Forbidden Scrollery, Vol. 1 ZUN,2017-11-21 Where else would a girl with the power to translate any tome she sets in her lap reside except a library? Sure, some books may be more dangerous than others, but that's far from discouragement for a true bibliophile like Kosuzu Motoori!

Scarlet & scarlet ,2007

Hear It From The People Joyce Seaman,2022-02-21 There are many storms that we will all face in life. Hurricanes, tornados, and blizzards to name a few. But what about the internal storms that grip us to the very core of our being. Storms of hurt, disease, death, unforgiveness, and sin. People hurt us and we hurt people. We get sick and eventually recover or never recover, only to live out our days in pain. We have accidents. We bury our loved ones who pass on before we do. We struggle to make sense of it all. When we are warned of a coming storm, we make the necessary preparations to endure and survive such storms, but sometimes storms are not in the forecast and we are caught unawares and suffer harm or loss. Then there are the times when we cause the storms in our lives by the choices we make, ignoring all the warning signs and forging on ahead only to find ourselves trapped with no way out. What do we do when the valley in our lives becomes so low that it feels impossible to climb out? This book has real accounts from real people who found everything they needed to get through the storms in their lives from a real God who promised them that He would never leave them or forsake them (Hebrews13:5).

Manga's Cultural Crossroads Jaqueline Berndt,Bettina Kümmerling-Meibauer,2014-03-14 Focusing on the art and literary form of manga, this volume examines the intercultural exchanges that have shaped manga during the twentieth century and how manga's culturalization is related to its globalization. Through contributions from leading scholars in the fields of comics and Japanese culture, it describes manga culture in two ways: as a fundamentally hybrid culture comprised of both subcultures and transcultures, and as an aesthetic culture which has eluded modernist notions of art, originality, and authorship. The latter is demonstrated in a special focus on the best-selling manga franchise, NARUTO.

Reconciling Copyright with Cumulative Creativity Giancarlo Frosio,2018 Reconciling Copyright with Cumulative Creativity: The Third Paradigm examines the long history of creativity, from cave art to digital remix, in order to demonstrate a consistent disparity between the traditional cumulative mechanics of creativity and modern copyright policies. Giancarlo Frosio calls for the return of creativity to an inclusive process, so that the first (pre-modern imitative and collaborative model) and second (post-Romantic copyright model) creative paradigms can be reconciled into an emerging third paradigm which would be seen as a networked peer and user-based collaborative model.

Reading Spaces in Modern Japan Andrew T. Kamei-Dyche, 2023-03-31 This study provides an accessible overview of the range of reading spaces in modern Japan, and the evolution thereof from a historical perspective. After setting the scene in a short introduction, it examines the development of Kanda-Jinbōchō, the area of Tokyo that has remained for a century the location in Japan most bound up with books and print culture. It then considers the transformation of public reading spaces, explaining how socio-economic factors and changing notions of space informed reading practices from the early modern era to the present. This led, in turn, to changes in bookstores, libraries, and other venues. Finally, it briefly considers the nature and impact of virtual reading spaces, such as the representation of reading and reading spaces in popular culture, and new modes of reading mediated by the digital realm as well as the multifaceted relationship between these and older forms of reading practice.

Textual Cacophony Daniel Johnson, 2023-10-15 Textual Cacophony explores the behaviors and routines of communication within anonymous internet culture in Japan. Focusing on the video sharing website Niconico, social media aggregation sites, and the notorious 2channel message board, Daniel Johnson uncovers these sites' complex cultures of writing that obscure meaning through playful and opaque forms of deviant script and overwhelming waves of text. Those practices conflate language with images, meaning with play, and confound individual representation with aggregate forms of social identity. Johnson argues that online media cultures in and around Japan are entwined with a cultural logic and visual syntax of cacophony that expresses ambivalence toward representation, media form, and distinct experiences of time. This aesthetic of cacophony provides an alternative way of expressing social identity and belonging, with an unmarked sense of anonymity providing a counter-form to the dissolving institutions and relationships of neoliberal Japan. Textual Cacophony investigates what it means and feels like to participate in this influential online culture.
