Chosen Soldier Dick Couch,2008-03-25 An unprecedented view of Green Beret training, drawn from the year Dick Couch spent at Special Forces training facilities with the Army's most elite soldiers. In combating terror, America can no longer depend on its conventional military superiority and the use of sophisticated technology. More than ever, we need men like those of the Army Special Forces-the legendary Green Berets. Following the experiences of one class of soldiers as they endure this physically and mentally exhausting ordeal, Couch spells out in fascinating detail the demanding selection process and grueling field exercises, the high-level technical training and intensive language courses, and the simulated battle problems that test everything from how well SF candidates gather operational intelligence to their skills at negotiating with volatile, often hostile, local leaders. Chosen Soldier paints a vivid portrait of an elite group, and a process that forges America's smartest, most versatile, and most valuable fighting force.

US Special Ops Fred Pushies,2016-07-01 It's the inside scoop on US military special operations. From weapons, gear, missions, and commandos, learn every military secret from the eighteenth century to today. Few aspects of the US military pique people's interest more than special ops. Due to the clandestine nature of their missions, weapons, and gear, these elite fighting forces are cloaked in an aura of intrigue that has only ratcheted upward with the expanded roles they have assumed in today's world, not to mention their recent and frequent appearances in film, books, and other mass media. In US Special Ops, longtime military author and special-ops expert Fred Pushies takes on the entire scope of America's elite fighting forces, beginning with their earliest days. Pushies profiles hundreds of weapons, gear, vehicles, missions, and commandos, from eighteenth-century fighters like Francis Marion right up through the most advanced capabilities of today's Green Berets, Rangers, SEALs, Marine Force Recon, US Air Force combat controllers, CIA Special Activities Division, and more - well over 350 entries in all. From the tomahawks used by Rogers's Rangers to special-ops legends like Col. Aaron Bank to Operation Neptune Spear and beyond, US Special Ops is a comprehensive, informative, and unique survey of all aspects of US special operations, past and present.
