**Galit Weidman Sassoon**

*Vagueness, Gradability and Typicality* Galit Weidman Sassoon, 2013-03-15 Brill's Encyclopedia of the Middle Ages offers an accessible yet engaging coverage of medieval European history and culture, c. 500-c. 1500, in a series of themed articles, taking an interdisciplinary and comparative approach.

*The Soil Underfoot* G. Jock Churchman, Edward R. Landa, 2014-04-21 The largest part of the world's food comes from its soils, either directly from plants, or via animals fed on pastures and crops. Thus, it is necessary to maintain, and if possible, improve the quality—and hence good health—of soils, while enabling them to support the growing world population. *The Soil Underfoot: Infinite Possibilities for a Finite Resource* arms readers with historical wisdom from various populations around the globe, along with current ideas and approaches for the wise management of soils. It covers the value of soils and their myriad uses viewed within human and societal contexts in the past, present, and supposed futures. In addition to addressing the technical means of maintaining soils, this book presents a culturally and geographically diverse collection of historical attitudes to soils, including philosophical and ethical frameworks, which have either sustained them or led to their degradation. Section I describes major challenges associated with climate change, feeding the increasing world population, chemical pollution and soil degradation, and technology. Section II discusses various ways in which soils are, or have been, valued—including in film and contemporary art as well as in religious and spiritual philosophies, such as Abrahamic religions, Maori traditions, and in Confucianism. Section III provides stories about soil in ancient and historic cultures including the Roman Empire, Greece, India, Japan, Korea, South America, New Zealand, the United States, and France. Section IV describes soil modification technologies, such as polymer membrane barriers, and soil uses outside commercial agriculture including the importance of soils for recreation and sports grounds. The final section addresses future strategies for more effective sustainable use of soils, emphasizing the biological nature of soils and enhancing the use of green water retained from rainfall.

*Evolutionary Multi-Criterion Optimization* Kalyanmoy Deb, Erik Goodman, Carlos A. Coello Coello, Kathrin Klamroth, Kaisa Miettinen, Sanaz Mostaghim, Patrick Reed, 2019-02-28 This book constitutes the refereed proceedings of the 10th International Conference on Evolutionary Multi-Criterion Optimization, EMO 2019 held in East Lansing, MI, USA, in March 2019. The 59 revised full papers were carefully reviewed and selected from 76 submissions. The papers are divided into 8 categories, each representing a key area of current interest in the EMO field today. They include theoretical developments, algorithmic developments, issues in many-objective optimization, performance metrics, knowledge extraction and surrogate-based EMO, multi-objective combinatorial problem solving, MCDM and interactive EMO methods, and applications.

#### **MULTIDISCIPLINARY ACCIDENT INVESTIGATION DATA FILE 1974 Final Report ,1975**

**Touch Screen Tablets Touching Children's Lives** Joanne Tarasuik, Gabrielle Strouse, Jordy Kaufman, 2018-02-28 Touch screen tablets have greatly expanded the technology accessible to preschoolers, toddlers and even infants, given that they do not require the fine motor skills required for using traditional computers. Many parents and educators wish to make evidence-based decisions regarding young children's technology use, yet technological advancements continue to occur faster than researchers can keep up with. Accordingly, despite touch screen tablets entering society more than 5 years ago, we are in the infancy of research concerning interactive media and children. The topic has gained traction in the past couple of years. For example theoretical papers have discussed how interactive media activities differ from physical toys and passive media (Christakis, 2014), and how educational apps development should utilise the four "pillars" of learning (Hirsh-Pasek et al., 2015). Yet there has been little experimental research published on young children and touch screen use.

**EAL Research for the Classroom** Gavin Brooks, Jon Clenton, Simon Fraser, 2023-06-27 With an estimated 1.6 million English as an Additional

Language (EAL) learners in the UK, and over 5 million in the USA, EAL research is urgently needed to inform practice. This edited volume investigates the multifaceted elements that shape EAL pedagogy and research in a variety of settings and research areas, including linguistic ability influences on subject-specific skills, integrating learners' home languages into classroom environments, and the importance of supporting EAL teachers in the classroom. In doing so, the contributors provide an international perspective on the emerging field of EAL research. The research-based chapters detail fundamental concerns related to EAL learner education. The text is composed of five parts: Part I explores the question of what is EAL and how a definition can shape policy construction; Part II examines the challenges EAL learners face in the classroom, including the use of first languages and the relative impact learner language proficiency has on subject-specific classes; Part III discusses the challenges involved with preparing learners to study in an EAL environment; Part IV investigates concerns relating to supporting EAL teachers in the classroom; and Part V brings together the insights from the previous chapters and provides a road map for future research in the field. The volume draws on researcher expertise from a variety of universities and institutions worldwide. It explores diverse language backgrounds in multilingual contexts. It covers empirical studies with pedagogical, policy, and further research implications. The volume represents a single resource invaluable for EAL teachers, trainers, and trainees, as well as researchers in education, language learning and teaching, bilingualism and multilingualism, and second language acquisition.

*Groundwater 2000* Poul L. Bjerg, Peter Engesgaard, Thomas D. Krom, 2020-08-18 These proceedings, with cd-rom, present a comprehensive overview of advances in groundwater research. The five main topics covered are: aquifers and contaminant distribution; groundwater quality; natural attenuation; remediation technologies and groundwater protection. *Groundwater 2000* is a useful resource to both scientists and to those working in the field.

Journal of Soil and Water Conservation, 2014 Vol. 25, no. 1 contains the society's Lincoln Chapter's Resource conservation glossary.

**The Story of Petese, Son of Petetum, and Seventy Other Good and Bad Stories (P. Petese)** K. S. B. Ryholt, 1999 A complete edition of the three known versions of the Egyptian narrative written in Demotic, copied from the 4th century BC through the 2nd century AD, employing the literary device of main story: a prophet commits an act of blasphemy, for which he is punished by the gods. In the remaining 35 days of his life 35 good and 35 bad stories are presented to him.

Le Rouleau de la guerre J.P.M. van der Ploeg, 2018-10-16

Persian Vocabulary Book Pinhok Languages, 2022-08-23 Persian vocabulary book + Persian dictionary This Persian vocabulary book contains more than 3000 words and phrases which are grouped by topic to make it easier for you to pick what to learn first. On top of that, the index in the second half of the book provides you with a basic Persian-English as well as English-Persian dictionary which makes this a great resource for learners of all levels. What you can expect from this book: This Persian learning resource is a combination of Persian vocabulary book and a two-way basic Persian dictionary: Part 1 - Topic based Persian vocabulary book: This is the main part of the book and represents a list of chapters each containing Persian vocabularies for a certain topic. The Persian vocabularies in the chapters are unsorted on purpose to separate remembering them from a defined alphabetical order. You can start at any chapter and dive directly into the topics that interest you the most. Part 2 - Basic English-Persian dictionary: The index in the second half of the book can be used as a basic Persian dictionary to look up words you have learned but can't remember or learn new words you need. Part 3 - Basic Persian-English dictionary: Easy to use and with just the right amount of words, this third part finishes off with a second index that allows you to look for Persian words and directly find the English translation How to use this Persian vocabulary book: Not sure where to start? We suggest you first work your way through the verbs, adjectives and phrases chapters in part one of the book. This will

give you a great base for further studying and already enough vocabulary for basic communication. The Persian dictionaries in part two and three can be used whenever needed to look up words you hear on the street, English words you want to know the Persian translation for or simply to learn some new words. Some final thoughts: Vocabulary books have been around for centuries and as with so many things that have been around for some time, they are not very fashionable and a bit boring, but they usually work very well. Together with the basic Persian dictionary parts, this vocabulary book is a great resource to support you throughout the process of learning Persian and comes in particularly handy at times when there is no internet to look up words and phrases.

*Fundamentals of Computation Theory* Andrzej Lingas, Bengt J. Nilsson, 2003-12-15 This book constitutes the refereed proceedings of the 14th International Symposium Fundamentals of Computation Theory, FCT 2003, held in Malmö, Sweden in August 2003. The 36 revised full papers presented together with an invited paper and the abstracts of 2 invited talks were carefully reviewed and selected from 73 submissions. The papers are organized in topical sections on approximability, algorithms, networks and complexity, computational biology, computational geometry, computational models and complexity, structural complexity, formal languages, and logic.

*Language, Life, Limits* Arnold Beckmann, Ersébet Csuhaj-Varjú, Klaus Meer, 2014-06-05 This book constitutes the refereed proceedings of the 10th Conference on Computability in Europe, CiE 2014, held in Budapest, Hungary, in June 2014. The 42 revised papers presented were carefully reviewed and selected from 78 submissions and included together with 15 invited papers in this proceedings. The conference had six special sessions: computational linguistics, bio-inspired computation, history and philosophy of computing, computability theory, online algorithms and complexity in automata theory.

Middle Kingdom Palace Culture and Its Echoes in the Provinces Alejandro Jiménez-Serrano, Antonio J. Morales, 2021-01-25 The chapters of Middle Kingdom Palace Culture and Its Echoes in the Provinces discuss the degree of influence that provincial developments played in reshaping the Egyptian state and culture during the Middle Kingdom. Contributors to the volume are Egyptologists from around the world who have developed their research following a conference held at the University of Jaén in Spain.
