incite a riot. As far as Poe is concerned, women and trouble go together. He married one once and the best part was when she left. Still, there is no law against friendship and keeping his eye on Dilara seems prudent given her secretive nature. But when a bounty hunter arrives, Poe will have to choose between the law and the women who stole his heart.

Love's Way Carolyn Miller Parr, Sig Cohen, 2022-10-18 This important book helps families address the necessary legal hurdles and emotional difficulties that arise with aging parents. Addressing the areas of relationships, emotions, and dignity with practical and scriptural insights, this book will help to ensure that the aging parent is protected along with the other relationships in the family. Love's Way is a book that adult families will want to keep handy and return to often. Written by two family mediators, it provides readers with a map through the weeds that spring up along the path as parents age and roles reverse. Using real-life examples from years of working with families in this season of life, the authors illustrate common issues that can send a family into serious issues: unhealed sibling rivalries, parental favoritism, greed, secrecy, and fear of initiating necessary conversations. Readers will learn how to spot potential problems before they become crises and prevent or rectify them in their own families. They'll learn what documents everyone needs, how to work with forgiveness, how to speak truth in love, and how to let go. Most importantly, readers (both adult children and their parents) will gain tools to create their own win-win solutions that keep parents safe and autonomous and family love intact. Although Carolyn Miller Parr and Sig Cohen come from different faith traditions (Carolyn is Christian and Sig is Jewish), both are deeply committed. As a result, Love's Way is both spiritual and practical. It overflows with advice readers can immediately begin to apply, with stories from the authors' fifteen years as co-mediators, writers, speakers, and personal experiences as caregivers to their own aging parents. Carolyn Miller Parr is a retired judge, mediator, writer, and public speaker. She graduated from Stetson University (BA), Vanderbilt (MA English), and Georgetown Law (JD). Since 2002, Judge Parr has practiced peacemaking through her mediation practice Beyond Dispute and Tough Conversations with Sig Cohen. Sig Cohen is a retired Foreign Service officer, fundraiser, and community organizer, and now serves as a mediator. He graduated from the University of Pennsylvania (BS) and the University of Chicago (MA in International Relations).

Borrowing Brilliance David Kord Murray, 2009-09-03 In a book poised to become the bible of innovation, a renowned creativity expert reveals the key to the creative process-borrowing. As a former aerospace scientist, Fortune 500 executive, chief innovation officer, inventor, and software entrepreneur, David Kord Murray has made a living by coming up with innovative ideas. In Borrowing Brilliance he shows readers how new ideas are merely the combination of existing ones by presenting a simple six-step process that anyone can use to build business innovation:
?Defining-Define the problem you're trying to solve. ?Borrowing-Borrow ideas from places with a similar problem. ?Combining-Connect and combine these borrowed ideas. ?Incubating-Allow the combinations to incubate into a solution. ?Judging-Identify the strength and weakness of the solution. ?Enhancing-Eliminate weak points while enhancing strong ones. Each chapter features real-life examples of brilliant borrowers, including profiles of Larry Page and Sergey Brin (the Google guys), George Lucas, Steve Jobs, and other creative thinkers. Murray used these methods to re-create his own career and he shows readers how to harness them to find creative solutions.
