T-34-85 Medium Tank 1944–94 Steven J. Zaloga,2013-08-20 The T-34-85 tank is one of those rare weapons that have remained in service for more than half a century. First introduced in 1944, it has seen combat in nearly every corner of the globe. Steven Zaloga and Jim Kinnear look at this long-serving tank at length. Although long obsolete in Europe, it has proven a reliable and potent weapon in many Third World conflicts, and is still in service with more than a dozen armies around the world.

T-34/76 Medium Tank 1941–45 Steven J. Zaloga,2013-08-20 The T-34 was the most influential tank design of World War 2. When first introduced into combat in the summer of 1941, it represented a revolutionary leap forward in tank design. Its firepower, armour protection and mobility were superior to that of any other medium tank of the period. This superiority did not last long. While the T-34 underwent a series of incremental improvements during 1943, it was being surpassed by new German tank designs, most notably the Panther. This title traces the life of the original T-34 through all its difficulties to eventual success.

Inflection and Word Formation in Romance Languages Sascha Gaglia,Marc-Olivier Hinzelin,2012 Morphology, and in particular word formation, has always played an important role in Romance linguistics since it was introduced in Diez's comparative Romance grammar. Recent years have witnessed a surge of interest in inflectional morphology, and current research shows a strong interest in paradigmatic analyses. This volume brings together research exploring different areas of morphology from a variety of theoretical and methodological perspectives. On an empirical basis, the theoretical assumption of the 'Autonomy of Morphology' is discussed critically. 'Data-driven' approaches carefully examine concrete morphological phenomena in Romance languages and dialects. Topics include syncretism and allomorphy in verbs, pronouns, and articles as well as the use of specific derivational suffixes in word formation. Together, the articles in this volume provide insights into issues currently debated in Romance morphology, appealing to scholars of morphology, Romance linguistics, and advanced students alike.

Lifestyles and Subcultures Luigi Berzano,Carlo Genova,2015-05-22 Lifestyles and subcultures are tools through which people say – to themselves and to others – who they think they are, who they think they are similar to, and who they think they are different from. Lifestyles and subcultures are ways which people adopt to look at their own lives, and to try to keep together different roles, different practices and different realms which they are involved in. Lifestyles and subcultures are lenses through which we, as observers, analyze society, and orientate ourselves within it, looking for similarities and differences among individuals and collectivities which allow us to understand their thoughts and their actions. This book presents the main analytical approaches through which lifestyles and subcultures have been studied, and also proposes a new interpretative perspective. Today a growing panorama of social phenomena and processes possess intermediate characteristics with regard to those which in the past were identified either as lifestyles or as subcultures. The hypothesis is that consequently these phenomena could be explained and interpreted by means of an analytical framework developed by the intersection of these two perspectives, and the last part of the book is therefore devoted to the presentation of this innovative framework. This book provides new lenses and a fresh view to try to both grasp and understand a constantly-changing reality.
