Blockchain Chicken Farm Xiaowei Wang, 2020-10-13

A New York Times Book Review Editors' Choice A brilliant and empathetic guide to the far corners of global capitalism. --Jenny Odell, author of *How to Do Nothing*

From FSGO x Logic: stories about rural China, food, and tech that reveal new truths about the globalized world In *Blockchain Chicken Farm*, the technologist and writer Xiaowei Wang explores the political and social entanglements of technology in rural China. Their discoveries force them to challenge the standard idea that rural culture and people are backward, conservative, and intolerant. Instead, they find that rural China has not only adapted to rapid globalization but has actually innovated the technology we all use today. From pork farmers using AI to produce the perfect pig, to disruptive luxury counterfeits and the political intersections of e-commerce villages, Wang unravels the ties between globalization, technology, agriculture, and commerce in unprecedented fashion. Accompanied by humorous "Sinofuturist" recipes that frame meals as they transform under new technology, *Blockchain Chicken Farm* is an original and probing look into innovation, connectivity, and collaboration in the digitized rural world. FSG Originals x Logic dissects the way technology functions in everyday lives. The titans of Silicon Valley, for all their utopian imaginings, never really had our best interests at heart: recent threats to democracy, truth, privacy, and safety, as a result of tech's reckless pursuit of progress, have shown as much. We present an alternate story, one that delights in capturing technology in all its contradictions and innovation, across borders and socioeconomic divisions, from history through the future, beyond platitudes and PR hype, and past doom and gloom. Our collaboration features four brief but

provocative forays into the tech industry's many worlds, and aspires to incite fresh conversations about technology focused on nuanced and accessible explorations of the emerging tools that reorganize and redefine life today.

Unsung Voices Carolyn Abbate, 1996-04-21 This work looks at the voices that speak to us through 19th-century classical music and opera. It proposes interpretive strategies that seek the polyphony and dialogism of music, celebrating musical gestures often marginalized by conventional musical analysis.

The Transnational History of a Chinese Family Haiming Liu,2005 Family and home are one word--jia--in the Chinese language. Family can be separated and home may be relocated, but jia remains intact. It signifies a system of mutual obligation, lasting responsibility, and cultural values. This strong yet flexible sense of kinship has enabled many Chinese immigrant families to endure long physical separation and accommodate continuities and discontinuities in the process of social mobility. Based on an analysis of over three thousand family letters and other primary sources, including recently released immigration files from the National Archives and Records Administration, Haiming Liu presents a remarkable transnational history of a Chinese family from the late nineteenth century to the 1970s. For three generations, the family lived between the two worlds. While the immigrant generation worked hard in an herbalist business and

asparagus farming, the younger generation crossed back and forth between China and America, pursuing proper education, good careers, and a meaningful life during a difficult period of time for Chinese Americans. When social instability in China and hostile racial environment in America prevented the family from being rooted in either side of the Pacific, transnational family life became a focal point of their social existence. This well-documented and illustrated family history makes it clear that, for many Chinese immigrant families, migration does not mean a break from the past but the beginning of a new life that incorporates and transcends dual national boundaries. It convincingly shows how transnationalism has become a way of life for Chinese American families.

Chinese Archery Stephen Selby, 2000-01-01 Chinese Archery is a broad view of traditional archery in China as seen through the eyes of historians, philosophers, poets, artists, novelists and strategists from 1500 BC until the present century. The book is written around parallel text translations of classical Chinese sources some famous and some little known in which Chinese writers give vivid and detailed explanations of the techniques of bow-building, archery and crossbow technique over the centuries. The author is both a sinologist and practising archer; his translations make the original Chinese texts accessible to the non-specialist. Written for readers who may never have picked up a book about China, but still containing a wealth of detail for Chinese scholars, the book brings the fascinating history of Chinese archery back to life through the voices of its most renowned practitioners.

The Makassar Annals William Cummings, 2013-04-09 Beginning in the 1630s, a series of annalists at the main courts of Makassar began keeping records with dated entries that recorded a wide variety of specific historical

information about a wide variety of topics, including the births and deaths of notable individuals, the actions of rulers, the spread of Islam, trade and diplomacy, the built environment, ritual activity, warfare, internal political struggles, social and kinship relations, eclipses and comets, and more. These Lontaraq bilang were a clear departure in form and function from the genealogically-structured chronicles being composed about the ruling families of Gowa and Talloq in the same era. By the end of 1751, nearly 2400 entries had been completed. These records are a rich lode of information for scholars interested in virtually any aspect of life in premodern Makassar, and are a rare and precious resource for scholars of Southeast Asia. This is the first English translation and annotation of the annals.

Salt and State Cecilia Chien, 2020-08-06 Salt and State is an annotated translation of a treatise on salt from Song China. From its inception in the Han dynasty (206 B.C.-220 A.D.), the salt monopoly was a key component in the Chinese government's financial toolkit. Salt, with its highly localized and large-scale production, was an ideal target for bureaucratic management. In the Song dynasty (960-1279), fiscal pressures on the government had intensified with increased centralization and bureaucratization. A bloated administration and an enormous standing army maintained against incursions by aggressive steppe neighbors placed tremendous strain on Song finances. Developing the salt monopoly seemed a logical and indeed urgent strategy, but each actor in this plan—the emperor, local officials, monopoly administrators, producers, merchants, and consumers—had his own interests to protect and advance. Thus attempts to maximize the effectiveness of the monopoly meant frequent policy swings and led to levels of

corruption that would ultimately undo the Song. Unlike other contemporary sources, the Songshi treatise organizes its subject into an intelligible and detailed narrative, elucidating special terminology, the bureaucracy and its processes, and debates relating to Chinese finance and politics, as well as the salt industry itself. Professor Chien's extensive annotation relies on parallel histories that corroborate and supplement the Songshi account, together providing a comprehensive study of this important institution in China's premodern political economy.

Introduction to Ecological Aesthetics Fanren

Zeng, 2019-08-26 This book explores in detail the issues of ecological civilization development, ecological philosophy, ecological criticism, environmental aesthetics, and the ecological wisdom of traditional Chinese culture related to ecological aesthetics. Drawing on Western philosophy and aesthetics, it proposes and demonstrates a unique aesthetic view of ecological ontology in the field of aesthetics under the direct influence of Marxism, which is based on the modern economic, social cultural development and the modern values of traditional Chinese culture. This book embodies the innovative interpretation of Chinese traditional culture in the Chinese academic community. The author discusses the philosophical and cultural resources that can be used for reference in Chinese and Western cultural tradition, focusing on traditional Chinese Confucianism, Taoism, Buddhism and painting art, Western modern ecological philosophy, Heidegger's ontology ecological aesthetics, and British and American environmental aesthetics. In short, the book comprehensively discusses the author's concept of ecological ontology aesthetics as an integration and unification of ontology aesthetics and ecological aesthetics. This generalized ecological aesthetics explores the

relationship between humans and nature, society and itself, guided by the brand-new ecological worldview in the post-modern context. It also changes the non-beauty state of human existence and establishes an aesthetic existence state that conforms to ecological laws.

Empires of the Silk Road Christopher I.

Beckwith, 2009-03-16 The first complete history of Central Eurasia from ancient times to the present day, *Empires of the Silk Road* represents a fundamental rethinking of the origins, history, and significance of this major world region. Christopher Beckwith describes the rise and fall of the great Central Eurasian empires, including those of the Scythians, Attila the Hun, the Turks and Tibetans, and Genghis Khan and the Mongols. In addition, he explains why the heartland of Central Eurasia led the world economically, scientifically, and artistically for many centuries despite invasions by Persians, Greeks, Arabs, Chinese, and others. In retelling the story of the Old World from the perspective of Central Eurasia, Beckwith provides a new understanding of the internal and external dynamics of the Central Eurasian states and shows how their people repeatedly revolutionized Eurasian civilization. Beckwith recounts the Indo-Europeans' migration out of Central Eurasia, their mixture with local peoples, and the resulting development of the Graeco-Roman, Persian, Indian, and Chinese civilizations; he details the basis for the thriving economy of premodern Central Eurasia, the economy's disintegration following the region's partition by the Chinese and Russians in the eighteenth and nineteenth centuries, and the damaging of Central Eurasian culture by Modernism; and he discusses the significance for world history of the partial reemergence of Central Eurasian nations after the collapse of the Soviet Union. *Empires of the Silk Road* places Central Eurasia within a world

historical framework and demonstrates why the region is central to understanding the history of civilization.

Anime from Akira to Princess Mononoke S.

Napier, 2001-05-03 With the popularity of Pokemon still far from waning, Japanese animation, known as anime to its fans, has a firm hold on American pop culture. However, anime is much more than children's cartoons. It runs the gamut from historical epics to sci-fi sexual thrillers. Often dismissed as fanciful entertainment, anime is actually quite adept at portraying important social and cultural issues like alienation, gender inequality, and teenage angst. This book investigates the ways that anime presents these issues in an in-depth and sophisticated manner, uncovering the identity conflicts, fears over rapid technological advancement, and other key themes present in much of Japanese animation.

Switched on Pop Nate Sloan, Charlie

Harding, 2019-12-13 Pop music surrounds us - in our cars, over supermarket speakers, even when we are laid out at the dentist - but how often do we really hear what's playing? Switched on Pop is the book based on the eponymous podcast that has been hailed by NPR, Rolling Stone, The Guardian, and Entertainment Weekly for its witty and accessible analysis of Top 40 hits. Through close studies of sixteen modern classics, musicologist Nate Sloan and songwriter Charlie Harding shift pop from the background to the foreground, illuminating the essential musical concepts behind two decades of chart-topping songs. In 1939, Aaron Copland published *What to Listen for in Music*, the bestseller that made classical music approachable for generations of listeners. Eighty years later, Nate and Charlie update Copland's idea for a new audience and repertoire: 21st century pop, from Britney to Beyoncé, Outkast to Kendrick Lamar. Despite the importance of pop music in contemporary culture, most discourse only revolves around lyrics and celebrity. Switched on Pop gives readers the tools they need to interpret our modern soundtrack. Each chapter investigates a different song and artist, revealing musical insights such as how a single melodic motif follows Taylor Swift through every genre that she samples, André 3000 uses metric manipulation to get listeners to shake it like a Polaroid picture, or Luis Fonsi and Daddy Yankee create harmonic ambiguity in *Despacito* that mirrors the patterns of global migration. Replete with engaging discussions and eye-catching illustrations, Switched on Pop brings to life the musical qualities that catapult songs into the pop pantheon. Readers will find themselves listening to familiar

tracks in new ways and not just those from the Top 40. The timeless concepts that Nate and Charlie define can be applied to any musical style. From fanatics to skeptics, teenagers to octogenarians, non-musicians to professional composers, every music lover will discover something ear-opening in *Switched on Pop*.

Yun Ling Teoh, the scarred lone survivor of a brutal Japanese wartime camp, seeks solace among the jungle-fringed tea plantations of Cameron Highlands. There she discovers Yugiri, the only Japanese garden in Malaya, and its owner and creator, the enigmatic Aritomo, exiled former gardener of the emperor of Japan. Despite her hatred of the Japanese, Yun Ling seeks to engage Aritomo to create a garden in memory of her sister, who died in the camp. Aritomo refuses but agrees to accept Yun Ling as his apprentice until the monsoon comes. Then she can design a garden for herself. As the months pass, Yun Ling finds herself intimately drawn to the gardener and his art, while all around them a communist guerilla war rages. But *The Garden of Evening Mists* remains a place of mystery. Who is Aritomo and how did he come to leave Japan?
