**It Takes What It Takes** Trevor Moawad,Andy Staples,2020-02-04 Foreword by Seattle Seahawks quarterback Russell Wilson From a top mental conditioning coach—the world’s best brain trainer” (Sports Illustrated)—who has transformed the lives and careers of elite athletes, business leaders, and military personnel, battle-tested strategies that will give you tools to manage and overcome negativity and achieve any goal. He knows how to win. More, he knows the many ways—subtle, brutal, often self-inflicted—we lose. As the most trusted mental coach in the world of sports, Trevor Moawad has worked with many of the most dominant athletes and the savviest coaches. From Nick Saban and Kirby Smart to Russell Wilson, they all look to Moawad for help finding or keeping or regaining their competitive edge. (As do countless business leaders and members of special forces.) Now, at last, Moawad shares his unique philosophy with the general public. He lays out lessons he's derived from his greatest career successes as well as personal setbacks, the game-changing wisdom he's earned as the go-to whisperer for elite performers on fields of play and among men and women headed to the battlefield. Moawad's motivational approach is elegant but refreshingly simple: He replaces hardwired negativity, the kind of defeatist mindset that's nearly everybody's default, with what he calls neutral thinking. His own special innovation, it's a nonjudgmental, nonreactive way of coolly assessing problems and analyzing crises, a mode of attack that offers luminous clarity and supreme calm in the critical moments before taking decisive action. Not only can neutral thinking raise your performance level—it can transform your overall life. And it all starts, Moawad says, with letting go. Past failures, past losses—let them go. The past isn't predictive. If you can absorb and embrace that belief, everything changes. You'll instantly feel more calm. And the athlete—or employee or parent or spouse—who's more calm is also more aware, and more times than not ... will win.

*Take Away the A* Michaël Escoffier,2015-10 A word totally transforms if you take away just one letter - without the A, the beast is best. Without the W, the witch has an itch! This is an alphabet book like no other. An irreverent exploration not only of letters in their alphabetic order, but also of how they form words and communicate ideas. *The Take* Christopher Reich,2018-01-16 From New York Times bestselling author Christopher Reich, an international spy thriller featuring Simon Riske: one part James Bond, one part Jack Reacher. Riske is a freelance industrial spy who, despite his job title, lives a mostly quiet life above his auto garage in central London. He is hired to perform the odd job for a bank, an insurance company, or the British Secret Service, when he isn't expertly stealing a million-dollar watch off the wrist of a crooked Russian oligarch. Riske has maintained his quiet life by avoiding big, messy jobs; until now. A gangster by the name of Tino Coluzzi has orchestrated the greatest street heist in the history of Paris: a visiting Saudi prince had his pockets lightened of millions in cash, and something else. Hidden within a stolen briefcase is a secret letter that could upend the balance of power in the Western world. The Russians have already killed in an attempt to get it back by the time the CIA comes knocking at Simon's door. Coluzzi was once Riske's brother-in-arms, but their criminal alliance ended with Riske in prison, having narrowly avoided a hit Coluzzi ordered. Now, years later, it is thief against thief, and hot on their trail are a dangerous Parisian cop, a murderous Russian femme fatale, her equally unhinged boss, and perhaps the CIA itself. In the grand tradition of *The Day of the Jackal* and *The Bourne Identity*, Christopher Reich's *The Take* is a stylish, breathtaking ride.

Tape's Rolling Take One Adrian Kerridge, 2021-01-05 Adrian Kerridge has been part of the British recording industry for the past 50 years. His revolutionary and often forthright approach within the music industry has put him at the centre of the recording world for half a century. As owner of the eminent Lansdowne Studios - birth place of the Dave Clark Five, and home to numerous household name artists and session stories as well as the cofounding father of the CADAC console brand - he witnessed first-hand the technological changes of an industry transitioning from analogue tape to multi-track to digital recording and editing in the 80s and forwards; was a forerunner in the 60s of the then experimental practice of direct injection – now widely employed by sound engineers and laid the foundations for a more modern upfront sound that was lacking in the 50s and early 60s. Renown for creating unique sonic signature for bands and other recording artists, Adrian's approach to recording was unlike anything the industry had seen in the years previous. He recorded hot while his contemporaries were more conservative in their approach. This book traces his personal journey from war time Britain to the swinging 60s taking in the technical and social changes that were to shape the way music was recorded. It tells the story of a choir boy from West London who fell in love with Jazz and landed a job at a music shop. A chance invitation to sit in on a studio recording of the Sydney Lipton band sparked in Adrian an interest that was to put him on a path from choir boy to the foremost Ears in the business. Adrian describes how his first job at IBC London, one of the UK's largest independent recording studios at the time, led him to work with the legendary and sometimes volatile Joe Meek. Working with Joe gave Adrian crucial insights into the talented engineer's innovative techniques, which he describes in technical and personal detail. After a brief stint of National Service, Adrian returned to the recording industry but instead of resuming his old job at IBC he was offered a job alongside Joe Meek at a completely new London studio – Lansdowne Recording Studios – with producer Denis Preston, who ran his own Record Supervision jazz label. Adrian describes his experience of working with Joe and Denis, becoming responsible for his own sessions, and the studios' prolific output. He paints the picture of Joe's complex character, as well as his ground breaking and highly successful recording techniques. Joe's premature departure from Lansdowne meant Adrian suddenly found himself catapulted into the job of senior engineer and solely responsible for running the studios. It was during this time that Adrian, along with the Dave Clark Five, led the British invasion of the U.S. music scene in the 1960s pioneering new audio techniques using equipment considered primitive by today's standards. Adrian relates how in the early 1960s, the Dave Clark Five first came into the studio, and how his contribution to the band's development helped create their signature Tottenham Sound. He provides unique insights into the recording of numerous hits such as Glad All Over which resulted in huge success for the band knocking the Beatles' song I want to hold your hand off the top of the U.K. charts in January 1964, going on to sell 2.5M copies. Nowadays you can get a number one with 10-20,000 copies. He describes his intriguing experiences in Germany and Belgium, recording material for the KPM Music Library and other music libraries.

**Take It Easy, Vol 1 Talks on Zen Buddhism** Osho, 2023-03-07 Religion is the vast sky of existence. Reason is a tiny human phenomenon. The reason has to be lost, has to be dropped. Only by going beyond the mind does one start understanding what is. That's the radical change. No philosophy can bring that radical change – only religion. Religion is non-philosophic, anti-philosophic, and Zen is the purest form of religion. Zen is the very essence of religion. Hence it is irrational, it is absurd. If you try to understand it logically you will be bewildered. It can only be understood illogically. It has to be approached in deep sympathy and love. YOU CANNOT approach Zen through empirical, scientific, objective concepts. They all have to be dropped. It is a heart phenomenon. You have to feel it rather than think it. You have to BE it to know it. Being is knowing. And there is no other knowing.
