

The Motion Picture

Terry Ramsaye

Star Trek Gene Roddenberry,2000-05-23 Celebrate the 40th anniversary of Star Trek: The Motion Picture with this classic movie novelization written by legendary Star Trek creator Gene Roddenberry! The original five-year mission of the Starship Enterprise to explore strange new worlds and to seek out new life and new civilizations has ended. Now James T. Kirk, Spock, Dr. McCoy, and the rest of the crew of the Enterprise have separated to follow their own career paths and different lives. But now, an overwhelming alien threat—one that is ignoring all attempts at communication and annihilating all opposition in its path—is on a collision course with Earth, the very heart of the United Federation of Planets. And the only vessel that Starfleet can send in time to intercept this menace is a refitted Enterprise, with her old crew heeding the call to once again boldly go where no one has gone before....

Star Trek: The Motion Picture: The Art and Visual Effects Jeff Bond,2020-09-01 The official guide to the film artistry of Star Trek: The Motion Picture. Forty years ago, Star Trek: The Motion Picture brought Kirk, Spock, and the Enterprise crew to the big screen and changed the course of the Star Trek franchise. Now, celebrate this landmark anniversary by discovering the visual artistry that made this an enduring science fiction classic. For the first time ever, explore archival material created by legendary Star Trek collaborators, including Robert Abel, Syd Mead, Ralph McQuarrie, Andrew Probert, and Ken Adams.

Return to Tomorrow Preston Neal Jones,2014-11-30 Star Trek: The Motion Picture (1979) is one of the most beguiling and important science fiction films ever made. Its spectacular realization of Gene Roddenberry's inspirational future and humanistic storytelling are a cinematic achievement unlikely ever to be matched. At the same time, the film was a deeply troubled production that rolled without a completed script and saw a wholesale change in visual effects companies barely making its release date. In 1979, Preston Neal Jones was given unparalleled access to the cast and creators of Star Trek: The Motion Picture for what was intended to be a cover story for Cinefantastique magazine. Owing to the late completion of the film and ambitious scope of the manuscript, it was never published until now. This book is a priceless time capsule, an oral history in the words of 60 of the film's cast and creators, interviewed as the film was being prepared for release and nobody had any idea if it would succeed or even be finished on time. From the stars (William Shatner, Leonard Nimoy and the entire cast) to the filmmakers (Gene Roddenberry, Robert Wise) to the brilliant visual effect artists, illustrators, model builders and technicians who realized the 23rd century on screen (costumes, sets, props, models, music, sound FX and more), no aspect of the film's creation is overlooked. Go behind the scenes of this pivotal sci-fi masterwork and hear the unvarnished, uncensored truth of how it was created.

The Man Who Invented Motion Pictures Paul Fischer,2022-04-19 One of the New York Times Best True Crime of 2022 A “spellbinding, thriller-like” (Shelf Awareness) history about the invention of the motion picture and the mysterious, forgotten man behind it—detailing his life, work, disappearance, and legacy. The year is 1888, and Louis Le Prince is finally testing his “taker” or “receiver” device for his family on the front lawn. The device is meant to capture ten to twelve images per second on film, creating a reproduction of reality that can be replayed as many times as desired. In an otherwise separate and detached world, occurrences from one end of the globe could now be viewable with only a few days delay on the other side of the world. No human experience—from the most mundane to the most momentous—would need to be lost to history. In 1890, Le Prince was granted patents in four countries ahead of other inventors who were rushing to accomplish the same task. But just weeks before unveiling his invention to the world, he mysteriously disappeared and was never seen or heard from again. Three and half years later, Thomas Edison, Le Prince's rival, made the device public, claiming to have invented it himself. And the man who had dedicated his life to preserving memories was himself lost to history—until now. The Man Who Invented Motion Pictures pulls back the curtain and presents a “passionate, detailed defense of

Louis Le Prince...unfurled with all the cliffhangers and red herrings of a scripted melodrama” (The New York Times Book Review). This “fascinating, informative, skillfully articulated narrative” (Kirkus Reviews, starred review) presents the never-before-told history of the motion picture and sheds light on the unsolved mystery of Le Prince’s disappearance.

The Motion Picture Guide Jay Robert Nash, Stanley Ralph Ross, 1987

Now a Terrifying Motion Picture! James F. Broderick, 2014-01-10 This work explores the relationship between twenty-five enduring works of horror literature and the classic films that have been adapted from them. Each chapter delves into the historical and cultural background of a particular type of horror—hauntings, zombies, aliens and more—and provides an overview of a specific work’s critical and popular reception. Among the print-to-film titles discussed are *Frankenstein*, *Dracula*, *Doctor Jekyll and Mr. Hyde*, *The Masque of the Red Death*, *The Hound of the Baskervilles*, *The Phantom of the Opera*, *Psycho*, *The Exorcist*, and *The Shining*.

The Film Experience Roy Huss, Norman Silverstein, 1968 Explains how film-makers create a movie through the use of visual and structural rhythm, imagery, point of view and other cinematic techniques.

Restoration of Motion Picture Film Paul Read, Mark-Paul Meyer, 2000-08-14 This is the first book to bring together the work of a modern motion picture film laboratory together with the specialist techniques for preservation and restoration of archival film. The book’s data has its origins in a training programme called FILM which was written by members of the Gamma Group with funding from the EU fund Force. The committee comprised senior film archivists and technicians in charge of film conservation departments or working film laboratories within national film archives, together with technicians from commercial laboratories which specialise in archival film conservation and who do not work for national and local archives. The final group consisted of many of the most experienced individuals in their fields. *Restoration of Motion Picture Film* is an extremely informative, well-researched book which is an unmissable addition to the bookshelves of conservators, archivists and curators worldwide. Film history and film conservation students will also find it of great interest and use. * Only book in English on this subject * Prepared by leading specialists in their field * Includes coverage of digital technology

The Motion Picture Guide [Archivo de Ordenador], 1994

Now a Major Motion Picture Cory McCarthy, 2018-04-03 Fandom and first love collide in in this joyful, feminist contemporary romance from acclaimed author Cory McCarthy—perfect for fans of Rainbow Rowell and Ashley Poston Iris Thorne wants to blaze her own path. That’s easier said than done when you’re the granddaughter of M. E. Thorne, famous author of the *Elementia* series, hailed as the feminist response to J. R. R. Tolkien’s *Lord of the Rings*. And with a major motion picture adaptation of her grandmother’s books in the works, Iris can say goodbye to her dream of making her own way in the music industry. When Iris and her brother get invited to the film set in Ireland, she’s pretty sure the trip will be a nightmare. Except Iris can’t deny the rugged beauty of the Irish countryside. And brushing shoulders with the hot, young cast isn’t awful, especially the infuriatingly charming lead actor, Eamon O’Brien. Iris even finds the impassioned female director inspiring. But when the filming falls into jeopardy, everything Iris thought she knew about *Elementia*—and herself—is in question. Will making a film for the big screen help Iris to see the big picture?

A Million and One Nights Terry Ramsaye, 1926 History of the films from Edison through Will Hays.

Star Trek Stephen E. Whitfield, Gene Roddenberry, 1968

Motion Picture Photography H. Mario Raimondo-Souto, 2014-11-18 In 1891, William Dickson, a researcher at Thomas Edison’s firm, developed the Kinetograph, a motion picture camera that used Eastman Kodak’s new celluloid film. Almost immediately, an industry was born. The new artistic and technical discipline of motion picture photography matured as the film industry grew. From the beginnings of the movie camera, developments in

film production and exhibition have been inextricably linked to the evolution of motion picture photography. This work traces the history of motion picture photography from the late 19th century through the year 1960, when color photography became the accepted standard. Generously illustrated, it covers each decade's cameras, lenses, cameramen, film processing methods, formats, studios, lighting techniques and major cinematographic developments. Each chapter concludes with examples of the decade's outstanding cinematography. Instructors considering this book for use in a course may request an examination copy [here](#).

Soon to be a Major Motion Picture Theodore Gershuny, 1980

Motion Picture Marketing and Distribution Fred Goldberg, 1991-01-01 The only book of its kind that deals with the real world of selling movies. Provides the tools necessary to successfully market and distribute a movie. Topics include when to begin promoting the film, what to include in a press kit, examples of paperwork, budgets, ads and contracts, how to create and develop advertising concepts and how to work with the director and producer to create effective advertising and publicity material. It also examines how international markets must be accounted for during a promotional campaign.

Robert Wise J. R. Jordan, 2020-02-08

The Art and Craft of Motion Pictures Vincent LoBrutto, 2019-08-02 This volume can rightfully be called a film school in a single book. Investigating and analyzing the elements and concepts of motion picture creation, this book looks closely at 25 films that represent a wide range of styles and subjects. Although most motion picture viewers have seen numerous movies in their lifetime, few in the general public have a firm and deep understanding of how motion pictures are created, or a grasp of the intricacies of cinematic storytelling and content. By presenting 25 films, American and international, Hollywood and independent, this book educates and enlightens readers about the details of the motion picture creation process. Some readers will have viewed certain films in the volume, but many will be introduced to major cinematic works within the canon of great and essential films for the very first time. Topics explored include animation, period films, editing, directorial style, and non-linear cinematic structure. Readers will learn about the origin of the jump cut in *Breathless*, time and space in *Hiroshima Mon Amour*, and the editing in Orson Welles's essay film *F is for Fake*. *The Art and Craft of Motion Pictures: 25 Movies to Make You Film Literate* will educate the novice and avid moviegoer alike about the inner workings of this dynamic, popular, and culturally significant art form.

Hellboy: The Art of The Motion Picture (2019) Various, 2019-04-09 A gorgeously designed hardcover collecting a dozen chapters of concept art and set photography to offer a behind-the-scenes look at the most anticipated paranormal action thriller of 2019! Explore the dark and marvelous world of *Hellboy* like never before through nearly one thousand pieces of art and photography across 200 full-color pages. This volume offers an inside look at the creation of the newly reimagined cinematic epic based on the long-running comic book masterpiece by auteur creator Mike Mignola, starring David Harbour (*Stranger Things*), Milla Jovovich (*Resident Evil*), Ian McShane (*John Wick*), and Daniel Dae Kim (*Lost*). This tome is a must-have item for fans of supernatural cinema, dark fantasy art, or ass-kicking heroic hellions.

Now a Major Motion Picture Christine Geraghty, 2007-10-02 *Now a Major Motion Picture* is a unique look at the many sources, literary and otherwise, that influence film adaptations. Christine Geraghty subverts the idea that film adaptations of novels and plays must be faithful to the original texts. She is more interested in how, while a film reflects its literary source, it also invites comparisons to our memories and associations with other versions. Geraghty looks at a variety of adaptations, from the works of Jane Austen and Tennessee Williams to *Brokeback Mountain* and the adaptation of a setting, historical New York City.

On Film Frank Eugene Beaver, 1983 Depicts the development of films around the world from 1889 to the present and examines the treatment in

motion pictures of social and political themes
