Seeing Politics Sophie Harman,2019-07-04 Pushing the boundaries of how we do research, how we communicate research, and what counts as scholarship in world politics.

Crime and Corruption Killy Kandeu Chisale,2016-08-22 Newly emerging African democracies have let down the people of Africa, and have brought about untold misery and suffering. Most of Africa's social, economic, and security challenges have arisen due to the failure of political leaders to instill sanity and discipline in the government machinery. In fact, many join politics with the sole aim of accumulating riches in the shortest space of time. In the detective novel Crime and Corruption, a police inspector probes the deaths of a prominent businessman, his son, and some residents of Ndirande Township in the city Blantyre. What he finds leads to a cover-up by those he never would have suspected.

Social Entrepreneurship in the Greater China Region Yanto Chandra,Linda Wong,2016-03-31 This book offers the first exploration into the development of social enterprises in the Greater China region, consisting of Hong Kong, Macau, Taiwan and Mainland China. By drawing on the research and experience of over a dozen scholars and practitioners from across the area, it offers a picture of how a strong State can play an important role as a catalyst in developing the social entrepreneurship sector, particularly by legitimizing it. It delves into the role and impact of institutions and policy on the development of social enterprises, and explains how micro and macro factors might interact in influencing social entrepreneurship. Structured in two parts – policy and cases – it reveals the historical development of the Social enterprises sector in the Chinese context and then illustrates this using cases studies. Providing an alternative view of social entrepreneurship by highlighting the importance of context in this new sector, the book questions whether or not social entrepreneurship is preferable to more conventional models of development. Sparking new interest and offering fresh insight into social entrepreneurship in the Greater China region, this book will be useful to students and scholars of Chinese Studies, Business Studies and Sociology.

Sierra Six Mark Greaney,2022-08-09 It's been years since the Gray Man's first mission, but the trouble's just getting started in the latest entry in the #1 New York Times bestselling series. The Gray Man is on a simple mission when he sees a ghost: the long-dead terrorist, but he's remarkably energetic for a dead man. A decade of time hasn't changed the Gray Man. He isn't one to leave a job unfinished or a blood debt unpaid.

A Holiday Wish Kia Valcent,2021-11-30 As the holidays approach, Angelika Brunet dreads confessing the secret she's been suppressing from her 4-year-old son Henri, the past year, the death of his dad. On her way home from work one wintry evening, she's drawn to the special place where she and her late husband regularly visited whenever he came home, wishing to have a joyous Christmas, despite the tragedy that's transpired. Realizing a body was moving downstream, she without thinking jumps into the cold water to save what is revealed to be an unconscious young man, who later awakes at her home with a case of amnesia and the sole recollection that his name is Ren. For the holidays, Renaud Blanchard wished to get married to his girlfriend of a year on Christmas Day and start a family, what was to be a memorable night turns tragic when after proposing, he's knocked over Lover's Bridge, into the icy waters below. He later wakes up in the home of a widowed single mother, in an unfamiliar town, with no recollection of who he was. With no avail of finding out where he came from, he continues living with his savior for the holidays. How will things turn out for Ren and Angelika, when love & passions blossom, and his memories return?

Noah's Pit Stop Simon Young,2014-06-05 Professor Leif Hansen, a wealthy Danish botanist, builds a pioneer ecovillage for scientists to begin research into lichen that could one day produce oxygen on Mars for future space missions. NASA agrees to help with the project and finds a suitable location for his research in Namibia, South West Africa, where he and his fellow ecovillagers can research permaculture, eco-living, and getting back in touch with Mother Nature. Unknown to him a cabal founded by surviving Nazis are planning World War Three and some of their members plan to take it by force as a haven. As the nuclear holocaust threatens their existence, the villagers resort to extreme measures to defend their precious oasis in the desert that they have strived for years to build, while battling both local militia and mercenaries. But what if the green revolution isn't what we think it is?

Enchantment Guy Kawasaki,2012-12-31 Enchantment, as defined by bestselling business guru Guy Kawasaki, is not about manipulating people. It transforms situations and relationships. It converts hostility into civility and civility into affinity. It changes skeptics and cynics into believers and the undecided into the loyal. Enchantment can happen during a retail transaction, a high-level corporate negotiation, or a Facebook update. And when done right, it's more powerful than traditional persuasion, influence, or marketing techniques. Kawasaki argues that in business and personal interactions, your goal is not merely to get what you want but to bring about a voluntary, enduring, and delightful change in other people. By enlisting their own goals and desires, by being likable and trustworthy, and by framing a cause that others can embrace, you can change hearts, minds, and actions.

The Zimdancehall Revolution Tanaka Chidora,Doreen Rumbidzai Tivenga,Ezra Chitando,2023-12-09 Zimdancehall is a musical movement in Zimbabwe that has grown significantly since 2010. The Zimdancehall Revolution brings together critical essays on various aspects of Zimdancehall culture by scholars from diverse disciplines. Traditionally, music critics and senior academics have not taken Zimdancehall seriously, regarding it as vulgar, transient, bubble gum, lacking depth, and in short, a fad. There were also allegations that the lyrics influenced factionalism, incited violence and glorified drug use and unbridled promiscuity among the youth. This book affords this movement the protracted intellectual engagement that it deserves and argues that Zimdancehall is more than just a musical genre but an everyday culture, a way of life. The genre's close association with the ghetto is telling and enables critics to look at it as a social movement, a revolution, or a raw, petulant and raging disturbance of peace by those who live their lives on the margins. It is, thus, a violent irruption onto the public space by marginalised young people whose presence as artistes creating art from the margins, simultaneously as victims and agents, circulating in a geography that escapes the limits of nationalist ideological and physical territory, in a way subverts communitarian prescriptions and allows young people entry into the world, albeit in a painful, tumultuous and violent way. The essays range from the mapping of the genre's historical development to theoretical interventions in understanding the genre and its relationship with various aspects of the Zimbabwean society like politics, gender, religion, language, dance, cultural values and other genres.

Before I Forget Murray J. Harris,2019-03-22 Who would ever imagine that an eighteen-year-old who began his career teaching thirty-two eight-year-olds in a state school in an insignificant city in the remote South Pacific would end up on the world stage as the writer of definitive technical volumes in the field of biblical studies and as the only scholar from Australia/New Zealand on the Committee on Bible Translation that

produced the New International Version? This autobiography is the account of the surprising stages that led Murray Harris from his humble beginnings to ending his teaching career as a professor emeritus at a leading United States theological institution. These stages are here attributed to the gracious guiding hand of a God who delights in providing serendipities while achieving his purposes. All this is recorded with humor and with many photos and illustrations.

Wooden Glass: Tales From the City Volume II Didi Wamukoya,2021-03-23 “He had very short baby locks on his head and he accompanied this look with a scraggy beard. His crisp neat long-sleeved white formal shirt contrasted greatly with his hair. Furthermore, the shirt was so tight, that I feared it would tear at the seams as he continued waving enthusiastically. Around his neck, he wore a bow tie made of red and yellow Ankara fabric. His trousers were extremely skinny, and I couldn’t help but look at the crotch area and worry for his balls. He had no belt around his waist. His skinny trousers were also not what was generally accepted as the correct length for a man’s trousers. They reached way above his ankle, exposing sockless feet that disappeared into espadrille shoes made of the same red and yellow Ankara fabric as his bow tie.” In Volume II, join Didi as she continues meeting and interacting with interesting characters, in and out of the city. Wooden Glass was launched in 2014 as an entertainment blog on life in Nairobi. This book is an anthology of short stories from the entertainment blog, all of them fiction. Volume 11 contains the next 16 stories concerning lifestyle, culture and business in Nairobi. Some stories are funny, some thrilling and some reflective.

The Great Connecting Jim Cashel,2019-06-11 What happens when affordable broadband finally reaches the half of the planet that has little or no Internet access? Google, Facebook, SpaceX, and many others have major initiatives underway to connect the rest of the planet over the next few years. For the first time, even the poorest and most remote of global citizens will have access to information, communications, identity authentication, government programs, global philanthropy, online banking, telehealth, distance education, and other powerful services heretofore impossible. In The Great Connecting, Jim Cashel speaks with the major players driving the broadband revolution and travels to the most remote corners of the globe to consider the changes in our world about to take place — certainly one of the biggest events in human history. As Cashel explains, the expansion of broadband offers many challenges but will also bring a remarkable opportunity for the planet.
