Oliver Double

Getting the Joke Oliver Double, 2013-11-07 'This is the kind of book that troubles grey-suited committees of academic peers. It's too enjoyable. But that, given its subject, is just what it ought to be, and it treats that subject seriously . . . There isn't a "dull" page anywhere in the book.' – Professor Peter Thomson, *Studies in Theatre and Performance Comedy* is changing: stand-up comedians routinely sell out stadia, their audience-figures swollen by panel-show appearances and much-followed Twitter feeds. Meanwhile, the smaller clubs are filling up, with audiences as well as aspirants. How can we make sense of it all? This new edition of *Getting the Joke* gives an insider's look at the spectrum of modern comedy, re-examining the world of stand-up in the internet age. Drawing on his acclaimed first edition, Oliver Double focuses in greater detail on the US scene and its comedians (such as David Cross, Sarah Silverman, Louis CK, Demetri Martin and Margaret Cho); the 'DIY' comedy circuit and its celebrated apostles and visionaries, from Josie Long to Stewart Lee; the growing importance of the solo stand-up show; the role played by Twitter (including an interview with the organiser of the world's first comedy gig on Twitter), and the driving force that is the TV guest slot, be it on *Mock the Week* or *Live at the Apollo*. With expanded sections on joke construction, as well as ways to challenge the audience, and a host of new and updated exercises to guide the aspiring comedian, this new edition of *Getting the Joke* is the only book to

combine the history of stand-up comedy with an analysis of the elements and methods that go into its creation. Featuring a range of interviews with working comedians – from circuit veterans to new kids on the block – combined with the author's vast experience, this is a must read for any aspiring stand-up comedian.

Scroungers James Morrison, 2019-02-15 Scroungers, spongers, parasites ... These are just some of the terms that are typically used, with increasing frequency, to describe the most vulnerable in our society, whether they be the sick, the disabled, or the unemployed. Long a popular scapegoat for all manner of social ills, under austerity we've seen hostility towards benefit claimants reach new levels of hysteria, with the 'undeserving poor' blamed for everything from crime to even rising levels of child abuse. While the tabloid press has played its role in fuelling this hysteria, the proliferation of social media has added a disturbing new dimension to this process, spreading and reinforcing scare stories, while normalising the perception of poverty as a form of 'deviancy' that runs contrary to the neoliberal agenda. Provocative and illuminating, *Scroungers* explores and analyses the ways in which the poor are portrayed both in print and online, placing these attitudes in a wider breakdown of social trust and community cohesion.

The Good Immigrant Nikesh Shukla, 2016-09-22 First published in 2016, *The Good Immigrant* has since been hailed as a modern classic and credited with

reshaping the discussion about race in contemporary Britain. It brings together a stellar cast of the country's most exciting voices to reflect on why immigrants come to the UK, why they stay and what it means to be 'other' in a place that doesn't seem to want you, doesn't truly accept you – however many generations you've been here – but still needs you for its diversity monitoring forms. This 5th anniversary edition, featuring a new preface by editor Nikesh Shukla, shows that the pieces collected here are as poignant, challenging, angry, humorous, heartbreaking and important as ever.

Dead Writers in Rehab Paul Bassett Davies, 2017-05-04 'It is dark, dirty, grim and confusing – in a very good way. It's also warm, humane, funny and mischievous, and all the pages are in the right order' Jeremy Hardy

Cuckoo in the Nest Nat Luurtsema, 2012-04-12 Keep your enemies close, your family less so... Last year Nat found herself with nowhere to live. She considered sleeping on the bus and washing in the rain but inevitably ended up on her parents' doorstep. It was only for a month, she assured them, if that.. She repeated this phrase a lot over the next six months, while the housing market stagnated like a spoilt kid's fish tank, and her life followed suit. While her friends pursued normal adult lives, Nat was taking packed lunches to gigs and being treated to lectures on 'Why It's Nice When All The Tins Face Forwards In The Cupboard.' ('So we can see what they all are at a glance!') Nat wouldn't say she and those like her were the real victims of the recession, but it would be nice if you did. Then she would do a tiny,

brave smile. A book for anyone who's been forced back to the family nest, parents who can't shake off their adult kids, or anyone who's ever excused themselves from a family gathering for a quick scream into a pile of towels.

One of Them Musa Okwonga, 2021-04-15 Musa Okwonga – a young Black man who grew up in a predominantly working-class town – was not your typical Eton College student. The experience moulded him, challenged him... but also made him wonder why a place that was so good for him also seems to contribute to the harm being done to the UK. The more he searched, the more evident the connection became between one of Britain's most prestigious institutions and the genesis of Brexit, and between his home town in the suburbs of Greater London and the rise of the far right. Woven throughout this deeply personal and unflinching memoir of Musa's five years at Eton in the 1990s is a present-day narrative which engages with much wider questions about pressing social and political issues: privilege, the distribution of wealth, the rise of the far right in the UK, systemic racism, the 'boys' club' of government and the power of the few to control the fate of the many. *One of Them* is both an intimate account and a timely exploration of race and class in modern Britain.

24 Stories Irvine Welsh, A.L. Kennedy, Meera Syal, John Niven, Pauline Melville, Daisy Buchanan, Christopher Brookmyre, Zoe Venditozzi, Nina Stibbe, Mike Gayle, Murray Lachlan Young, Barney Farmer, 2018-06-14 In the early hours of 14 June 2017, a fire engulfed the 24-storey Grenfell Tower in west London,

killing at least 72 people and injuring many more. An entire community was destroyed. For many people affected by this tragedy, the psychological scars may never heal. Post-Traumatic Stress Disorder is a condition that affects many people who have endured traumatic events, leaving them unable to move on from life-changing tragedies. In the immediate aftermath of the fire, the focus was rightly placed on providing food, shelter and health care for those left homeless – but it is important that we don't lose sight of the psychological impact this fire will have had on its survivors. 24 Stories is an anthology of short stories, written on themes of community and hope, by a mix of the UK's best established writers and previously unpublished authors, whose pieces were chosen by Kathy Burke from over 250 entries. Contributors include: Irvine Welsh, A. L. Kennedy, Meera Syal, John Niven, Pauline Melville, Daisy Buchanan, Christopher Brookmyre, Zoe Venditozzi, Nina Stibbe, Mike Gayle, Murray Lachlan Young, Barney Farmer.

100 Acts of Minor Dissent Mark Thomas,2015-06-25 100 Acts of Minor Dissent is a hilarious account of an entire year spent living provocatively. From successful campaigns against Royal Parks and multinationals, to arts and crafts with porn mags, from annoying estate agents, to raising cinema workers' wages, comedian and campaigner Mark Thomas stopped at nothing. The Acts were sometimes bold, sometimes surreal. Many brought about change and others were done for the sheer hell of it. Whether at the gates of the Saudi

Arabian embassy or the checkout at Tesco - people reacted with laughter, shock, outrage and occasionally anger. Sometimes all of the above. 100 Acts of Minor Dissent makes for dangerously inspiring reading. Please note this is a fixed-format ebook with colour images and may not be well-suited for older e-readers.

The Karma Farmers Pierre Hollins, 2017-08-08 A genre-defying novel about love, murder and quantum theory. A crime thriller based upon a philosophical conundrum: if science demonstrated that consciousness could survive death, how far would you go to discover if it was true? In an age of divisive belief systems, Bradley Holmeson a thirty-something bookshop manager, is attempting to cure his existential dilemma with quantum physics. Research leads him to a radical theory of consciousness based on the work of real-life theoretical physicist David Bohm, which Holmeson self-publishes in a short, seditious manifesto. He doesn't want revolution so much as literary notoriety, hoping that success will impress his estranged girlfriend. However, his writing begins to attract the wrong attention... A reluctant philosopher embroiled in an occult experiment, Holmeson meets the violent, the obsessed and the dangerously misguided, armed only with his defensive sarcasm – and all to win back the woman he loves.

Promoting Men's Mental Health David Conrad, Alan White, 2018-04-17 A welcome and important contribution to a thankfully growing debate. Mental illness remains in some ways the last great taboo in our society, a taboo which leads

directly to stigma and discrimination which for some can be even worse than the symptoms of their illness. This book in part is about encouraging men who have reached crisis point to seek help. Equally it's about prevention, and sets out some of the excellent work being done on that. I hope it can inspire practitioners and policy makers to initiate similar interventions, develop new ones and lift the promotion of men's mental health much higher up the agenda, both in the UK and abroad.

A - From the Foreword by Alastair Campbell

Men - in all their diverse groups, settings, lifestyles and stages of life - can face considerable challenges to their mental wellbeing from specific cultural and societal factors, causing difficulties for themselves and those who live and work with them. In addition, these men may respond better to certain approaches and treatment. Promoting Men's Mental Health outlines the breadth of the challenges and provides guidance for those working in primary care on targeting and helping men who need support. Good mental health is more than the absence of mental illness, and this book therefore highlights methods to promote positive mental health by increasing psychological wellbeing, competency and coping skills, and by creating supportive living and working environments. The book highlights examples of best practice throughout the UK, Europe and America, and will be essential reading for primary care and mental health professionals, and all those with an interest in men's mental health. 'We need to be more innovative in the way we try to reach men. This book will help stimulate further discussion and hopefully

encourage men to seek help or support.' From the Foreword by Louis Appleby

Rife Nikesh Shukla,2019-07-11 Young people in this country are facing a chasm of doubt and instability. Mental health problems are widespread,

university fees are rising, job opportunities are drying up, and the prospect of ever owning a home is increasingly out of reach. But this generation is noticeably absent from the opinion columns, comment pieces and news reports of the mainstream media. From the creative minds behind Rife magazine comes this anthology of twenty passionate voices, all under the age of twenty-four, writing across a spectrum of topics that matter to them. It holds a mirror up to the experience of young people in the UK today, with essays on money, mental health, sex, gender, inequality, education, crime and the future. Bracing, honest and set against what can often seem an apocalyptic backdrop, these stories are nevertheless full of ideas and solidarity to draw on through these uncertain times.

Understanding Social Signals: How Do We Recognize the Intentions of Others?
Sebastian Loth, Jan P. De Ruiter, 2016-05-30 Powerful and economic sensors such as high definition cameras and corresponding recognition software have become readily available, e.g. for face and motion recognition. However, designing user interfaces for robots, phones and computers that facilitate a seamless, intuitive, and apparently effortless communication as between humans is still highly challenging. This has shifted the focus from developing ever faster and higher resolution sensors to interpreting available sensor data for understanding social signals and recognising users' intentions. Psychologists, Ethnologists, Linguists and Sociologists have investigated social behaviour in human-human interaction. But their findings are rarely

applied in the human-robot interaction domain. Instead, robot designers tend to rely on either proof-of-concept or machine learning based methods. In proving the concept, developers effectively demonstrate that users are able to adapt to robots deployed in the public space. Typically, an initial period of collecting human-robot interaction data is used for identifying frequently occurring problems. These are then addressed by adjusting the interaction policies on the basis of the collected data. However, the updated policies are strongly biased by the initial design of the robot and might not reflect natural, spontaneous user behaviour. In the machine learning approach, learning algorithms are used for finding a mapping between the sensor data space and a hypothesised or estimated set of intentions. However, this brute-force approach ignores the possibility that some signals or modalities are superfluous or even disruptive in intention recognition. Furthermore, this method is very sensitive to peculiarities of the training data. In sum, both methods cannot reliably support natural interaction as they crucially depend on an accurate model of human intention recognition. Therefore, approaches to social robotics from engineers and computer scientists urgently have to be informed by studies of intention recognition in natural human-human communication. Combining the investigation of natural human behaviour and the design of computer and robot interfaces can significantly improve the usability of modern technology. For example, robots will be easier to use by a broad public if they can interpret the social signals that users

spontaneously produce for conveying their intentions anyway. By correctly identifying and even anticipating the user's intention, the user will perceive that the system truly understands her/his needs. Vice versa, if a robot produces socially appropriate signals, it will be easier for its users to understand the robot's intentions. Furthermore, studying natural behaviour as a basis for controlling robots and other devices results in greater robustness, responsiveness and approachability. Thus, we welcome submissions that (a) investigate how relevant social signals can be identified in human behaviour, (b) investigate the meaning of social signals in a specific context or task, (c) identify the minimal set of intentions for describing a context or task, (d) demonstrate how insights from the analysis of social behaviour can improve a robot's capabilities, or (e) demonstrate how a robot can make itself more understandable to the user by producing more human-like social signals.

Epic Space Ian Martin, 2017-03-09 Epic Space is a hilarious take on contemporary culture as viewed through the twisted prism of 'Martin', amoral architectural consultant with a penchant for a long lunch and powerful friends, including members of the Cabinet and HRH the Prince of Wales. Written in weekly diary form, Martin's world is a mad and woozy version of our own: one in which Martin and his friend, the nanofuturologist Beansy, can invent Kryptogel – a new building material developed using 'hard air'. It's a world where the property wing of the Church of England builds buy-to-let

almshouses while 'bouncy mega-mosques' have helium-stiffened minarets. An arts correspondent is sacked by a Sunday newspaper and replaced with his own overdressed architectural dachshund. Soot becomes a valuable stock market commodity. A hipster skyscraper is called the Blard. And an ambitious plan is hatched to turn the North around so that it faces south. Big questions are asked: Is Texture The New Fragrance? Is Modern Modernism Just Post-Modernism But With A Neo-Modernistic Coat On? How Fat is Your Faceprint? And, reassuringly, there are still plenty of boozy lunches.

Cut from the Same Cloth? Sabeena Akhtar, 2021-05-27 From modern pop culture to anti-Blackness, faith and family, politics, education, creativity and working life; this anthology gives visibly Muslim women a space to speak. SPOILER ALERT: We won't be answering the usual questions! Perceived as the visual representation of Islam, hijab-wearing Muslim women are nevertheless rarely afforded a platform on their own terms. Harangued by awkward questions, radical commentators sensationalising our existence, non-Muslims and non-hijabis making assumptions, men speaking on our behalf, or stereotypical norms being perpetuated by the same old faces, hijabis are tired. *Cut from the Same Cloth?* seeks to tip the balance back in our favour. Here, twenty-one women of all ages and races look beyond the tired tropes, exploring the breadth of our experience and spirituality. It's time we, as a society, stop with the hijab-splaining and make space for the women who know. Essays by Negla Abdalla, Zahra Adams, Sabeena Akhtar, Mariam Ansar, Fatima

Mrs. Sinclair's Suitcase Louise Walters, 2015-08-04 A heartbreaking and deeply compelling debut, Mrs. Sinclair's Suitcase is a compulsive page-turner about thwarted love, dashed hopes, and family secrets—book-club fiction at its best. Roberta, a lonely thirty-four-year-old bibliophile, works at The Old and New Bookshop in England. When she finds a letter inside her centenarian grandmother's battered old suitcase that hints at a dark secret, her understanding of her family's history is completely upturned. Running alongside Roberta's narrative is that of her grandmother, Dorothy, as a forty-year-old childless woman desperate for motherhood during the early years of World War II. After a chance encounter with a Polish war pilot, Dorothy believes she's finally found happiness, but must instead make an unthinkable decision whose consequences forever change the framework of her family. The parallel stories of Roberta and Dorothy unravel over the course of eighty years as they both make their own ways through secrets, lies, sacrifices, and love. Utterly absorbing, Mrs. Sinclair's Suitcase is a spellbinding tale of two worlds, one shattered by secrets and the other by the truth.
