

The Living Corpse

Leo Tolstoy

Exhumed Ken Haeser, Buz Hasson, 2012 It's hard enough to be The Living Corpse -- the flies, the hunger for human brains, and the unending task of holding off the hordes of darkness from creeping into the world of the living. But when a Nosferatu suddenly moves into his graveyard, all hell breaks loose! And what will happen when The Living Corpse's friend, Lilith, gets caught in the middle? It's a battle of the undead and only one will be left standing! (here's a hint... the name of the book ain't Nosferatu!) The Living Corpse rises from the grave in an all-new, 6-issue mini-series, collected in this trade paperback, complete with a cover gallery and bonus material.

The Living Corpse by Leo Tolstoy. Leo Tolstoy., Count Leo Nikolayevich Tolstoy, 2016-07-05 The Living Corpse is a Russian play by Leo Tolstoy. Although written around 1900, it was only published shortly after his death-Tolstoy had never considered the work finished. An immediate success, it is still performed. The central character of the play, Fedor Protasov, is tormented by the belief that his wife Liza has never really chosen between him and the more conventional Victor Karenin, a rival for her hand. He wants to kill himself, but doesn't have the nerve. Running away from his life, he first falls in with Gypsies, and into a sexual relationship with a Gypsy singer, Masha. However, facing Masha's parents' disapproval, he runs away from this life as well. Again he wants to kill himself, but lacks the nerve; again, his descent continues. Meanwhile, his wife, presuming him dead, has married the other

man. When Protasov is discovered, she is charged with bigamy, accused of arranging her husband's disappearance. He shows up in court to testify that she had no way of knowing that he was alive; when the judge rules that his wife must either give up her new husband or be exiled to Siberia, Protasov shoots himself. Hysterically, his wife declares that it is Protasov whom she always loved.
