Seaforth World Naval Review 2022 Conrad Waters,2021-12-30 The essential compendium covering the year in naval developments—the only annual overview of its kind: “Very highly recommended.” —Warship World For more than a decade, this annual volume has provided an authoritative summary of all that has happened to the world’s navies and their ships in the previous twelve months. It combines regional surveys with major articles on important new warships, and looks at wider issues of significance to navies such as aviation and weaponry. The contributors come from around the globe, and in addition to providing a balanced picture of naval developments, they interpret their significance and explain their context. Along with its regular regional reviews, the 2022 volume focuses on three fleets: the Sri Lankan Navy, the Spanish Navy, and the Royal Navy. There are in-depth articles on the Argentinian Bouchard Class OPVs, the Russian Project 20380 Stereguschchiy Class corvettes, and the Royal Navy’s Batch 2 “River” Class OPVs. The technological section looks at optronic systems and offboard mine countermeasures, and there is the regular review of what is happening in naval aviation, which includes coverage of the US Marine/Navy MV-22 tiltrotor. Now firmly established as the only annual naval overview of its type in the world, The Seaforth World Naval Review is essential reading for the professional and enthusiast alike, taking readers to the heart of contemporary maritime affairs. “A marvelous asset for those wishing to keep up to date with naval matters.” —Warship World Includes photographs
