*Advances in Nuclear Dynamics 5* Wolfgang Bauer,Gary D. Westfall,2012-12-06 th This workshop was the 15 in a

series that addresses the subject of the dynamics of nuclear reactions. These workshops are dedicated to the concept that bringing together scientists from diverse areas of nuclear reactions promotes the vibrant exchange of ideas. This workshop hosted presentations from experimentalists and theorists, intermediate energy to ultrarelativistic energies, and final results to recent speculations. Many of these scientists would not normally be exposed to the work done in other subfields. Thus the Winter Workshop on Nuclear Dynamics plays a unique role in information exchange and the stimulation of new ideas. The field of nuclear dynamics has a bright future. New accelerators are being planned and completed around the world. New detectors are being constructed. New models and theories are being developed to describe these phenomena. The Winter Workshop on Nuclear Dynamics will continue to promote this lively and compelling field of research. WOLFGANG BAUER AND GARY D. **The DSM-5 in Perspective** Steeves Demazeux, Patrick Singy, 2015-02-28 Since its third edition in 1980, the Diagnostic and Statistical Manual of Mental Disorders (DSM) of the American Psychiatric Association has acquired a hegemonic role in the health care professions and has had a broad impact on the lay public. The publication in May 2013 of its fifth edition, the DSM-5, marked the latest milestone in the history of the DSM and of American psychiatry. In *The DSM-5 in Perspective: Philosophical Reflections on the Psychiatric Babel*, experts in the philosophy of psychiatry propose original essays that explore the main issues related to the DSM-5, such as the still weak validity and reliability of the classification, the scientific status of its revision process, the several cultural, gender and sexist biases that are apparent in the criteria, the comorbidity issue and the categorical vs. dimensional debate. For several decades the DSM has been nicknamed "The Psychiatric Bible." This volume would like to suggest another biblical metaphor: the Tower of Babel. Altogether, the essays in this volume describe the DSM as an imperfect and unachievable monument – a monument that was originally built to celebrate the new unity of clinical psychiatric discourse, but that ended up creating, as a result of its hubris, ever more profound practical divisions and theoretical difficulties.

**George R. R. Martin's A Game of Thrones 5-Book Boxed Set (Song of Ice and Fire Series)** George R. R. Martin,2012-09-10 For the first time, all five novels in the epic fantasy series that inspired HBO's Game of Thrones are together in one eBook bundle. An immersive entertainment experience unlike any other, A Song of Ice and Fire has earned George R. R. Martin—dubbed “the American Tolkien” by Time magazine—international acclaim and millions of loyal readers. Now this bundle collects the entire monumental cycle in the most convenient format available: A GAME OF THRONES A CLASH OF KINGS A STORM OF SWORDS A FEAST FOR CROWS A DANCE WITH DRAGONS “One of the

best series in the history of fantasy.”—Los Angeles Times Winter is coming. Such is the stern motto of House Stark, the northernmost of the fiefdoms that owe allegiance to King Robert Baratheon in far-off King’s Landing. There Eddard Stark of Winterfell rules in Robert’s name. There his family dwells in peace and comfort: his proud wife, Catelyn; his sons Robb, Brandon, and Rickon; his daughters Sansa and Arya; and his bastard son, Jon Snow. Far to the north, behind the towering Wall, lie savage Wildings and worse—unnatural things relegated to myth during the centuries-long summer, but proving all too real and all too deadly in the turning of the season. Yet a more immediate threat lurks to the south, where Jon Arryn, the Hand of the King, has died under mysterious circumstances. Now Robert is riding north to Winterfell, bringing his queen, the lovely but cold Cersei, his son, the cruel, vainglorious Prince Joffrey, and the queen’s brothers Jaime and Tyrion of the powerful and wealthy House Lannister—the first a swordsman without equal, the second a dwarf whose stunted stature belies a brilliant mind. All are heading for Winterfell and a fateful encounter that will change the course of kingdoms. Meanwhile, across the Narrow Sea, Prince Viserys, heir of the fallen House Targaryen, which once ruled all of Westeros, schemes to reclaim the throne with an army of barbarian Dothraki—whose loyalty he will purchase in the only coin left to him: his beautiful yet innocent sister, Daenerys. “Long live George Martin . . . a literary dervish, enthralled by complicated characters and vivid language, and bursting with the wild vision of the very best tale tellers.”—The New York Times
