**Tearaway** Phil Cummings, 2002

**Tearaway** Hans Jakob Christoph von Grimmelshausen, 2003 'The author', the ageing Simplicissimus and his former comrade Tearaway (a character from Simplicissimus) happen to meet in a village inn. First of all 'the author' describes how he was caught by Courage and her band of gypsies and conned into writing her life-story for her. In the main part of the novel, Tearaway then recounts his adventurous life, which takes him through the horrors of the Thirty Years' War and then to Hungary to fight against the Turks, later to Italy and Greece. He ends up as a one-legged fiddler, travelling round Germany, playing, begging, stealing and cheating. The narrative includes tales of trickery, sorcery and magic, some revolving round Tearaway's wife, who discovers a magic bird's nest which makes her invisible and which she uses it for various escapades, including cuckolding Tearaway, until she is caught and killed. Despite the fantastic elements of some episodes, the novel is told in the same down-to-earth, often earthy style of Grimmelshausen's other novels.

Enlightenment and Political Fiction Cecilia Miller, 2016-03-22 The easy accessibility of political fiction in the long eighteenth century made it possible for any reader or listener to enter into the intellectual debates of the time, as much of the core of modern political and economic theory was to be found first in the fiction, not the theory, of this age. Amusingly, many of these abstract ideas were presented for the first time in stories featuring less-than-gifted central characters. The five particular works of fiction examined here, which this book takes as embodying the core of the Enlightenment, focus more on

the individual than on social group. Nevertheless, in these same works of fiction, this individual has responsibilities as well as rights—and these responsibilities and rights apply to every individual, across the board, regardless of social class, financial status, race, age, or gender. Unlike studies of the Enlightenment which focus only on theory and nonfiction, this study of fiction makes evident that there was a vibrant concern for the constructive as well as destructive aspects of emotion during the Enlightenment, rather than an exclusive concern for rationality.

*The Novel: An Alternative History, 1600-1800* Steven Moore, 2013-08-29 Winner of the Christian Gauss Award for excellence in literary scholarship from the Phi Beta Kappa Society Having excavated the world's earliest novels in his previous book, literary historian Steven Moore explores in this sequel the remarkable flowering of the novel between the years 1600 and 1800—from Don Quixote to America's first big novel, an homage to Cervantes entitled *Modern Chivalry*. This is the period of such classic novels as *Tom Jones*, *Candide*, and *Dangerous Liaisons*, but beyond the dozen or so recognized classics there are hundreds of other interesting novels that appeared then, known only to specialists: Spanish picaresques, French heroic romances, massive Chinese novels, Japanese graphic novels, eccentric English novels, and the earliest American novels. These minor novels are not only interesting in their own right, but also provide the context needed to appreciate why the major novels were major breakthroughs. The novel experienced an explosive growth spurt during these centuries as novelists experimented with different forms and genres: epistolary novels, romances, Gothic thrillers, novels in

verse, parodies, science fiction, episodic road trips, and family sagas, along with quirky, unclassifiable experiments in fiction that resemble contemporary, avant-garde works. As in his previous volume, Moore privileges the innovators and outriders, those who kept the novel novel. In the most comprehensive history of this period ever written, Moore examines over 400 novels from around the world in a lively style that is as entertaining as it is informative. Though written for a general audience, *The Novel, An Alternative History* also provides the scholarly apparatus required by the serious student of the period. This sequel, like its predecessor, is a “zestfully encyclopedic, avidly opinionated, and dazzlingly fresh history of the most ‘elastic’ of literary forms” (Booklist).

*A Tearaway* Natasha Owen, 2008-12-16 The book *A Tearaway* by Natasha Owen is a true story about growing up in the Soviet Union after World War II: childhood under Stalin, adolescence under Khrushchev, and youth under Brezhnev.

*Fast as the Wind* Nat Gould,1918 Nathaniel Gould (21 December 1857 - 25 July 1919), commonly known as Nat Gould, was a British novelist. Gould was born at Manchester, Lancashire, the only surviving child of Nathaniel Gould, a tea merchant, and his wife Mary, née Wright. Both parents came from Derbyshire yeomen families. The boy was

indulgently brought up and well educated. His father died just before he was to have left school, and Gould tried first his father's tea trade and then farming at Bradbourne with his uncles. Gould became a good horseman but a poor farmer. In 1877, in reply to an advertisement, he was given a position on the Newark Advertiser gaining a good all-round knowledge of press work. After a few years he became restless, and in 1884 sailed for Australia, where he became a reporter on the Brisbane Telegraph in its shipping, commercial and racing departments. In 1887 after disagreements with the Telegraph management, Gould went to Sydney and worked on the Referee as Verax, its horse-racing editor. Later Gould worked for the Sunday Times, and Evening News. Then followed 18 months at Bathurst as the editor of the Bathurst Times during which time he wrote his first novel, *With the Tide*, which appeared as a serial in the Referee. He returned to Sydney and the Referee and wrote another six other novels for the same paper. In 1891 his first novel, *With the Tide*, was published in book form in England under the title of *The Double Event* and was an immediate success; it sold over 100,000 copies in its first ten years and was still in print in 1919. It was dramatized in Australia and had a long run in 1893. In 1895 Gould returned to England; he had been 11 years in Australia and he felt that his experiences had made a man of him. Gould was a modest man who did not take himself or his work too seriously. His advice to emerging writers was to 'write about men and things you have met and seen; take your characters from the busy world, and your scenes from Nature'. But within its limits his work was very good. He told a simple story exceedingly well in an unaffected way. Many of his books were concerned with horse racing, and no great originality of plot was to be expected, but they were written with

such flair and genuine interest that their countless readers took up each book as it was published, confident in their belief that here was another rattling good story.

One of the significant advantages of Tearaway books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Tearaway versions, you eliminate the need
