The Hellenistic Settlements in Syria, the Red Sea Basin, and North Africa Getzel M. Cohen, 2006-10-03 The Hellenistic Settlements in Syria, the Red Sea Basin, and North Africa will take its place, as the first volume has already done, as an indispensable resource for the study of Greek history. The book will be a research tool of lasting value: there is nothing remotely similar available to the student of urbanism in the ancient world. The scholarship is of the highest quality, thorough and current.—Kent Rigsby, editor of Greek, Roman, and Byzantine Studies

The Hellenistic Settlements in Europe, the Islands, and Asia Minor Getzel M. Cohen, 1995 This is an important book which should become the standard reference work on Hellenistic colonies in Greece and Asia Minor.—Richard A. Billows, Columbia University Professor Cohen provides us with a comprehensive survey of over a half-century of archaeological activity, and an indispensable reference tool for those interested in Hellenistic political history and the urban history of antiquity. The scholarship is superior in every respect.—Stanley Burstein, California State University, Los Angeles

The Maze Maker Michael Ayrton, 2015-11-04 “I address you across more than three thousand years, you who live at the conjunction of the Fish and the Water-carrier,” speaks Daedalus, an artisan, inventor, and designer born into an utterly alien family of heroes who value acts of war above all else, a world where his fellow Greeks seem driven only to destroy—an existence he feels compelled to escape. In this fictional autobiography of the father of Icarus, “Apollo’s creature,” a brilliant but flawed man, writer and sculptor Michael Ayrton harnesses the tales of the past to mold a myth for our times. We learn of Daedalus’s increasingly ambitious artifacts and inventions; his fascination with Minoan culture, commerce, and religion, and his efforts to adapt to them; how he comes to design the maze of the horned Minotaur; and how, when he decides that he must flee yet again, he builds two sets of wax wings—wings that will be instruments of his descent into the underworld, a place of both purgatory and rebirth. A compelling mix of history, fable,

lore, and meditations on the enigma of art, The Maze Maker will ensnare classicists, artists, and all lovers of story in its convolutions of life and legend. "I never understood the pattern of my life," writes Daedalus, "so that I have blundered through it in a maze."

Changing European Visions of Disaster and Development Vanessa Pupavac,Mladen Pupavac,2020-09-02 Goethe's 1832 poem Faust offers a vision of humanity realising freedom and prosperity through transcending natural adversity. Changing European Visions of Disaster and Development returns to Faust as a way of exploring the rise and fall of European humanist aspirations to build free and prosperous national political communities protected from natural disasters. Faust stories emerged in early modern Europe linked to the shaking of the traditional religious and political order, and the pursuit of new areas of human knowledge and activity which led to a shift from viewing disasters as acts of God to acts of nature. Faust's dam building and land reclamation project in Goethe's poem was inspired by Dutch hydro-engineering and in turn inspired others. Faustian dreams of an engineered future were pursued by the American Yugoslav inventor Nikola Tesla and the country of his birth towards establishing its national independence and escaping the fate of being a borderland. Faust remains a compelling reference point to explore European visions of disaster and development. If Faust captured the European spirit of earlier centuries, what is today's outlook? Ambitious Faustian development visions to eradicate natural disasters have been replaced by anti-Faustian risk cosmopolitanism sceptical towards human activity in ways counter to building collective protection from disaster. Tesla's country of birth fears returning to being an insecure borderland of Europe. This powerful and timely book calls for a rekindling of European humanism and Faust's vision of 'free people standing on free land'.

Tauro The Titan-Slayer: 1E15-30 Kelson Hayes,2023-04-19 Taking place in the Southwest of Aerbon in the early years of the First Era, Tauro the Titan-Slayer tells the tale of a simple Itanian farmer who finds himself sentenced

to life imprisonment after killing the Roman god of fertility one fateful Summer day. Forced to fight as a gladiator in the Emperor's arena, Tauro quickly earns his nickname of Titan-Slayer after working his way up the ranks of the coliseum's prison league, tirelessly pushing himself towards his goal of exacting revenge upon those who he perceives to be responsible for his predicament and relishing in all of the blood he sheds along the way. Tauro the Titan-Slayer is the tale of one man's quest for vengeance, though it also focuses on the lives of those affected by his bloodthirsty crusade against the gods.

Advanced Terrain Mapping of the Gioia Tauro Plain Calabria Region, Italy. ESA GMES Terrafirma, 2011 In the framework of the Terrafirma project, Persistent Scatterers Interferometry (PSI) has been used for mapping land subsidence at basin scale in Gioia Tauro plain (Italy). The investigated area is built over unconsolidated fine-grained sediments, where the increasing groundwater demands for irrigation have caused the natural sediment consolidation to progressively accelerate. Both historical (1992-2001; ERS1/2 images) and recent (2002-2006; ENVISAT images) scenarios are analyzed to solve the spatial variability and temporal evolution of ground displacements affecting the plain. The results show deformation rates as high as 10-12 mm/yr in 1992-2007, with highest velocities occurred between 1992 and 2000 within the central part of the basin, in the area of Rizziconi (5 km ESE of Gioia Tauro). The outcomes of this PSI study could support the future improvement of groundwater management and the implementation of best strategies for land use planning and sustainable use of groundwater resources.
