The First Pylon of the Mut Temple: Architecture, Decoration, Inscriptions R. A. Fazzini, J. Van Dijk, 2015-03-24 The goddess Mut, consort of Amun-Re at Thebes, is one of the goddesses known as the Eye of Re that include Isis, Hathor and Bastet among others. Her temple precinct in South Karnak was a major religious site from at least the early New Kingdom through the early Roman Period, yet Mut remains relatively unknown. While badly damaged, the gate in the Mut Temple's First Pylon bears important religious texts relating to the goddess and her cult as well as remains of Ramesside scenes recarved in the Ptolemaic Period. This study of the gateway and its texts, edited by R.A. Fazzini and J. van Dijk, includes a description of the gateway's architecture (W.H. Peck), a detailed study of the figural decoration (R.A. Fazzini) and transcriptions, translations and analyses of the inscriptions (J.-C. Goyon, J. van Dijk, H. te Velde). Two appendices deal with the recarved Ramesside texts (J. van Dijk) and aspects of the goddess (J.-C. Goyon).

Excavations at Minturnae, II Jotham Johnson, 1933-01-01 This volume describes 29 inscriptions discovered built into the foundations of a temple erected in the forum at Minturnae in the early part of the first century A.D. The inscriptions date to the first half of the first century B.C. and represent lists of the annually elected magistri.

The Temple Of Edfu : Aguide By An Ancient Egyptian Priest Dieter Kurth, 2004 This is the oldest and most authentic guide to an ancient Egyptian temple ever written - its author was an ancient Egyptian priest who lived in the first century B.C., under the last kings of the Ptolemaic dynasty, when the construction and decoration of the huge temple of Edfu was completed. The anonymous priest's task was to compose a text long enough to make up a line of hieroglyphic inscription on the girdle wall of the temple, stretching around it to a length of some 300 meters, and in it describe the temple in detail - its layout and construction, the functions of its chambers and

chapels, and its external appearance and the impression it conveyed to the faithful. The language of the text, arising within the long tradition of Egyptian temple building, is stylized and poetic, but remarkably, the priest fulfilled his assignment with such accuracy, devotion, and enthusiasm that the monumental inscription can be used today by the modern visitor as a reliable and informative guide to the temple. The inscription is here translated in full, and appears with notes by the translator on the essentials of ancient Egyptian religion and ritual and on the discovery and documentation of Edfu Temple, while a comprehensive glossary explains unfamiliar terms and concepts. Illustrations of the temple, the original hieroglyphs, and the kings who build the temple complement the text.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Inscriptions of Gopaketra Michael D. Willis,1996 A comprehensive catalogue of inscriptions from the Gwalior area of central India. Between the 3rd century BC and the turn of the 20th century, over 3,000 records were inscribed on hero-stones, the pedestals of religious sculptures, cisterns, rocks and hills as well as copper plates.

Dome of the Rock and its Umayyad Mosaic Inscriptions Marcus Milwright,2019-04-01 The Dome of the Rock is a shrine located on the Temple Mount in the Old City of Jerusalem. When was it built? What meanings was it meant to convey to viewers at the time of its construction? These are questions that have preoccupied historians of Islamic art and architecture, and numerous interpretations of the Dome of the Rock have been proposed. Marcus Milwright returns to one of the most important pieces of evidence: the mosaic inscriptions running around the two faces of the octagonal arcade. His detailed examination of the physical characteristics, morphology and content of these inscriptions provides new evidence about the chronology the building and the iconography of the Dome of the Rock.

King Jehoash and the Mystery of the Temple of Solomon Inscription Victor Sasson,2008 A royal inscription, attributed to King Jehoash of Judah, surfaced on the Jerusalem antiquities market a few years ago. The Hebrew text, which recounts restorations to the Temple of Solomon, is similar to the biblical narrative. The inscribed black stone created worldwide news coverage and was branded a forgery by academicians most of whom are NOT professional Epigraphers ... Could the inscription be a forgery, and who could have faked such an artifact? Are those persons brought to trial guilty or innocent?-- Book back cover.

Janaab' Pakal of Palenque Vera Tiesler,Andrea Cucina,2017-11-07 Excavations of Maya burial vaults at Palenque, Mexico, half a century ago revealed what was then the most extraordinary tomb finding of the pre-Columbian world; its discovery has been crucial to an understanding of the dynastic history and ideology of the ancient Maya. This volume communicates the broad scope of applied interdisciplinary research conducted on the Pakal remains to provide answers to old disputes over the accuracy of both skeletal and epigraphic studies, along with new questions in the field of Maya dynastic research. A benchmark in biological anthropology that presents an updated study of a well-known personage, the volume also offers innovative approaches to the

biocultural and interdisciplinary re-creation of Maya dynastic history.

Kings, Brāhmaṇas, and Temples in Orissa Upinder Singh, 1994 Illustrations: 21 Maps Description: Royal endowments to Brahmanas have been interpreted either as a factor of political integration or disintegration in Indian history. Through the first thorough presentation and analysis of the epigraphic data from Orissa, this study argues that the period AD 300-1147 was one of intensive state formation and political development in which royal grants played an important integrative role. During this period, Brahmanas, many of whom were ritual specialists associated with the Yajurveda, emerged as land-holders endowed by royal decree with privileged control over land. Despite the consistent appearance of sectarian affiliations in the royal inscriptions, temples did not benefit from royal patronage on a comparable scale. Until the close of the period under review, it was the gift of land to Brahmanas, not the royally-endowed temple establishment that was a major basis of royal legitimation and political integration in Orissa.

The Facade, Portals, Upper Register Scenes, Columns, Marginalia, and Statuary in the Colonnade Hall, 1998 The second volume of the Epigraphic Survey's series on Luxor Temple is devoted to the in situ reliefs and inscriptions of Tutankhamun's Colonnade Hall that were not documented in the first of the series, *The Festival Procession of Opet in the Colonnade Hall* (OIP 112). Included in this volume are reconstructions of the Eighteenth Dynasty facade of the hall, the northern and southern doorjamb reliefs, the upper register scenes, the decoration of the columns and their architraves, the dedicatory bandeau texts of the New Kingdom, graffiti from the later periods, and the three colossal statues that still stand in the northern end of the hall. The plates are accompanied by a booklet of translations and commentary on the iconographic and textual additions and revisions that were made by a long succession of Egyptian rulers and reflect the complex history of the monument.
