The conceptual design and visual effects for the movie are being created by Weta, the multi Academy Award winning company behind blockbusters such as Avatar, The Lord of the Rings, District 9, King Kong, The Chronicles of Narnia and many others. The designs for the book will be put together by the very same Weta artists, giving the readers a true inside story on the how the original comics were transformed into the final look on the big screen.

*The Adventures of Tintin at Sea* Yves Horeau, Michael Farr, 2004 A must for any Tintin fan, this is both the official exhibition catalogue and a celebration of 75 years of the irrepressible boy reporter. From his first appearance in January 1929, the globe-trotting Tintin took to boats in his pursuit of adventure. Motor-launches and liners, cargo vessels and historic galleons: each is meticulously depicted by Hergé, who laboured over every detail. A new dimension, punctuated with a staggering repertoire of salty swear words - 'billions of blistering barnacles!' - came in 1940 with the introduction of Captain Haddock. From then on, with this loyal, whisky-loving companion, Tintin could hardly be a landlubber.
