Fallen Giants Francis Pulham,2017-09-09 The Soviet T-35A is the only five-turret tank in history to enter production. With a long and proud service history on parade grounds, the T-35A was forced to adapt to the modern battlefield. Outclassed and outdated, the T-35A tried to hold its own against German invaders with terrible consequences. Fallen Giants: The Combat Debut of the T-35A Tank gives a grim depiction of the aftermath of the goliath that was the T-35A. Very little is known of these strange vehicles bar their basic shape and photographs of parade grounds and frontline action. For the first time, battlefield photographs have been cross-referenced with maps and documents to bring the most complete look at the T-35A in the Second World War to date. Explore the changes that were made to the design throughout the 1930s and interesting conversions often missed.
