**Paper Toys: Fantasy Creatures** Tougui,2016-10-15 Paper Toys is a wonderful new series of interactive craft books that allow children to pop out and build their own paper toys. While complimentary, each volume in the series is designed by a different talented artist, lending a stylized look to their fanciful creations. With several themes to choose from including Robots, Monsters, Fantasy Creatures, and Animals, the options for imaginative play are endless. Printed on durable cardstock and die-cut, each toy is easy to assemble with no glue or scissors needed.

*Village Governance in North China* Huaiyin Li,2005-03-09 This book is about village governance in China during the late nineteenth and early twentieth centuries. Drawing on government archives from Huailu county, Hebei province, it explores local practices and official systems of social control, land taxation, and self government at the village level. Its analysis of peasant behaviors bridges the gap between the rational choice and moral economy models by taking into account both material and symbolic dimensions of power and interest in the peasant community. The author's interpretation of village/state relations before 1900 transcends the state and society dichotomy and accentuates the interplay between formal and informal institutions and practices. His account of state making after 1900 underscores the continuity of endogenous arrangements in the course of institutional formalization and the interpenetration between official discourse and popular notions in the new process of political legitimization.
