Dark Futures Russell Blackford,2002 After the events of Terminator 2: Judgment Day, Sarah Connor and her son, John, think they've altered the timeline so that neither the artificially intelligent satellite SkyNet nor its Terminator killing machines can ever be created. (August)

Terminator Vault Ian Nathan,2013-10-30 The Terminator's back in this magnificent, behind-the-scenes look at The Terminator and Terminator 2: Judgment Day. Long before Titanic and Avatar broke box-office records and won countless awards, James Cameron announced his genius with the 1984 release of The Terminator. Nothing like it had ever been seen before—it fused time travel, thrilling action, artificial intelligence, and terror with provocative questions about the human race—and of course, it made Arnold Schwarzenegger an international superstar. The movie's 1991 sequel, Terminator 2: Judgment Day, has some of the greatest special effects in movie history and remains one of the most influential science fiction films of all time. The story of Sarah and John Connor's fight against the advanced assassin cyborg, the T-1000, is an astonishing look at the battle between good and evil. Now, for the first time ever, here is the complete story of the Terminator world. Terminator Vault, written by acclaimed film expert Ian Nathan and with a foreword by "Governator" Schwarzenegger, takes a behind-the-scenes look at the making of both films, from the initial conception of Skynet (the AI system determined to destroy humanity) to the creation of the films' special effects, many of which had never been previously attempted. Reproductions of original scripts and concept drawings provide completely new insights into the Terminator backstory, and there are over 170 color images of the development, production, and more. This is a must-have book for any Terminator fan, released in anticipation of the first film's thirtieth anniversary.

A lethal machine (Patrick) has been sent back through time to kill a boy (Furlong) destined to lead the freedom fighters of the future. Terminator Omnibus Volume 2 Various, 2008-04-01 The Terminators never sleep. They don't need food or water. The heat of the desert gives them no pause. The darkness of night does not halt their deadly gaze. Bullets won't stop them. Their humanity cannot be appealed to because they have none. Sent from the future, their mission is clear and unrelenting: to erase the lives of any who threaten their future dominance, any who would attempt to deny the rise of the Machine. But that which man has created, man can destroy, and so... the war for the future begins today. Dark Horse Comics is the acknowledged leader of adapting film blockbusters to graphic fiction, and The Terminator is one of the premier examples of what can be done with comics to expand an exciting film mythos. * Featuring work by fan-favorite creators James Robinson, Jackson Guice, Alan Grant, Steve Pugh, Guy Davis and more.

An Evil Hour Russell Blackford, 2003 Judgment Day is coming! Following the events of Book 1 (DARK FUTURES), the future war between the human Resistance and the forces of Skynet takes an unusual twist as Terminators from an alternate timeline invade the world of John Connor and his mother, Sarah, seeking to bring about the inevitable war that the Connors had merely delayed with their actions. But another cyborg has travelled across the dimensions to protect John - and nothing is going to prevent her from carrying out her mission!
