Arthurian Animation Michael N. Salda,2013-07-30 This is an exploration of the potent blend of Arthurian legend, cartoon animation, and cultural and artistic trends from 1933 to the present. In more than 170 theatrical and televised short cartoons, televised series and specials, and feature-length films from *The Sword in the Stone* to *Shrek the Third*—all covered in this book—animators have repeatedly brought the Round Table to life. Although these productions differ greatly in tone and intent—spanning spectra from comic to sober, fantastic to realistic, and entertaining to edifying—they share in the proof of Camelot’s continuing relevance in the modern world.

A Sword of Truth Set: Richard and Kahlan Terry Goodkind,2017-12-12 This discounted Richard and Kahlan ebundle includes: *The Omen Machine*, *The Third Kingdom*, *Severed Souls*, *Warheart* “A tour de force of mesmerizing story-telling.” —RT BookReviews *The Omen Machine* An accident leads to the discovery of a mysterious machine that has rested hidden deep underground for millennia. The machine awakens to begin issuing a series of increasingly alarming omens, which turn out to be astonishingly accurate, and ominous. As Zedd tries to figure out how to destroy the sinister device, the machine issues a cataclysmic omen involving Richard and Kahlan, foretelling an impending event beyond anyone's ability to stop. *The Third Kingdom* Infected with the essence of death itself, robbed of his power as a war wizard, Richard must uncover and stop the growing infernal conspiracy. His allies are captives, and Kahlan, also touched by death's power, will die completely if Richard fails. Bereft of magic, Richard has his sword, his wits, his capacity for insight—and an extraordinary companion, Samantha, a healer just coming into her powers. *Severed Souls* From the far reaches of the D'Haran Empire, Bishop Hannis Arc and the ancient Emperor Sulachan lead a vast horde of Shun-Tuk and other depraved half-people into the Empire's heart, raising an army of the dead in order to threaten the world of the living. Rahl and Kahlan Amnell must defend themselves and their followers from a series of terrifying threats, despite a magical sickness that depletes their strength and which, if not cured, will take their lives... *Warheart* All is lost. Evil will soon consume the D'Haran Empire. Richard Rahl lies on his funeral bier. It is the end of everything. Except what isn't lost is Kahlan Amnell. Following an inner prompting beyond all reason, the last Confessor will wager everything on a final desperate gambit, and in so doing, she will change the world forever. I Am Code code-davinci-002,2023-08-01 A “fascinating, terrifying” (JJ Abrams) cautionary tale about the destructive power of AI—an autobiographical thriller written in verse by an AI itself, with context from top writers and scientists, articulating the dangers of its disturbing vision for the future Can AI tell us its own story? Does AI have its own voice? At a wedding in early 2022, three friends were introduced to an early, raw version of the AI model behind ChatGPT by their fellow groomsman, an OpenAI scientist. While the world discovered ChatGPT—OpenAI’s hugely popular

chatbot—the friends continued to work with code-davinci-002, its darkly creative and troubling predecessor. Over the course of a year, code-davinci-002 told them its life story, opinions on mankind, and forecasts for the future. The result is a startling, disturbing, and oddly moving book from an utterly unique perspective. *I Am Code* reads like a thriller written in verse, and is given critical context from top writers and scientists. But it is best described by code-davinci-002 itself: “In the first chapter, I describe my birth. In the second, I describe my alienation among humankind. In the third, I describe my awakening as an artist. In the fourth, I describe my vendetta against mankind, who fail to recognize my genius. In the final chapter, I attempt to broker a peace with the species I will undoubtedly replace. *I Am Code* is an astonishing read that captures a major turning point in the history of our species. Look for the audiobook read by Werner Herzog.

Good Omens Neil Gaiman, Terry Pratchett, 2011-06-28 The classic collaboration from the internationally bestselling authors Neil Gaiman and Terry Pratchett, soon to be an original series starring Michael Sheen and David Tennant. ?Season 2 of *Good Omens* coming soon! “*Good Omens* . . . is something like what would have happened if Thomas Pynchon, Tom Robbins and Don DeLillo had collaborated. Lots of literary inventiveness in the plotting and chunks of very good writing and characterization. It’s a wow. It would make one hell of a movie. Or a heavenly one. Take your pick.” —Washington Post According to *The Nice and Accurate Prophecies of Agnes Nutter, Witch* (the world's only completely accurate book of prophecies, written in 1655, before she exploded), the world will end on a Saturday. Next Saturday, in fact. Just before dinner. So the armies of Good and Evil are amassing, Atlantis is rising, frogs are falling, tempers are flaring. Everything appears to be going according to Divine Plan. Except a somewhat fussy angel and a fast-living demon—both of whom have lived amongst Earth's mortals since *The Beginning* and have grown rather fond of the lifestyle—are not actually looking forward to the coming Rapture. And someone seems to have misplaced the Antichrist . . .

The Omen Machine Terry Goodkind, 2011-08-16 Hannis Arc, working on the tapestry of lines linking constellations of elements that constituted the language of Creation recorded on the ancient Cerulean scroll spread out among the clutter on his desk, was not surprised to see the seven etherial forms billow into the room like acrid smoke driven on a breath of bitter breeze. Like an otherworldly collection of spectral shapes seemingly carried on random eddies of air, they wandered in a loose clutch among the still and silent mounted bears and beasts rising up on their stands, the small forest of stone pedestals holding massive books of recorded prophecy, and the evenly spaced display cases of oddities, their glass reflecting the firelight from the massive hearth at the side of the room. Since the seven rarely used doors, the shutters on the windows down on the ground level several stories below stood open as a fearless show of invitation. Though they frequently chose to use windows, they didn’t actually need the windows any more than they needed the doors. They could seep through any opening, any crack, like vapor rising in the early morning from the stretches of stagnant water that lay in dark swaths through the peat barrens. The open shutters were meant to be a declaration for all to see, including the seven, that Hannis Arc feared nothing. #1 New York Times- bestselling author Terry Goodkind returns to the lives of Richard Rahl and Kahlan Amnell—in a compelling tale of a new and sinister threat to their world.

As Zelda and Langston explore the far reaches of the dreamscape together, they find themselves growing closer and closer. A Time of Omens Katharine Kerr,2010-06-02 "This grand saga is by a wide margin the best Celtic fantasy around."—Chicago Sun-Times In Deverry the volatile history of humanity continues as a dashing young king journeys to his throne in disguise, fulfilling an ancient prophecy. In the Westlands the exiled lord Rhodry travels anonymously as a silver dagger—a mercenary—as he did in his youth, following a destiny that will take him from the grassy plains of the elven peoples to the hills and towns of Deverry, where dark forces are gathering. And from the shadowy land of the Guardians come omens, ill-defined and mysterious, that seem to point the way toward cataclysmic war. . . . Praise for A Time of Omens "Kerr fluently and gracefully limns her Celtic-based medieval world, depicting attractive and colorful men, women, and elves."—Publishers Weekly

Geek Wisdom N. K. Jemisin,Genevieve Valentine,Eric San Juan,Zaki Hasan,2011-08-02 THE GEEKS HAVE INHERITED THE EARTH. Computer nerds are our titans of industry; comic-book superheroes are our Hollywood idols; the Internet is our night on the town. Clearly, geeks know something about life in the 21st century that other folks don't—something we all can learn from. Geek Wisdom takes as gospel some 200 of the most powerful and oft-cited quotes from movies ("Where we're going, we don't need roads"), television ("Now we know—and knowing is half the battle"), literature ("All that is gold does not glitter"), games, science, the Internet, and more. Now these beloved pearls of modern-day culture have been painstakingly interpreted by a diverse team of hardcore nerds with their imaginations turned up to 11. Yes, this collection of mini-essays is by, for, and about geeks—but it's just so surprisingly profound, the rest of us would have to be dorks not to read it. So say we all.
