Buell Hampton Willis George Emerson, 2022-06-03 Published in 1902, *Buell Hampton* is an intriguing novel based on several real personalities, locations, and events in the Southwest of England. These characters were inspired by figures that the author was familiar with or related to somehow. With most of the pieces taken from actual incidents, this fascinating tale offers the readers a glimpse into England and English society at the end of the 19th century.

Daniel Stein, Interpreter Ludmila Ulitskaya, 2011-03-31 This epic biographical novel based on true events shares a “moving depiction of how Holocaust survivors struggle to rebuild their lives” (Historical Novel Society). This innovative novel tells the story of Daniel Stein, a Polish Jew who narrowly survives the Holocaust by working for the Gestapo as an interpreter. Meanwhile, he secretly helps hundreds of Jews escape the ghetto. After the war, he converts to Catholicism, becomes a priest, and finally emigrates to Israel. Despite this seemingly far-fetched progression, the life of Daniel Stein is not an invention—he is based on a real person, Oswald Rufeisen, a Carmelite priest. *Daniel Stein, Interpreter* ranges from before World War II to modern times, and from the shtetl to Israel to America. It portrays a life full of amazing contradictions and undaunted faith.

Flat Army Dan Pontefract, 2018-06-08 Your people are your most valuable asset, and if you want them to excel (and your profits to soar), you'll need to abandon your traditional command-and-control management style and adopt a collaborative, open leadership approach—one that engages and empowers your people. And most of those who do get it lack the skills for putting it into practice. In *Flat Army* you'll find powerful leadership models and tools that help you challenge yourself and overcome your personal obstacles to change, while pushing the boundaries of

organizational change to create a culture of collaboration. • Develops an integrated framework incorporating collaboration, open leadership, technologies, and connected learning • Shows you how to flatten the organizational pyramid and engage with your peoples in more collaborative and productive ways—without undermining your authority • Explains how to deploy a Connected Leader mindset, a Participative Leader Framework, and a Collaborative Leader Action Model • Arms you with powerful tools for becoming a more visible leader who demonstrates the qualities and capabilities needed to become an agent of positive change

Razzle Dazzle James H. Bruns,2022-12-02 During World War I, American merchant ships were given oddly colored paint jobs to distort their profiles at sea. Dubbed Razzle-Dazzle, these camouflage patterns were believed responsible for dramatic decreases in Allied shipping losses. This book examines the real (and more compelling) factors that made a difference in the survivability of merchant shipping: the various measures taken principally by the U.S. Navy, including the use of convoys and destroyer escorts, along with some innovative naval technologies. At the same time, advances in America's shipbuilding industry and the development of the nation's first major on-the-job training program enabled mass production of merchant ships at a record pace.

Adventures of a Cat-Whiskered Girl Daniel

Pinkwater,2018-04-01 A wild new adventure from the author of *The Yggyssey*—"Pinkwater may be my single most favorite writer in the entire world" (Cory Doctorow). Big Audrey is a girl . . . with

cat's whiskers . . . and sort of cat's eyes. But is there another cat-whiskered, sort of cat-eyed girl? Big Audrey waves goodbye to her friends Iggy, Neddie, Seamus, and Crazy Wig, in Los Angeles—and hitches a ride with bongo-playing-while-driving Marlon Brando across the country to Poughkeepsie, New York, city of mystery. She finds she has questions needing answers—and a bit of inter-plane-of-existence traveling to do. Readers who love the strange, the offbeat, and the just plain kooky will want to tag along with Big Audrey and her telepathic friend, Molly, on this “vastly entertaining” (Kirkus Reviews) road trip, as they try to solve the mystery of the cat-whiskered doppelganger . . . “Every character they encounter is crazier than the next—a 114-year-old woman named Chicken Nancy; a Catskill Mountain Giant; members of a secret brotherhood from an alternate Poughkeepsie—and every chance encounter leads them to another zany adventure. Mixing the absurd with the profound, Pinkwater’s odd narration will have even the most serious readers laughing at the chaos.” —Booklist

Basketball Jackie MacMullan,Rafe Bartholomew,Dan Klores,2019-10-15 NEW YORK TIMES BESTSELLER • Inspired by a major ESPN film series, this is an extraordinary oral history of basketball—its eye-opening untold history, its profound deeper meaning, its transformative influence on the world—as told through an unprecedented series of candid conversations with the game’s ultimate icons. This is the greatest love story never told. It has passion and heartbreak, triumph and betrayal. It is deeply intimate yet crosses oceans, upends lives and changes nations. This is the true story of basketball. It is the story of a Canadian invention that took over America, and the world. Of a supposed “white man’s sport” that became a way for people of color, women, and immigrants to claim a new place in society. Of a game that demands everything of those who love it, yet gives so much back in return. To tell this story, acclaimed journalists Jackie

MacMullan, Rafe Bartholomew and Dan Klores embarked on a groundbreaking mission to interview a staggering lineup of basketball trailblazers. For the first time hundreds of legends, from Kobe, Lebron and Steph Curry to Magic Johnson, Dr. J and Jerry West, spoke movingly about their greatest passion. Former NBA commissioner David Stern and iconic coaches like Phil Jackson and Coach K opened up like never before. Those who shattered glass ceilings, from Bill Russell and Yao Ming to Cheryl Miller and Lisa Leslie, explained what it really took to lay claim to their place in the game. At once a definitive oral history and something far more revelatory and life affirming, *Basketball: A Love Story* is the defining untold oral history of how basketball came to be, and what it means to those who love it.

Reflections at Journey's End York County Bar Association, 2018-11-30 A compelling series of insightful biographical sketches of the men and women of the York County Bar commencing eleven years before the start of the Civil War as recounted by contemporaries and colleagues. Candid, sincere, honest, and on occasion with a touch of comic relief, these memorial minutes are tributes to those who have made their rendezvous with mortality. Found within these volumes is the venerable Jeremiah S. Black who walked the corridors of national recognition during the Civil War era; the urbane and brilliant Herbert B. Cohen who wielded substantial political power throughout the commonwealth and rose to become an associate justice of the Pennsylvania Supreme Court; and the charismatic Harvey Gross whose superb advocacy in the third Hex trial and subsequent twenty-year tenure on the York County Orphans' Court placed him in the forefront of the princes of Anglo-Saxon jurisprudence. This "callout" of the giants in no way diminishes the significance, commitment, and integrity of the many other remarkable individuals who came after and counseled and inspired others to live honestly, to exercise compassion, and to act with prudence and diligence, and above all else made their contribution

to the vast and diverse panorama of our humanity. Not a typical memoir or story, these memorial minutes constitute the defining epic of the York County Bar. More than history, more than recitals of character and personality, more than delightful encounters and more somber content, they are about individuals remembered for the richness and power of their hopes, achievements, and commitments to the timeless values of the life of the law.

Recent Innovations in Educational Technology that Facilitate Student Learning Gregory Schraw, Daniel H. Robinson, 2008-08-01 The field of educational technology is exploding in terms of innovations being developed daily. Most of these innovations hold fascinating promise but enjoy almost no empirical support. There are educational researchers who have both developed innovations and tested their potential empirically. This book will capture the latest and most promising innovations from the leading educational technologists in the world, including animations, simulations, visualizations, navigation, manipulatives, pedagogical agents, and assessment. This book is appropriate for university courses in educational technology for those wishing to showcase the latest innovations that are accompanied by empirical support.

The 'Ands of Time Michael Anthony Bell, 2011-05-10 The story is based partially in the island of Jamaica and in America. It traces the life of a family from the 1970s into the future and explores the relationship between individual behaviour, greed, selfishness, societal violence, organized crime, tribalism, gang and urban warfare, science and genetics as a consequence of the impact of the global village and ambitions of geo-politics and world domination. It explores how the thirst and thrust for world domination impacts on the lives and relationship of the family, and their neighbours, and how these factors affects individuals actions which in turn affect the collective consciousness of a nation and lead to murder, mayhem, and social degradation. It explores the reactive and dangerous steps taken by members of this family in order to survive. Though informative and instructive, the book is a

fast paced action pack story with lots of unexpected turns and developments as it builds up the reader with adrenaline paced narrative. You never quite know what is coming next. The story, though fictionalized, is predicated and inspired by true events, the composite of lives of real persons and the extrapolation of cause, effects, conscience, and consequences. It examines how the attitude and actions of individuals on each other can affect these individual and impacts on the wider society and the world far into the future with multiplying effects. It also looks at the role that science, religion, nuclear proliferation, and politics will play in the future world. Some of the names, locations, persons, and situations were changed, altered, and fictionalized in order to conceal the identity of some of the persons and characters, places, and to also add dramatic effect and to magnify and illustrate pertinent points and ideas.

Dynamics of the Singing Voice Meribeth Bunch

Dayme,1995 The book is designed as a reference text for teachers of singing, singers, choral conductors and organists, speech and voice therapists, laryngologists and other health professionals, psychologists and those in linguistics. It discusses the physiological, psychological, musical and emotional aspects of the voice, particularly as they relate to singing but also to speaking. Important features of this work are the clear illustrations, the broad coverage of the topic and the extensive bibliography. The book provides a greater understanding of how the voice works and the many factors involved in singing as well as an objective discussion of singing without reference to specific techniques. - Publisher.
