America's Songs III: Rock! Bruce Pollock, 2017-03-16 *America's Songs III: Rock!* picks up in 1953 where *America's Songs II* left off, describing the artistic and cultural impact of the rock 'n' roll era on America's songs and songwriters, recording artists and bands, music publishers and record labels, and the all-important consuming audience. The Introduction presents the background story, discussing the 1945-1952 period and focusing on the key songs from the genres of jump blues, rhythm 'n' blues, country music, bluegrass, and folk that combined to form rock 'n' roll. From there, the author selects a handful of songs from each subsequent year, up through 2015, listed chronologically and organized by decade. As with its two preceding companions, *America's Songs III* highlights the most important songs of each year with separate entries. More than 300 songs are analyzed in terms of importance—both musically and historically—and weighted by how they defined an era, an artist, a genre, or an underground movement. Written by known rock historian and former ASCAP award winner Bruce Pollock, *America's Songs III: Rock!* relays the stories behind America's musical history.

Dance Music Nicolae Sfetcu, 2014-05-09 Dance music is music composed, played, or both, specifically to accompany dancing. It can be either the whole musical piece or part of

a larger musical arrangement. Dance music works usually bear the name of the corresponding dance, e.g. waltzes, the tango, the bolero, the can-can, minuets, salsa, various kinds of jigs and the breakdown. Other dance forms include contradance, the merengue, the cha-cha-cha. Often it is difficult to know whether the name of the music came first or the name of the dance. Although dance is often accompanied by music, it can also be presented alone (Postmodern dance) or provide its own accompaniment (tap dance). Dance presented with music may or may not be performed in time to the music depending on the style of dance. Dance performed without music is said to be danced to its own rhythm. An introduction to classical and modern dance including hip hop dance, what is dance, and the dance music (electronic music, rock and roll, disco, house, techno, trance, etc.)

Rethinking the Musical Instrument Mine Doğantan-Dack,2022-01-25 This volume brings together scholars and artist-researchers to explore the nature and function of

musical instruments in creative practices, and their role in musical culture. Through historical, theoretical, critical, practical-artistic perspectives and case studies, the contributors here examine identities and affordances of acoustical, electronic and digital musical instruments, the kinds of relationships that composers and performers establish with them, and the crucial role they play in the emergence of musical experiences and meanings.

The Music Sound Nicolae Sfetcu, 2014-05-07 A guide for music: compositions, events, forms, genres, groups, history, industry, instruments, language, live music, musicians, songs, musicology, techniques, terminology, theory, music video. Music is a human activity which involves structured and audible sounds, which is used for artistic or aesthetic, entertainment, or ceremonial purposes. The traditional or classical European aspects of music often listed are those elements given primacy in European-influenced classical music: melody, harmony, rhythm, tone color/timbre, and form. A more comprehensive list is given by stating the aspects of sound: pitch, timbre, loudness, and duration. Common terms used to discuss particular pieces include melody, which is a succession of notes heard as some sort of unit; chord, which is a simultaneity of notes heard as some sort of unit; chord progression, which is a succession of chords (simultaneity succession); harmony, which is the relationship between two or more pitches; counterpoint, which is the simultaneity and organization of different melodies; and rhythm, which is the organization of the durational aspects of music.

British Singles Chart - All Time Top 1000 - 2nd Edition Michael Churchill, 2017-11-11 On 14 November 1952, the New Musical Express published the first

British singles chart. In the 65 years since, 21922 records have entered the top 40. This book lists the 1000 biggest of those hits. The list is calculated solely from chart positions, not sales figures. These are the biggest chart performers, not the biggest sellers. Indeed, Candle In The Wind 1997 by Elton John, the biggest selling single ever in the UK, is only at no. 182 in this list. The ranking is compiled from the weekly charts starting with that first chart in November 1952 up to the last chart published before the 65th anniversary, the one dated 16 November 2017 and first revealed on 10 November.
