

The Citadel Of Arras

Peter Chasseaud

Arras and Its Surroundings Emilie Sergent,2008-03-01 Arras is the capital of the Pas-de-Calais department in northern France. Having Gallic and Gallo-Roman origins and more than 2000 years of history, Arras is packed with heritage. The city and its surroundings were badly damaged during the two World Wars, but things have been rebuilt faithfully. In July 2005, the belfry of Arras was classified as part of the 'World Inheritance of Humanity' by UNESCO and the Citadel of Arras is also expected to be classified in 2008. In addition, the Canadian War Memorial at Vimy and the famous underground tunnels of Arras (used by the British army in WWI to defeat the German forces) are just some of the numerous historical treasures in Arras and its surroundings that are covered in this book. This book is written in three languages: English, French and Spanish with over 150 pictures.

City Walls James D. Tracy,2000-09-25 This book explores how wall-building traditions throughout the world illustrate universal themes of defensive strategy and the symbolism of power.

Siegecraft - No Fortress Impregnable Harold A. Skaarup,2003-04 It has been said that the taking of a fortress depends primarily on the making of a good plan to take it, and the proper implementation and application of the resources to make the plan work. Long before a fortress has been besieged and conquered, it has to have been outthought before it can be outfought. This book outlines some of the more successfully thought out sieges, and demonstrates why it is that no fortress is impregnable. A siege can be described as an assault on an opposing force attempting to defend itself from behind a position of some strength. Whenever the pendulum of technology swings against the status quo, the defenders of a fortification have usually been compelled to surrender. We must stay ahead of the pendulum, and not be out-thought long before we are out-fought, for, as it will be shown in this book, no fortress is impregnable.

Cross-Channel France John Ruler,2010 Nord-Pas de Calais is Britain's foothold in France; it's where the ferries dock and the Channel Tunnel emerges into daylight. Bradt's Cross-Channel France delves not only into the port towns but also into the forgotten France that's rarely reached. Sample Vieux Bologne - the smelliest cheese in the world; climb the hill at Cassel - where the Grand Old Duke of York marched his 10,000 men; or visit Agincourt - the site of a cornerstone battle in British history. The guide also reveals where visitors can shop for cut-price goods and where they can cycle, walk or ride horses. Bradt's Cross-Channel France is packed with information for day trips as well as longer family-friendly holidays.

Frankforce and the Defence of Arras 1940 Jerry Murland,2017-10-30 There is no other city in France that has the same associations in time of conflict that the British have with Arras. Since the campaigns of John Churchill, 1st Duke of Marlborough, in the early 18th century, British soldiers have fought in and around Arras, occasionally as an enemy but, more often, as defenders of French and Allied democracy. Battlefield visitors to the area will immediately recognize the names of towns and villages that were as significant to the men of Marlborough's army as they were to those who fought in the First and Second World Wars. This book serves both as guide to the Second World War battlefields that surround the city and its environs as well as detailing the actions of the British armored attack of 21 May 1940. The book looks at the strategic situation that led up to the famous Arras counterstroke and, using material that has not been published before, examines the British and German actions between 20 and 23 May. The only Victoria Cross action that took place during this time is looked at in detail; as is the fighting that took place in Arras and during the breakout. Despite its shortcomings, the counterstroke achieved the essential element of surprise and caused widespread alarm amongst the German command and hit Rommel's 7th Panzer Division at precisely the moment when his armored units were ahead of the infantry and gunners. The British infantry fought well and both the Durham battalions were fortunate that their commanding officers and senior NCOs were men who had already fought in one conflict and possessed the determination to rally their less experienced junior ranks and fight on regardless. Such was the case with the two tank battalions, although sadly they lost both their commanding officers and over half the tanks that went into the engagement. The attack did enable the British to tighten their hold on Arras albeit temporarily and, as is often cited, built doubts in the minds of German High Command as to the speed of their advance and contributed to the subsequent Hitler halt order of 24-27 May. The author has gone to some lengths to track down accounts from those individuals who served in the area during May 1940 and fought the enveloping tide of the German advance. The book is supported by three car tours, one of which takes the visitor along the tragic path taken by the Tyneside Scottish on 20 May and two walking routes, which concentrate on Arras. 137 black and white photographs (integrated) and a number of maps derived from regimental histories; and six tour maps provide the battlefield visitor with illustrations of the battlefields as they were in 1940 and as they are today.

Cemeteries of the Great War by Sir Edwin Lutyens Jeroen Geurst, Sir Edwin Landseer Lutyens,2010 The British architect Sir Edwin Lutyens (1869-1944) designed 140 cemeteries in the countryside of Flanders and Northern France for soldiers killed in the First World War. The cemeteries can be regarded as an imprint, as it were, of the former battlefront on the map of Europe. All are designed to principles established beforehand, including uniform gravestones, a large Stone of Remembrance and a large cross. Yet the difference in size, alignment and provenance make them all unique variations on the themes in question. The most memorable aspects are their meticulously chosen position in the landscape, the varied selection of trees and other greenery and the architecture of the entrance and shelter buildings. This illustrated book charts the history of the designs and exposes the underlying principle of order and variation in the architecture in an exhaustive landscape-architectural analysis. All 140 cemeteries are fully documented with references to the places where they are to be found.

I Can Only Paint Irene Gammel,2022-03-30 For Canadian impressionist Mary Riter Hamilton, capturing the emotional landscape of battlefields and graveyards in the months after the Great War's armistice became an artistic calling and defined her work. A woman alone after the storm had passed, she found that her life after the war was indelibly marked by the experience. Undeterred by a rejection from the Canadian War Memorials Fund, who nominated only male war artists abroad, in 1919 Hamilton received a commission from the Amputation Club of British Columbia (now the War Amps) to commemorate those lost at war. She travelled from Victoria to the pre-reconstruction battlefields and towns of the Somme, Vimy Ridge, and the Ypres Salient where amid harsh conditions - inadequate shelter and food, surroundings littered with unexploded shells - she recorded with determination, pride, and grace the ruins of war. Based on intensive archival research in Canada, France, and Belgium, and using many previously unpublished letters, *I Can Only Paint* offers an insider's view of the artist's vast, underexplored body of war work and the conditions in which she created it. It places this period, central though it was, in the context of a full understanding of her life and restores the work she created there to its proper place in the canon of war art in Canada and abroad. Irene Gammel argues that Hamilton's work encoded a female perspective that distinguishes her paintings from the work of official Canadian war artists. The first reliable account of Hamilton's impressions of Canada's most haunting sites of conflict, *I Can Only Paint* captures with detail and sensitivity an experience that defined her life and recovers a body of work that stands as a unique and enduring portrait of the effects of the Great War.

Rats Alley Peter Chasseaud,2017-08-21 When first published in 2006, *Rats Alley* was a ground-breaking piece of research, the first-ever study of trench names of the Western Front. Now, in this fully updated and revised second edition, the gazetteer has been extended to well over 20,000 trench names, complete with map references - in itself an essential tool for any First World War researcher. However, combined with the finely

considered history and analysis of trench naming during the First World War, this is an edition that no military history enthusiast should be without. Discover when, how and why British trenches were first named and follow the names' fascinating development throughout the First World War, alongside details of French and German trench-naming practices. Looked at from both contemporary and modern points of view, the names reveal the full horror of trench warfare and throw an extraordinary sidelight on the cultural life of the period, and the landscape and battles of the Western Front. Names such as Lovers Lane, Idiot Corner, Cyanide Trench, Crazy Redoubt, Doleful Post, Furies Trench, Peril Avenue, Lunatic Sap and Gangrene Alley can be placed in context. With useful information on where original trench maps are held, and how to obtain copies, Rats Alley is a vital volume for both military and family historians.

Aspects of Birmingham Brian Hall,2001-01-01 There are now over 25 books published as part of the Aspects Series, each one taking readers on a voyage of nostalgic discovery through their town, city or area. Here Birmingham, once 'The Workshop of the Empire' is revealed in twelve studies of the city and its people. Here we find 'Birmingham Municipal Bank', the only successful council operated bank and 'Lesser Known Characters' about the city. We see the work of the 'Birmingham Mission' and 'Birmingham Children's Emigration Homes'. During the troubled 1930's, Birmingham held a 'Great Pageant' and as war clouds gathered over Europe, the city's young men fought in 'The Spanish Civil War'. All this and so much more is available in this, the first Aspects of Birmingham.

"A Lack of Offensive Spirit?" Alan MacDonald,2008 'A Lack of Offensive Spirit?' is a companion volume to Alan MacDonald's recently revised book 'Pro Patria Mori - the 56th (1st London) Division at Gommecourt, 1st July 1916'. The attack of the 46th (North Midland) Division at Gommecourt on the first day of the Battle of the Somme is one of the most controversial incidents of the Great War. The men were effectively accused of cowardice (A lack of offensive spirit) and of being drunk and the Division was the only one subject to a Court of Inquiry into its conduct. Their commander, Maj. Gen. Eddie Stuart Wortley, was the only General sacked as a result of the catastrophe of the 1st July 1916, a day when the British Army suffered its worst casualties in a single day in its entire history. `A Lack of Offensive Spirit?' tells the story of Stuart Wortley and the 46th Division from the opening of the war, through the tragedy of the Hohenzollern Redoubt and then, day by day, through the preparations for the attack on Gommecourt. The attack itself is described using the dozens of eyewitness reports collected after the battle as well as official documents and post-war recollections and memoirs. The German perspective on the battle is also extensively covered with information drawn from numerous German unit histories. The conduct of the Court of Inquiry and of Stuart Wortley's desperate efforts to clear his name are covered in detail as well as the tragic fate of the hundreds of officers and men missing, dead and wounded. `A Lack of Offensive Spirit?' is fully indexed, contains over 20 maps and plans, 45 photographs and contains extensive appendices (including a Roll of Honour of both British and German dead).
