The Scrolls of Talos Michael Robert Ziegler,2014-04-17 The Scrolls of Talos is a captivating and suspenseful fictional tale, with a parallel plot. Based around a true historical background, the story sets out in present day Athens, at the Archaeological Museum of Science. A drama begins to unfold concerning an incredible newfound artifact buried on the island of Crete, the contents of which, will lead to an astonishing discovery. You are then transported from the present far back into ancient history, arriving at a time, shortly after the death of Jesus Christ in the first century AD. Greece has long since given way to the mighty Roman Empire, where there are powerful figures arising behind the iron fist of the Roman. Both past and present dramas slowly unfold, finally completing a finished picture. You will follow the journeys of a man called Talos, born and raised on the island of Crete; who's life of strange fortune and intrigue only just begins when he becomes a part of the Roman machine. The struggles Talos encounters of love, danger, betrayal and revenge dissolve dramatically, when destiny powerfully draws him to the ancient city of Ephesus and finally to the island of Patmos; where he meets a man that will change his life forever, revealing wonderful yet foreboding sacred writings which unlock a window to the future.

The Blood of Talos Keith Deininger,2017-03-25 The territory of Nova is in chaos. The Talosian attack has left hundreds dead, the village of Fallowvane burned, and the Alexander family scattered. While her son is taken prisoner before the ruler of Talos for an insidious purpose, a determined mother emerges as the unlikely commander of the Novan militia. Here a young girl leaves everything behind in search of a new life; a woman seeks the truth to a dark conspiracy; and a man without knowledge of its cultures and customs will enter the City with warning of a threat far deadlier than the war between Nova and Talos, something that already gnaws at the edges of Meridian, bringing with it the smell of rotting flowers, and death.

Talos of Crete, the Oldest Robot Monica Paul,2023-03-06 Talos was a giant robot, also called an automaton; that was a name given to a robot in old times. In Greek mythology, Talos was created to protect Crete at a time in history when this island was an important commerce site in the Mediterranean. Talos was basic artificial intelligence made of bronze, but you need to read the story. In ancient times, people thought an automaton could only be made by gods. It was a myth, science fiction. Today, robots are a reality; they aren't made by gods but by scientists. This reminds us that we need to learn from our past, and the best way to learn is by knowing our history, mythology, and traditions-the Traditions of the World. Same as in all the 'Traditions of the World' series books, you will find a button in your ebook; tap it to get a gift for you. Create a robot, practice lettering, numbers, and colors, also solve puzzles.

Talos A. G. Carothers,2021 Tell me a story Daddy. Kikoi, xolos wrangler by night and King Talos' snuggle monster by day, demanded.What story do you want to hear tonight, baby boy? Talos, Vampyr King and Supernatural Council Member, asked while he pulled Kikoi onto his lap.I want to hear about when you met Daddy Bayne. Almost three hundred years old and Kikoi would never get tired of story time.Again? Talos arched an eyebrow with amusement.Yes! It's a good one. Kikoi beamed at Talos.Talos leaned against the headboard of their bed as Bayne, former assassin but still

looked damn good in armor, joined them and began... The Age of Man has passed, and a new age is upon the Earth. An age of magic and technology ruled by the supernatural beings that once hid amongst humanity has begun. Bayne is thrust into a world he thinks he knows but quickly discovers his whole life has been built on lies. Talos, perfectly happy ruling his corner of the world, is faced with an unexpected and unwelcome change that comes with the mate chosen by Fate. Together they must discover how to live and, in the end, love one another. Fate has more in store for them than learning to love someone they should hate. Will they be open to all the possibilities Fate lays out for them? Bloodlines of Fate is a new urban fantasy series set in a world destroyed by humans and resurrected by supernatural beings. Fate has many plans for the vampires, unicorns, therianthropes, elves, and humans of this new world. While their mates may be fated, love isn't that easy. This book contains depictions of gladiatorial combat, snarky fem twinks who will cut you, kings in stilettos, and awkward heats with a pinch of daddy kink. Talos is part one of a two-part story arch that tells the love story of two triads (MMM). It does end in an HFN with a HEA tied into the second part. This is a type of omegaverse with mpreg.
