Japan the Toothless Tiger Declan Hayes, 2012-01-10 East Asia: the world's most dangerous flash point brought to life by a true insider. Once a political and economic powerhouse, Japan now finds herself severely weakened and in a very troubling situation with a belligerent and expansionist China on one side and a still-influential but distant and waning America on the other. Declan Hayes draws on his experiences teaching in Japan for over a decade at Tokyo's Sophia University to give an insider's perspective on this topic, placing the Pacific situation in a political context. Hemmed in by mounting tensions with China over the Senkaku / Diaoyu Islands and facing nuclear threats from North Korea, what should Japan do? Should she rearm? Should she get the bomb? What are the consequences of rearming, or not rearming? In this second edition, Professor Hayes includes a preface with updates about recent developments in Asia. As the permanent interests of China and Japan, East Asia's main protagonists, do not and cannot change, Japan: The Toothless Tiger is even more relevant now than when it was first published.

Of One-eyed and Toothless Miscreants Michael

Tonry, 2019-10-02 Can punishments ever meaningfully be proportioned in severity to the seriousness of the crimes for which they are imposed? A great deal of attention has been paid to the general justification of punishment, but the thorny practical questions have received significantly less. Serious analysis has seldom delved into what makes crimes more or less serious, what makes punishments more or less severe, and how links are to be made between them. In *Of One-eyed and Toothless Miscreants*, Michael Tonry has gathered together a distinguished cast of contributors to offer among the first sustained efforts to specify with precision how proportionality can be understood in relation to the implementation of punishment. Each chapter examines scholarly and lay thinking about punishment of people convicted of crimes with particular emphasis on making the punishment fit the crime. The contributors challenge the most prevalent current theories and emphasize the need for a shift away from the politicized emotionalism of recent decades. They argue that theories that coincided with mass incarceration and rampant injustice to countless individuals are evolving in ways that better countenance moving toward more humane and thoughtful approaches. Written by many of the leading thinkers on punishment, this volume dissects previously undeveloped issues related to considerations of deserved punishment and provides new ways to understand both the severities of punishment and the seriousness of crime.

cooked slowly in a six-quart Crock-Pot for four to six hours. The surprise was, they still enjoy these, and I prepare these for company as well. They all request these recipes, so here goes. I'll start with the most requested entree recipes I make. This one is a never-fail, great dinner for company that is simple, rich, hearty, and comforting—Rhea's chicken and noodles.
