whether it's the morning mist on the river or the smoke from a funeral pyre. One morning Solveig wakes to find her father, Viking mercenary Halfdan, has broken his promise to her by leaving to join the Viking Guard in Constantinople, without her. Deciding to follow him, Solveig sets off in a tiny boat and into an epic adventure, encountering Swedish traders, a ghost-ship and a Russian king, braving arrow-storms and witnessing a living sacrifice. Through it all, Solveig's belief in her father is unwavering. Will she ever reach Constantinople? And will her father be there? An imaginative and poignant novel that explores friendship and betrayal, the father-daughter relationship, the clash of religions and the journey from childhood to adulthood, Bracelet of Bones is a vivid adventure not to be missed.

the area. With a combination of chapters specifically examining history, theory, method and practice, it offers a clear structure and systematic approach for the study of film festivals. It provides essential knowledge on the origin and development of film festivals, discusses the use of theory to study festivals, explores the methods of ethnographic and archival research, and looks closely at the professional practice of programming and film funding. Each section, moreover, is introduced by the editors, and all chapters include useful suggestions for further reading. This will be an essential textbook for students studying film festivals as part of their film, media and cultural studies courses, as well as a strong research tool for scholars that wish to familiarize themselves with this burgeoning field.

Digital Citizenship in Twenty-First-Century Young Adult Literature Megan L. Musgrave, 2016-10-11

This book is a study of the evolving relationships between literature, cyberspace, and young adults in the twenty-first century. Megan L. Musgrave explores the ways that young adult fiction is becoming a platform for a public conversation about the great benefits and terrible risks of our increasing dependence upon technology in public and private life. Drawing from theories of digital citizenship and posthuman theory, *Digital Citizenship in Twenty-First Century Young Adult Literature* considers how the imaginary forms of activism depicted in literature can prompt young people to shape their identities and choices as citizens in a digital culture

King Harald's Saga Snorri Sturluson, 2005-04-28 This compelling Icelandic history describes the life of King Harald Hardradi, from his battles across Europe and Russia to his final assault on England in 1066, less than three weeks before the invasion of William the Conqueror. It was a battle that led to his death and marked the end of an era in which Europe had been dominated by the threat of

Scandinavian forces. Despite England's triumph, it also played a crucial part in fatally weakening the English army immediately prior to the Norman Conquest, changing the course of history. Taken from the Heimskringla - Snorri Sturluson's complete account of Norway from prehistoric times to 1177 - this is a brilliantly human depiction of the turbulent life and savage death of the last great Norse warrior-king.
