But when her father died, Tippy fell into the Stillreal, the underbelly of the Imagination, where discarded ideas go when they're too Real to disappear. **Non-Professional Subtitling** Yvonne Lee, David Orrego-Carmona, 2017-08-21 From fansubbing, fan-generated translation, to user-generated translation, from amateur translation to social translation, non-professional subtitling has come a long way since its humble beginning in the 1980s. The prevailing technological affordance enables and mobilises the digital generation to turn subtitling into a method of self-expression and mediation, and their activities have made translation a more social and visible activity than ever before. This volume provides a comprehensive review of the current state of play of this user-generated subtitling phenomenon. It includes projects and research focusing on various aspects of non-professional subtitling, including the communities at work, the agents at play, the production conditions and the products. The perspectives in the book explore the role played by the agents involved in the emerging subtitling networks worldwide, and their impact on the communities is also discussed, based on empirical data generated from observations on active fansubbing communities. The collection demonstrates, from various viewpoints, the ways in which non-professional subtitling connects languages, cultures and communities in a global setting.

**Ring** Stephen Baxter, 1996-04-25 Michael Poole's wormholes constructed in the orbit of Jupiter had opened the galaxy to humankind. Then Poole tried looping a wormhole back on itself, tying a knot in space and ripping a hole in time. It worked. Too well. Poole was never seen again. Then from far in the future, from a time so distant that the stars themselves were dying embers, came an urgent SOS--and a promise. The universe was doomed, but humankind was not. Poole had stumbled upon an immense artifact, light-years across, fabricated from the very string of the cosmos. The universe had a door. And it was open...

**Theology of Creation in an Evolutionary World** Karl Schmitz-Moormann, James F. Salmon, 1997 Karl Schmitz-Moormann takes as a given that the universe as a whole is in the process of evolution, and asks how the Christian interpretation of this universe as God's creation can be understood.
