*The Battle of Thermopylae* Rupert Matthews, 2021-06-11 'Tell the Spartans, stranger passing by, that here obedient to their laws we lie.' One of the most remarkable actions in ancient or modern military history took place at Thermopylae in 480BC. Rupert Matthews has personally examined the battlefield in order to try to explain how 300 Spartans could hold at bay the hordes of the Persian Emperor Xerxes. This was no vain sacrifice; the delay gave breathing space for the Greek states to organise their defence, and ultimately defend successfully their homelands. Among other intriguing revelations the author explains the importance of the half-ruined wall that sheltered the Spartans against the onslaught. With concise diagrams and maps of the entire campaign, the reader can begin to understand the extraordinary, apparently impossible outcome of the war.

**Leonidas of Sparta** Helena P. Schrader, 2012-10 Come and take them Book III in the Leonidas Trilogy Persia has crushed the Ionian revolt and is gathering a massive army to invade and punish mainland Greece, but in Sparta the dangers seem closer to home. The Eurypontid king Demaratus is accused of being a usurper, while the Agiad king Cleomenes is going dangerously mad. More and more Spartans turn to Leonidas, Cleomenes's half-brother and son-in-law, to provide leadership. But Leonidas is the younger of twins, and his brother Brotus has no intention of letting Leonidas lay claim to the Agiad throne without a fight. This novel follows Leonidas and Gorgo as they steer Sparta through the dangerous waters of domestic strife and external threat, working together as a team to make Sparta the best it can be. But the forces that will destroy not only Leonidas but his Sparta are already gathering -- not just in Persepolis and Sardis, but in the hubris of a rising Athens and the bigotry and xenophobia of his fellow Spartans. The murder of two Persian ambassadors by an agitated Spartan Assembly sets in train the inevitable conflict between Sparta and Persia that will take Leonidas to Thermopylae -- and into history. This is the third book in a trilogy of biographical novels about Leonidas and Gorgo. The first book, *A Boy of the Agoge*, described Leonidas's childhood in the Spartan public school. The second, *A Peerless Peer*, focused on his years as an

ordinary citizen. This third book describes his rise to power, his reign, and his death.

*Gates of Fire* Steven Pressfield, 2007-01-30 NATIONAL BESTSELLER • “Steven Pressfield brings the battle of Thermopylae to brilliant life.”—Pat Conroy At Thermopylae, a rocky mountain pass in northern Greece, the feared and admired Spartan soldiers stood three hundred strong. Theirs was a suicide mission, to hold the pass against the invading millions of the mighty Persian army. Day after bloody day they withstood the terrible onslaught, buying time for the Greeks to rally their forces. Born into a cult of spiritual courage, physical endurance, and unmatched battle skill, the Spartans would be remembered for the greatest military stand in history—one that would not end until the rocks were awash with blood, leaving only one gravely injured Spartan squire to tell the tale. . . .

**Thermopylae** Ernie Bradford, 2014-04-01 An account of the ancient battle between Persia and the alliance of Greek city-states, including the legendary “300 Spartans.” In 480 BCE, Persian king Xerxes led a massive invasion of Greece. A critical point in this invasion was the battle for the pass at Thermopylae—“Hot Gates” in Greek. Xerxes had amassed one of the largest armies yet known to man, while Leonidas’s troops, a group of united Spartans, Thespians, Thebans, and others, including slaves, were a small fraction of the Persian horde. Despite the overwhelming odds, Leonidas and his men stood their ground for three days in a historic display of patriotism and courage. In *Thermopylae: Battle for the West*, acclaimed author Ernie Bradford covers the entire era of the invasion—from the foundation of the Persian empire to the accession of Darius all the way to the final, bloody battles—in a fascinating and accessible look at warfare in ancient times.

*Fall of the Immortals* Costas Komborozos, 2017-10-31 A young warrior named Alkaïos hears the tale about the men who built the hot gates, the place where Herakles became the patron of the hot springs and the 300 Spartans sacrificed their lives. He learns that the men who fashioned Thermopylae are also responsible for the disappearance of warriors who have fought there over the centuries. He also learns that his knowledge of these mysterious men has caused a shift in the order of things, and that he has no choice but to become a warrior and fight a dark army. They say that history has been repeated. Warriors have gone to Thermopylae and never returned. Each of them went there to achieve glory, but they vanished in the shadows. The men who built the hot gates always appeared before them, looking into their eyes and determining whether history will remember their names. These men all had the same face, for they embodied the way that history repeated itself. When warriors defeated the enemy at the hot gates, these men appeared and made them disappear. So you see, warriors went there and vanished. But the Spartans fought at the hot gates and sacrificed themselves. Their sacrifice was closely observed by the men lurking in the shadows, the men who built the gates. These men saw Leonidas and the other Spartans fight more valiantly than any warrior before them. The Spartans died before they could be swallowed by the shadows. One of the men lurking in the shadows now has a face different than the other men. Something has changed. This change implies that a new threat will emerge. This is where you come in, Alkaïos, you must find the one who has a different face and protect him, for the men who built the hot gates will now be the ones who will vanish. History must not repeat itself. No one was supposed to know about the men who built the gates. By telling you about them, I have changed the flow of things. That means the hot gates face an imminent threat. The story of these men had to remain untold. I am dying. That is why I told you the story. I had to make sure that the story was told, regardless of what happened.

Thermopylae Paul Cartledge, 2007-11-06 In 480 B.C., the mighty Persian king Xerxes led a massive force to the narrow mountain pass called

Thermopylae, anticipating no significant resistance in his bid to conquer Greece. But the Greeks, led by Leonidas and a small army of Spartan warriors, took the battle to the Persians and nearly halted their advance. Paul Cartledge's riveting, authoritative account of King Leonidas and the legendary 300 illuminates this valiant endeavor that changed the way future generations would think about combat, courage, and death.

This is the account of the battle of Thermopylae. A small contingent of 300 Spartan warriors will hold off the thrust of the Persian invasion for three days of intense battle. \*\*\*\*\* TO THEM HONOUR AND LOYALTY WERE EVERYTHING... 1250 BC: Theseus, king of Athens and slayer of the Minotaur, set sail on a journey that brought him to the land of 'tal Kyrte', the 'Free People', a nation of fiercely proud and passionate warrior women whom the Greeks called 'Amazons'. Lovers and fighters they owed allegiance to no man and distrusted the Greeks with their boastful talk of cities and civilization. When their illustrious war queen Antiope fell in love with Theseus and fled to Athens with the king and his followers, so denying her people, the Amazon tribes were outraged. Seeking revenge, they raised a vast army and marched on Athens. History tells us they could not win, but for a brief and glorious moment, the Amazons held the Attic world in thrall before vanishing into the immortal realms of myth and legend.

**The Greatest Battles in History: the Battle of Thermopylae** Charles River Charles River Editors,2013-09-10 \*Discusses all of the colorful quotes and legends about the battle but also analyzes what is historical fact and what is apocryphal fiction. \*Explains Thermopylae's legacy from both historical and cultural standpoints. \*Includes pictures of Thermopylae and historic art depicting Greek and Persian leaders and soldiers. \*Includes a Bibliography for further reading. Although extraordinary valor was displayed by the entire corps of Spartans and Thespians, yet bravest of all was declared the Spartan Dienekes. It is said that on the eve of battle, he was told by a native of Trachis that the Persian archers were so numerous that their arrows would block out the sun. Dienekes, however, undaunted by this prospect, remarked with a laugh, 'Good. Then we will fight in the shade... - Herodotus The names of history's most famous battles still ring in our ears today, their influence immediately understood by all. Marathon lent its name to the world's most famous race, but it also preserved Western civilization during the First Persian War. Saratoga, won by one of the colonists' most renowned war heroes before he became his nation's most vile traitor. Hastings ensured the Normans' success in England and changed the course of British history. Waterloo, which marked the reshaping of the European continent and Napoleon's doom, has now become part of the English lexicon. In Charles River Editors' Greatest Battles in History series, readers can get caught up to speed on history's greatest battles in the time it takes to finish a commute, while learning interesting facts long forgotten or never known. There are few battles in history in which the vanquished are better remembered and celebrated than the victors, and even fewer where a defeat is considered a victory. But that has become the enduring legacy of the Battle of Thermopylae, a battle as unique as it is famous. The story of the battle and the willing sacrifice of the Greek defenders to buy the rest of the retreating Greeks time is well known across the world and still resonates with audiences to this day. Last stands are the stuff of martial legends, and Thermopylae is the greatest of them all. Though there was another contingent of Greeks fighting alongside them, Thermopylae is remembered for the stand of the 300 Spartans, who, with no compulsion binding them, chose to fight and die in the remote mountain pass against insurmountable odds. Their story has been told in literature, art, film, and even in graphic novels. But the battle was more than the ultimate self-sacrifice, the embodiment of the famous statement that greater love has no one than this, that one lay down his life for his friends. It was also a veritable clash of civilizations, and one that, though in and of itself it was a defeat, helped set the stage for the eventual Greek victory that might very well have changed the course of history. It was a showdown between various Greek city-states, including Sparta and democratic Athens, against the autocratic, absolutist Persian Empire. Had the Persians triumphed, the Golden Age of Athens would have been snuffed out, and Ancient Greece would never have formed the backbone of Roman and Western culture. Simply put, the West as we know it today might never have existed. The Greatest Battles of History: The Battle of Thermopylae separates the facts from the legends to explain who fought the battle, how the battle was fought, and the results and aftermath of the battle. Along with art depicting important people, places, and events, you will learn about the Battle of Thermopylae like you never have before, in no time at all.
