

Ta

Kathy Ellen Davis

Into TA William F. Cornell,2018-05-08 Transactional Analysis (TA) has continued to grow and develop ever since its inception by the Canadian American psychiatrist Dr Eric Berne over a half century ago. It has proven itself to be an extremely useful model for human relations professionals working in a variety of contexts and fields, such as psychotherapy, coaching and counselling, management and organisational development, or parenting and education. TA combines an accessible theory on the development of people and systems with a practical approach, centred on the possibilities of change, growth and development. Into TA is a comprehensive textbook of contemporary TA in theory and practice. The first section of the book focusses on theory, presented so that both beginning and experienced professionals will find much of value. TA theory is then further integrated with other current models of psychology, education, and organisational consultation. The second section provides rich and stimulating examples of TA in practice that bring the theory to life.

Ta-Da! Kathy Ellen Davis,2018-06-26 What makes a good story? One little girl thinks it's a princess with magical powers that can—ta-da!—overcome any obstacle. Her friend thinks it's—dun dun duh!—a combination of dragons, pirates, and fire that cause total chaos. But as their stories intertwine, these two young storytellers soon learn that a good story needs both conflict—dun dun duh!—and resolution—ta-da! An irresistible celebration of imaginary play, storytelling, and the joys of collaboration, this gorgeous picture book features two strong voices throughout, making it the perfect read-aloud.

The Successful TA Kathy M. Nomme,Carol Pollock,2022-02-15 Maybe you’re an undergraduate or graduate student who’s just been appointed a TA. Or maybe you’re a postdoctoral student or a new hire with limited teaching experience. In either case, you’ll be expected - with little to no training - to excel at teaching and to facilitate the learning of your students. Kathy Nomme and Carol Pollock recognize this gap between expectations and preparation and draw on decades of experience in teaching and TA training to offer practical advice on all aspects of being a TA, from interacting with course instructors and dealing with nerves and anxiety, to developing learning exercises and providing positive support for students.

TA-Q-BIN Qizhang Liu,Mark Goh,2015-10-16 This book reveals the secrets of Yamato Transport’s success in maintaining and extending its leadership in Japan’s domestic parcel delivery market. It presents six cases that illustrate how Yamato's flagship service, TA-Q-BIN, has evolved since the 1970s to the benefit of consumers, particularly urban dwellers, and how TA-Q-BIN has become an integral part of Japanese daily life. Each of the six unique cases serves as an independent teaching case for undergraduate and graduate students, describing the particular service design, operations management, innovation, supplier management, and social responsibility within the context of an Asian last-mile logistics service provider. The book also includes insightful presentations of the challenges facing supply chain and logistics service providers in Asia, and their innovative responses to these challenges using real-world cases. Besides featuring interviews with Yamato’s key stakeholders and their strategic clients, Japan-based and other Asia-Pacific Yamato operational centers make up the field method included in this book, while secondary data is drawn from trade and academic domains. Some of the cases are written in a didactic fashion, with suitable stopping points for students to pause and deliberate over the managerial issues confronting the decisions that Yamato makes during the course of its business and operational strategies. The results are particularly useful to readers interested in how operations and logistics decision-making are practiced in a homogeneous Asian context and in an urban environment. This book is essential reading for undergraduate and MBA students, as well as practitioners in industry.

Ferrosilicon from Brazil, China, Kazakhstan, Russia, Ukraine, and Venezuela, Invs. 303-TA-23, 731-TA-566-570, and 731-TA-641 (Final) (Reconsideration) (Third Remand) ,

T. A. for Military Kids Leslie Nelson,2014-01-10 A 2011 Department of Defense report approximates that 44 percent of military personnel have children. T. A. for Military Kids: The Awesome Military Kid’s Guide to Feelings explains that it can be hard enough for kids to figure out who they are and how life works even under the best of circumstances, even more so when adding to the mix the unique challenges associated with being a military kid. This can include frequent moves, regularly adjusting to new schools and making new friends, absence of the military parent, increased family responsibilities, and re-establishing family roles when the deployed parent returns. A kid’s perception of an event like deployment is often very different from an adult’s. Depending on their age, kids may believe they are responsible for the deployed parent going away, while this thought would never enter an adult’s mind. T. A. for Military Kids talks about the normal feelings all kids have and then explains the emotions experienced by military kids when faced with the events of everyday military life. This invaluable guide helps military kids make sense of their experiences and understand that all their feelings are normal and okay, even the challenging ones. For military parents, T. A. for Military Kids makes life a little easier by encouraging kids to talk about what’s going on in their heads.
