Hourly History

Taj Mahal Hourly History, 2018-01-10 Taj Mahal The Taj Mahal in Agra is arguably the most iconic image of India and is visited by eight million tourists annually. It was characterized as pure, perfect and unutterably lovely by the British Viceroy, Lord Curzon, and in 1983, UNESCO declared it a World Heritage Site of outstanding universal value. For centuries the world has believed that it was built by Shah Jahan in 1631 to immortalize his love for his wife, Mumtaz Mahal. Certain mysteries and myths that surround the monument have recently come to the fore in the country, stimulating a public debate about the place it holds as a true representation of Indian culture. Inside you will read about... - The Life of Mumtaz Mahal: The Jewel of the Palace - The Building of the Taj Mahal - A UNESCO World Heritage Site - Myths, Conjecture, and Controversy - The 22 Locked Rooms in the Basement And much more! This book presents the five main historical figures of the Mughal Empire in India during that period as well as many details of how the Taj Mahal was built. It traces the events that have led to the present controversy.

Taj Mahal Giles Tillotson, Giles, G. H. R Tillotson, 2012-11-12 The meaning of the Taj Mahal, the perceptions and responses it prompts, ideas about the building and the history that shape them: these form the subject of Tillotson's book. More than a richly illustrated history, this book is an eloquent meditation on the place of the Taj Mahal in the cultural imagination of India and the wider world.

Taj Mahal Elizabeth Mann, 2008 The well-illustrated story of the building of the Taj Mahal, one of the world's most beautiful monuments, and the Mughal dynasty in India whose 5th emperor built it.

Taj Mahal Diana Preston, 2009-05-26 While Galileo suffered under house arrest at the hands of Pope Urban VIII, the Thirty Years War ruined Europe, and the Pilgrims struggled to survive in the New World, work began on what would become one of the Seven Wonders of the World: the Taj Mahal. Built by the Moghul emperor Shah Jahan as a memorial to his beloved wife, Mumtaz Mahal, its flawless symmetry and gleaming presence have for centuries dazzled everyone who has seen it, and the story of its creation is a fascinating blend of cultural and architectural heritage. Yet, as Diana & Michael Preston vividly convey in the first narrative history of the Taj, it also reflects the magnificent

history of the Moghul Empire itself, for it turned out to mark the high point of the Empire's glory at the same time as it became a tipping point in Moghul fortunes. The roots of the Moghul Empire lie with the legendary warriors Genghis Khan and Tamburlaine; at its height it contained 100 million people, from Afghanistan in the north and present-day Pakistan in the west, to Bengal in the east and southwards deep into central India.. With the storytelling skills that characterize their previous books, Diana & Michael Preston bring alive both the grand sweep of Moghul history and the details that make it memorable: the battles and dynastic rivalries that forged the Empire alongside an intimate chronicle of daily life within the imperial palace. A tale of overwhelming passion, the story of the Taj has the cadences of Greek tragedy and the ripe emotion of grand opera, and puts a memorable human face on the marble masterpiece.

The Taj Mahal: A History John David Cooper, 2017-03-21 Everyone has seen photographs of the Taj Mahal. The massive, bulbous central dome, the four slender minarets, the shimmering marble, the long reflecting pool, the manicured gardens - all seem too striking for adequate description and proper appreciation. But there is more to the Taj than its beauty. The world's best-known mausoleum celebrates the love story of the seventeenth-century Moghul emperor Shah Jahan and his queen, Mumtaz Mahal. They fell in love at first sight and were married for nineteen years. She ruled at his side as almost an equal, but her death in childbirth in 1631 left him wild with grief and determined to build a monument to their devotion. Behind this romantic tale is the saga of the Moghul emperors who swept into North India only a century earlier. By the time of Shah Jahan, they had established an absolute monarchy comparable to Louis XIV's. The Moghul court was rich, cruel, and omnipotent. As

descendants of Tamerlane and Genghis Khan, they relished bloody combat, savage sports, and hideous torture of their victims. In the absence of primogeniture, brother fought brother for the throne - it was the law of the “throne or coffin.” But less than a century after Shah Jahan was deposed by his ruthless son, the dynasty was in decline and ripe for conquest by Great Britain. For a time, it seemed like the Taj - like the Moghuls - would vanish. Only in the twentieth century was the Taj restored to something of its former glory. Here is the dramatic and often tragic story of the Taj and the men and women of the dynasty that created it.

Where Is the Taj Mahal? Dorothy Hoobler, Thomas Hoobler, Who HQ, 2017-01-24 Learn about the love story behind the creation of one of the most beautiful and famous buildings in the world. The Taj Mahal may look like a palace, but it's actually a tomb and a lasting testament to one of the world's great love stories. In 1612, Mogul emperor Shah Jahan married Mumtaz Mahal. It had been love at first sight and for nineteen years they were so inseparable that Mumtaz even accompanied Shah Jahan to battlefields. When she died suddenly giving birth to their fourteenth child, the emperor set

about building a magnificent memorial to his wife. Everything about the Taj was perfectly planned, from the white marble walls that shimmer in the sunlight and sparkle by moonlight, to the countless decorative flowers made from precious gems that still astound visitors today. Recent discoveries at the site make this a timely account of a timeless monument.

Taj Mahal Caroline Arnold,Madeleine Comora,2007-01-01 Recounts the love story behind the building of the Taj Mahal in India, discussing how it was constructed and providing information on Indian culture.

The Taj Mahal Lesley A. DuTemple,2003-01-01 Recounts the history of the creation of the Taj Mahal, built as a tomb and memorial for the wife of the Mughal emperor Shah Jahan.

Taj Mahal Amina Okada,1993-10-19 A sumptuously illustrated portrait of perhaps the most fascinating architectural marvel of all time. Built between 1632 and 1643 by the Mughal emperor Shah Jahan in honor of his deceased wife Mumtaz Mahal, the Taj Mahal is unquestionably the most renowned mausoleum in the world. Now this legendary monument to love can be seen as no visitor to

the site has ever viewed it. On the pages of this exquisitely illustrated volume, the Taj Mahal is revealed detail by detail. Starting inside the mausoleum, a sequence of closeups show the semiprecious stones, inlaid in white marble, that form the interior's Koranic calligraphy and floral patterns. The next sequence of images presents the octagonal plan of the structure, emphasizing both its perfect symmetry and its subtle variations. The final sequence is devoted to the decorative patterns carved in the walls of the mosque and entrance gate. In addition, four lavish fold-out photographs show the entire Taj Mahal complex from different perspectives. In their informative texts, authors Amina Okada and M.C. Joshi provide historical and architectural analyses of the Taj Mahal. Quotations from the Koran and from the journals of travelers as diverse as Jean-Bapiste Tavernier, Pierre Loti, and Aldous Huxley complete a breathtaking tribute.

The Taj Mahal David Carroll, Newsweek, inc. Book Division, 1973 A white jewel enclosed in a frame of dark cypresses, the Taj Mahal seems to float over the hot, flat Indian plain. Its distinctive silhouette, mirrored in the placid surface of a long reflecting pool, is instantly identifiable, for the shimmering tomb

is one of the most frequently photographed structures in the world. ... Some 120 illustrations - nearly one half in full color - supplement this compelling history of the Mogul dynasty. Manuscript illuminations, objets d'art, maps, dynasty charts, and modern photographs taken by the author complement the text.

Taj Mahal and It's Conservation D. Dayalan, 2009 A miracle in marble! A dream in marble! A poem! Lavishly praised by countless critics, connoisseurs and commoners, the Taj Mahal has stayed as one of the world's architectural wonders ever since the day of its completion in 1648. And is unmistakably one of the outstanding creations in the whole spectrum of Islamic architecture in India. For its richness, evocative aesthetic appeal and prodigiousness, it counts among man's proudest creations. This magnificent mausoleum, built by the Mughal Emperor Shahjahan to memorialize his love for the queen, took seventeen years to complete. Even if the contemporary sources refer to this most exquisite specimen of human architecture as Illuminated Tomb (rauza-i-munavvara), it is popularly known as Taj Mahal, obviously deriving its name from the title of the queen: Mumtaz Mahal. The Taj is not just architecture, but, in Sir Arnold Edwin's word, the proud passion of an Emperor's love. It is love made tangible, crystallized. Volumes have been written on the monument. And language has been almost exhausted in its praise. This book, yet another addition to the numerous

writings on the Taj, is one of the very few scientific, at once authentic documentation of the art, architecture and conservation of this truly impressive creation. It is the first systematic account of the Taj Mahal and its conservation since mid-17th century. Focusing, simultaneously, on the diverse architectural components of this unique mausoleum, it examines the tradition and style adopted by its architects. The outcome of the author's close, personal observation of the monument, the book also brings out various scientific studies relating to its structural stability, the nature of its foundations and building materials, verticality of its minarets, and several other aspects. The book is enriched with many exquisite photographs all in colour. Dr D. Dayalan is Superintending Archaeologist, Archaeological Survey of India, Agra Circle, Agra.

BLACK TAJ MAHAL I N Khan (Arshi),2015-08-28 The book is related to one of the most beautiful architecture of the world; the Taj Mahal. It has been scientifically portrayed in the book that makes it a useful guide for the tourists. The most beautiful architectural creation has been analysed from completely new angle, using the empirical rules prepared by a modern scientist - “The Fifteen Properties of Christopher Alexander”. The book sheds light on an age old story of another mausoleum of black marble that was to be built on the other bank of the river Yamuna. The construction of the Taj Mahal was only half of the original grand scheme conceived by its builder emperor Shahjahan. The historical events towards the end of emperor Shah Jahan’s reign, his dethroning and the conspiracies by his own son are highlighted. The book also covers the history of Mughal dynasty in a narrative manner. It traces the inherited quality of creativity and love for art and architecture of Mughals. The book puts into perspective the need of fulfilling a forgotten dream - the creation of Miniature Black Taj Mahal with ebony (natural black wood).
