TEP - The Journey Begins Curt Soul,2014-04-19 In a time where civilization relied on machines, artificial food and lived against the flow of nature. A great fiend ascended from the depths of the Earth. Destroying and conquering civilizations until a hero appeared, using the 7 elements to defeat him. He then divided the Earth into 7 Nations. Now 5993 years later mankind has reattuned itself with the 7 elements and nature. 7 years remain until the colossal threat known as Masolos return. However 7 powerful elites from 7 nations stand ready and waiting for the ruler of the fiends return. Masters of the elements, these individuals bare the title stars.

Lake Pavin Télésphore Sime-Ngando,Pierre Boivin,Emmanuel Chapron,Didier Jezequel,Michel Meybeck,2016-10-31 This book represents the first multidisciplinary scientific work on a deep volcanic maar lake in comparison with other similar temperate lakes. The syntheses of the main characteristics of Lake Pavin are, for the first time, set in a firmer footing comparative approach, encompassing regional, national, European and international aquatic science contexts. It is a unique lake because of its permanently anoxic monimolimnion, and furthermore, because of its small surface area, its substantially low human influence, and by the fact that it does not have a river inflow. The book reflects the scientific research done on the general limnology, history, origin, volcanology and geological environment as well as on the geochemistry and biogeochemical cycles. Other chapters focus on the biology and microbial ecology whereas the sedimentology and paleolimnology are also given attention. This volume will be of special interest to researchers and advanced students, primarily in the fields of limnology, biogeochemistry, and aquatic ecology.
