In Defense Of Sanity G. K. Chesterton, 2011-09-09 G.K. Chesterton was a master essayist. But reading his essays is not just an exercise in studying a literary form at its finest, it is an encounter with timeless truths that jump off the page as fresh and powerful as the day they were written. The only problem with Chesterton's essays is that there are too many of them. Over five thousand! For most GKC readers it is not even possible to know where to start or how to begin to approach them. So three of the world's leading authorities on Chesterton - Dale Ahlquist, Joseph Pearce, Aidan Mackey - have joined together to select the best Chesterton essays, a collection that will be appreciated by both the newcomer and the seasoned student of this great 20th century man of letters. The variety of topics are astounding: barbarians, architects, mystics, ghosts, fireworks, rain, juries, gargoyles and much more. Plus a look at Shakespeare, Dickens, Jane Austen, George MacDonald, T.S. Eliot, and the Bible. All in that inimitable, formidable but always quotable style of GKC. Even more astounding than the variety is the continuity of Chesterton's thought that ties everything together. A veritable

feast for the mind and heart. While some of the essays in this volume may be familiar, many of them are collected here for the first time, making their first appearance in over a century.

Greg "Craola" Simkins Greg "Craola" Simkins,2018-02-22 One of the most prolific artists painting today, Greg 'Craola' Simkins' diverse body of work is as likely to be found in a gallery as on the streets. Bridging pop surrealism and graffiti art with the skill of a fine art painter, his art is unique and recognisable, blending a wealth of early influences with contemporary pop culture references. This new monograph traces the development of the artist, from a kid playing with crayons to the present day. In some cases, preliminary sketches can be found alongside finished works providing a glimpse into the artistic process and evolution of a piece. Other creations stand alone, masterpieces of artwork as narrative.
