Recovering Our Sanity Michael Horton, 2022-02-15 How cultivating a healthy fear of God liberates us from our fear of others, our fear of the future, and even our fear of death itself. At times the world feels like it's losing its mind. From politics to the pandemic, we live with an ever-increasing uncertainty, and many of us have grown to fear the rapid disintegration of our society and our own lives. Recovering Our Sanity is not another self-help book about how to beat your daily fears for a better life. It's a book that will show you the gravity and glory of a God who's worthy of our fear. It's a book that will reveal how these two biblical phrases—Fear God and Do Not Be Afraid—are not contradictory but actually one coherent message. Michael Horton—Professor of Theology and Apologetics at Westminster Seminary—shows us that we cannot fight our fears by seeking the absence of fear altogether, but by living with a fear of God that drives out the fear of everything else. Horton will walk you through the case for the fear of God by: Developing what it means to fear God, biblically and theologically, and what this kind of fear looks like in practice. Categorizing different types of fears—from cultural anxiety to pain and hardship—and what they stem from. Focusing on how to confront our earthly fears with our hope in Christ, rooted in the gospel. Reminding us that God does not exist for us; we exist for God. Humbling, thought-provoking, and hope-igniting, Recovering Our Sanity delivers a timely message that will help you shift your focus from a human-centered obsession with self-preservation to a fixation on Christ and his salvation. Rather than clinging to false securities and promises of immediate gratification, you can gain the lasting joy of knowing the One who has given himself to save us and who says to us, Do not be afraid.

**Wickedpedia** Chris Van Etten, 2014-06-24 It's the return of Point Horror for the Internet generation! Don't open the door. Don't answer your phone. And whatever you do, DON'T turn on your computer. . . . Cole and Greg love playing practical jokes through Wikipedia. They edit key articles and watch their classmates crash and burn giving oral reports on historical figures like Genghis Khan, the first female astronaut on Jupiter. So after the star soccer player steals Cole's girlfriend, the boys take their revenge by creating a Wikipedia page for him, an entry full of outlandish information including details about his bizarre death on the soccer field. It's all in good fun, until the soccer player is killed in a freak accident . . . just as Cole and Greg predicted. The uneasy boys vow to leave Wikipedia alone but someone continues to edit articles about classmates dying in gruesome ways . . . and those entries start to come true as well. To his horror, Cole soon discovers that someone has created a Wikipedia page for him, and included a date of death.
