Gobekli Tepe Avi Bachenheimer,2017-06-17 In the Neolithic Near East, the Anatolian landmass of modern day Turkey functioned as an over reaching land bridge, connecting the three continents of Europe, Asia and Africa to one another. The larger geographical landscape of today's Middle East was surrounded by the five major seas of antiquity. The Mediterranean Sea, the Black Sea, the Persian Gulf, the Red Sea, and the Caspian Sea. The rivers of Tigris and Euphrates ran across the hills, mountain ranges and plains, and volcanic fields of the Armenian highlands provided invaluable obsidian rocks, suitable for making sharp, razor-edged stone tools. As the late Klaus Schmidt once put it, the slopes of the Taurus mountains were a hunter's dream, and a prime piece of paradise coming true. In this region, humans and the environment were brought so close to one another, and plants and animals appeared so abundant, that the early hunter gatherers scattered across the land for the first time adopted primary storage and conservation methods. The strategies which gave way to the rise of agriculture and domestication of animals in the course of the coming millennia. Göbekli Tepe was at the heart of this cultural and economic transition. Here, the Neolithic Revolution was begun.

Faustina I and II Barbara Levick,2014 Barbara Levick's Faustina I and II highlights the importance of these women to the internal politics of the Empire during this period and shows how they are links in a chain of elite Roman women for whom varying levels of recognition and even power were available. The Faustinae, as they are jointly called, come between the discreet Matidiae, the discreetly manipulative Plotina (Trajan's women), the philosophical Sabina (Hadrian's wife) and in the Severan dynasty Julia Domna, who has had a very high profile. In assessing their place in this chain, Levick will examine especially Faustina II's deep involvement in palace politics, her enhancement of her mother's position, and her possible role in the revolt of Avidius Cassius (175).

Dendera, Temple of Time José María Barrera,2024-01-16 A full-color exploration of the encoded ceiling at the Temple of Dendera • Draws on more than 5,000 high-resolution photographs taken by the author to reconstruct the complete ceiling of the portico of the Temple of Hathor at Dendera • Reveals in detail how each panel represents celestial cycles of time from the Precession of the Equinoxes to the annual cycles of life found along the Nile • Explains each panel's astronomical significance from the ancient Egyptian perspective as well as examining the myths, gods, and goddesses depicted Egypt is famous for its pyramids, the Sphinx, the temples at Luxor, and the Valley of the Kings, but 40 miles north of Luxor lies the best-preserved temple complex in all of Egypt: The Temple of Dendera, known for the famous "Zodiac of Dendera" now housed in the Louvre Museum. Within the portico leading into the Hathor temple at Dendera is a little-known outstanding achievement of humanity: an extensive colored bas-relief—larger than the ceiling of the Sistine Chapel—meticulously encoded with the sophisticated astronomical knowledge of ancient Egypt. Drawing on more than 5,000 high-resolution photographs he has taken at the Temple of Dendera, photographer and computer scientist José María Barrera presents a complete full-color photographic reconstruction of the ceiling of the pronaos at Dendera and reveals in detail how each panel represents celestial cycles of time from the Precession of the Equinoxes to the annual cycles of life found along the Nile. He explains the meaning of the layout of the ceiling as it relates to the present, the past, eternity, the hours of the day, the phases of the moon, the constellations used in ancient Egyptian astronomy, and the Great Solar Year. The author provides detailed analysis of each panel, including close-up photos, and explains each panel's astronomical and spiritual significance from the ancient Egyptian perspective as well as examining the myths, gods, and goddesses depicted. He also includes an appendix exploring the meaning and symbology of ancient Egyptian iconography. Allowing you to experience the vivid details of this ancient work of art and science, this photographic exploration also recreates the sense of spiritual awe and power the Temple of Dendera radiates to its visitors, whether today or millennia ago.
