THE HUT ON CHICKENS LEGS

Baba Yaga Andreas Johns,2004 Baba Yaga is a well-known witch from the folklore tradition of Russia, Ukraine, and Belarus. A fascinating and colorful character, she resembles witches of other traditions but is in many ways unique. Living in the forest in a hut that stands and moves on chicken legs, she travels in a mortar with a pestle and sweeps away her tracks with a broom. In some tales she tries to harm the protagonist, while in others she is helpful. This book investigates the image and ambiguity of Baba Yaga in detail and considers the meanings she has for East Slavic culture. Providing a broad survey of folktales and other sources, it is the most thorough study of Baba Yaga yet published and will be of interest to students of anthropology, comparative literature, folklore, and Slavic and East European studies.

The House With Chicken Legs Sophie Anderson,2018-09-25 An extraordinary retelling of the Baba Yaga myth, this debut novel will wrap itself around your heart and never let go. All 12-year-old Marinka wants is a friend. A real friend. Not like her house with chicken legs. Sure, the house can play games like tag and hide-and-seek, but Marinka longs for a human companion. Someone she can talk to and share secrets with. But that's tough when your grandmother is a Yaga, a guardian who guides the dead into the afterlife. It's even harder when you live in a house that wanders all over the world . . . carrying you with it. Even worse, Marinka is being trained to be a Yaga. That means no school, no parties -- and no playmates that stick around for more than a day. So when Marinka stumbles across the chance to make a real friend, she breaks all the rules . . . with devastating consequences. Her beloved grandmother mysteriously disappears, and it's up to Marinka to find her -- even if it means making a dangerous journey to the afterlife. With a mix of whimsy, humor, and adventure, this debut novel will wrap itself around your heart and never let go.

Kasdeja's Children Rachel Bramble,Justin Peter Beaney,2005-02 At 21, Greg Lessing is already hurtling towards mid-life crisis. A loner by nature, he is a misfit in Whitehall with no serious career prospects. Fraught office relationships mirror life at home, where endless arguments and the chronic pain of a childhood injury combine to weigh down his spirits. Only his passion for progressive rock music and a quiet bar in the West End of London called Club Cramatchs seem to provide him with any true comfort, but the sanctity of his refuge is suddenly called into question when he discovers a possible link between the Club's owners and a number of high-profile attacks on Catholic churches. With Greg unwittingly finding himself a suspect in the police investigation, things deteriorate still further when he encounters several mysterious and enigmatic characters that no one else seems able to see. Fearing for his sanity, Greg's efforts to clear his name lead him to Dormin Manor, a seventeenth century country house with a highly controversial purpose. From there, the complex puzzle that begins to unravel suggests that the echoes of a terrible injustice from hundreds of years ago may still be reverberating in the events of the present. With different factions each contesting his favour, Greg can't help but feel there is something familiar about the characters involved and one burning question continues to haunt his every move. Is anyone ever really gone? Drawing on a rich mixture of historical events and traditional folklore *Kasdeja's Children* is a fast-paced, intricately plotted thriller with a supernatural twist that provides a timely reminder of the evil of religious intolerance.

Modern Genre Theory David Duff,2014-09-11 Since Aristotle, genre has been one of the fundamental concepts of literary theory, and much of the world's literature and criticism has been shaped by ideas about the nature, function and value of literary genres. Modern developments in critical theory, however, prompted in part by the iconoclastic practices of modern writers and the emergence of new media such as film and television, have put in question traditional categories, and challenged the assumptions on which earlier genre theory was based. This has led not just to a reinterpretation of individual genres and the development of new classifications, but also to a radically new understanding of such key topics as the mixing and evolution of genres, generic hierarchies and genre-systems, the politics and sociology of genres, and the relations between genre and gender. This anthology, the first of its kind in English, charts these fascinating developments. Through judicious selections from major twentieth-century genre theorists including Yury Tynyanov, Vladimir Propp, Mikhail Bakhtin, Hans Robert Jauss, Rosalie Colie, Fredric Jameson, Tzvetan Todorov, Gérard Genette and Jacques Derrida, it demonstrates the central role that notions of genre have played in Russian Formalism, structuralism and post-structuralism, reception theory, and various modes of historical criticism. Each essay is accompanied by a detailed headnote, and the volume opens with a lucid introduction emphasising the international and interdisciplinary character of modern debates about genre. Also included are an annotated bibliography and a glossary of key terms, making this an indispensable resource for students and anyone interested in genre studies or literary theory.

Animal Architecture Paul Dobraszczyk,2023-05-17 A provocative call for architects to remember and embrace the nonhuman lives that share our spaces. A spider spinning its web in a dark corner. Wasps building a nest under a roof. There's hardly any part of the built environment that can't be inhabited by nonhumans, and yet we are extremely selective about which animals we keep in or out. This book imagines new ways of thinking about architecture and the more-than-human and asks how we might design with animals and the other lives that share our spaces in mind. *Animal Architecture* is a provocative exploration of how to think about building in a world where humans and other animals are already entangled, whether we acknowledge it or not.

A Study of Baba Yaga Ronesa Aveela,2022-12-19 You thought the Wicked Witch of the West was evil, but have you met the Wicked Witch of Eastern Europe? If you're familiar at all with Baba Yaga, you'll likely say she is a cannibalistic witch. This infamous Slavic fairy-tale character is also perhaps one of the most complex you'll find. While most others are strictly good or bad, Baba Yaga can be both simultaneously. Tales about Baba Yaga have terrified children throughout the ages. Not all are scary, though; some are enlightening or amusing. But who was she really? Did she ever exist? And, more importantly, does she still exist today? This in-depth study of Baba Yaga looks at not only academic studies, but it also digs deeper into her character and looks at popular and even controversial topics. You'll discover a side of the witch as she is perceived by those who say they have had an encounter with her. By the time you finish reading her story, you'll either want to crawl back into bed with the covers over you, or you'll seek out the witch of witches for her guidance.

The Slavic Myths Noah Charney,Svetlana Slapšak,2023-10-17 A Pulitzer-nominated author and one of the great public intellectuals of Slavic culture bring to life the unfamiliar myths and legends of the Slavic world. In the first collection of Slavic myths for an international readership, Noah Charney and Svetlana Slapšak expertly weave together the ancient stories with nuanced analysis to illuminate their place at the heart of Slavic tradition. While Slavic cultures are far-ranging, comprised of East Slavs (Russia, Ukraine, Belarus), West Slavs (the Czech Republic, Slovakia, Poland), and South Slavs (the countries of former Yugoslavia plus Bulgaria), they are connected by tales of adventure and magic with roots in a common lore. In the world of Slavic mythology we find petulant deities, demons and fairies, witches, and a supreme god who can hurl thunderbolts. Gods gather under the World Tree, reminiscent of Norse mythology's Yggdrasill. The vampire—usually the only Serbo-Croatian word in any foreign-language dictionary—and the werewolf both emerge from Slavic belief. In their careful analysis and sensitive reconstructions of the myths, Charney and Slapšak unearth the Slavic beliefs before their distortion first by Christian chroniclers and then by nineteenth-century scholars seeking origin stories for their

newborn nation states. They reveal links not only to the neighboring pantheons of Greece, Rome, Egypt, and Scandinavia, but also the belief systems of indigenous peoples of Australia, the Americas, Africa, and Asia. Specially commissioned illustrations inspired by traditional Eastern and European folk art bring the stories and their cultural landscape to life.

Russian Myths Elizabeth Warner,2002-07-01 The coming of Christianity to the state of Kievan Rus' at the end of the tenth century had an enormous impact on the development of Russian civilization. Despite the abandonment of the pagan gods, both Christian and pagan practices and beliefs continued to coexist for centuries, producing a system known as dual faith. *Russian Myths* deals with mythic beliefs, notions, and customs—concerning the veneration of earth, water, fire, and air, demons and spirit-beings in the world of nature, the cult of the dead, and witchcraft—many of which have their roots in the pre-Christian past but still survive to the present day. To illuminate the evolution of major themes and motifs and set Russian myths in the context of mythology the world over, Elizabeth Warner draws upon a rich variety of sources, including anecdotal narrative forms and religious legends, epic songs, funeral laments and folk religion, and, of course, the folktales where the sacred gives way to pure imagination in the depiction of mythic themes and characters.

Experiencing Anthropology in the Nicobar Archipelago Vijoy S Sahay,2020-07-27 This book explores the discipline of social-cultural anthropology through an extensive study of the Nicobarese people in one of the remotest human settlements of the Indian Ocean. It examines the social, cultural, economic, political and magico-religious beliefs of the Nicobarese, and traces their ritualistic upbringing from conception till after death. The book also discusses the nature-man-spirit complex observed in the life of the Nicobarese. The author further utilises this study to examine the complex role of anthropologists in maintaining objectivity and authenticity in ethnographic accounts, and discusses several critical epistemological issues concerning social-cultural anthropology as a field of study today. Based upon extensive field research by the author conducted over four decades, this volume will be of great interest to scholars and researchers of sociology and social-cultural anthropology, human geography, social sciences, minority studies, as well as South Asian studies.

Chicken Paul R. Josephson,2020-05-19 Why has the chicken become the meat par excellence, the most plentifully eaten and popular animal protein in the world, consumed from Beijing to Barcelona? As renowned historian Paul Josephson shows, the story of the chicken's rise involves a whole host of factors; from art, to nineteenth-century migration patterns to cold-war geopolitics. And whereas sheep needed too much space, or the cow was difficult to transport, these compact, lightweight birds produced relatively little waste, were easy to transport and could happily peck away in any urban back garden. Josephson tells this story from all sides: the transformation of the chicken from backyard scratcher to hyper-efficient industrial meat-product has been achieved due to the skill of entrepreneurs who first recognized the possibilities of chicken meat and the gene scientists who bred the plumpest and most fertile birds. But it has also been forced through by ruthless capitalists and lobbyists for “big farmer”, at the expense of animal welfare and the environment. With no sign of our lust for chicken abating, we're now reaching a crisis point: billions of birds are slaughtered every year, after having lived lives that are nasty, brutish and short. The waste from these victims is polluting rivers and poisoning animals. We're now plunging “egg-first” into environmental disaster. Alongside this story Josephson tells another, of an animal with endearing characteristics who, arguably, can lay claim to being man's best friend long before the dog reared its snout or the cat came in from the cold. Lionized in medieval romances and modern cartoons, the chicken's relationship to humanity runs deep; by treating these animals as mere food products, we become less than human.
