Unika Dalam Wacana Publik: Gegara Pan(dem)ik: Terhimpit Untuk Melejit Benny D Setianto, Buku yang sedang anda baca ini juga merupakan bukti lain betapa civitas akademika Unika SOEGIJAPRANATA tidak pernah diam dalam keterbatasan yang ada melainkan justru kepanikan akan pandemik ini telah memunculkan semangat untuk semakin peduli dan terlibat dalam wacana publik. Dalam masa kurang dari 3,5 bulan atau sekitar 110 hari, tercatat lebih dari 50 artikel telah dibuat dan dimuat dalam berbagai media massa. Artinya hampir 2-3 hari sekali selalu muncul gagasan, pendapat dan ungkapan pemikiran yang dimuat dan bisa dibaca oleh publik. Tentu saja, bukan berarti Unika SOEGIJAPRANATA mengharapkan agar pandemic tidak berlalu sehingga bisa memaksa civitas akademika untuk tetap produktif menghasilkan karya, tetapi justru ini untuk menunjukkan semangat yang diwarisi dari nama yang digunakan oleh Lembaga ini. Civitas Akademika tidak boleh amem mlempem, tetapi justru harus bergerak aktif dan produktif pada saat yang lain sedang termangu-mangu oleh perubahan-perubahan dan keterpaksaan-keterpaksaan baru. Dalam himpitan pandemik Unika SOEGIJAPRANATA tetap harus melejit, bukan untuk meraih kejumawaan, tetapi justru karena panggilan untuk berbuat lebih. Ungkapan saudara kita Muslim, Fastabiqul Khairot, berlomba-lomba dalam kebaikan, sesuai dengan semangat penebusan Yesus, karena kita sudah merasakan Kasih Yesus yang begitu besar dalam hidup ini, maka saatnya membagikan kasih kepada sesama dengan

ilmu pengetahuan yang juga sudah dikaruniakan kepada kita.

Planning for Sustainable Urban Transport in Southeast Asia Dorina Pojani,2020-04-20 By now, planners everywhere know - more or less - what the ingredients of a sustainable city are, in theory. The problem is that only bits of solutions are being implemented in the cities that most need them, the majority of which are located in the Global South. This book examines issues related to policy transfer in urban transport planning in Southeast Asia. The metropolitan regions of four major capitals - Jakarta, Kuala Lumpur, Manila, and Bangkok - are considered. The book assesses the in-bound and out-bound transfer of sustainable transport planning policies, concepts, and tools. The investigation focuses on who transfers policy and why, what elements of policy are transferred, in what direction and to what degree, and what barriers does transfer face. It also discusses how policy transfer processes in the transportation planning arena can be improved.

Proyeksi Perbankan di Era Disrupsi Aprizal Yusril,2019-10-14 Selama ini, kajian atau penelitian tentang evaluasi lembaga perbankan nasional masih berfokus pada konteks manajerial. Jadi yang lebih sering dilirik ketika mengkaji dan meneliti aspek kinerja perbankan adalah hal-hal seperti kepuasan, efektivitas, efisiensi institusi perbankan dan nasabah. Padahal, ada hal yang lebih utama dan bisa dilihat lebih mendalam dan terkait antara BRI dan konsumen itu sendiri yaitu SDM. Pentingnya pendidikan dan pelatihan SDM perbankan sebagai daya dorong peningkatan efektivitas dan efisiensi institusi perbankan belum dilihat secara serius. Ke depan era disrupsi akan menjadi tantangan

tersendiri maka SDM harus menjadi pilar untuk mempersiapkan hal itu.

The Sumatra Railroad H. Hovinga, 2010-01-01 This is the gripping historical tragedy of the 220 km railroad that bored its way through the hot, humid Sumatran jungle during World War II. The railway was commissioned by Japan and built with the blood and tears of Allied prisoners of war and press-ganged Javanese romushas. Henk Hovinga interviewed nearly one hundred former railroad workers

and did painstaking archival research. The result is a moving book, richly illustrated with numerous authentic drawings of life in the internment camps, charts and photographs.

Partnership and Leadership T. de Bruijn,Arnold Tukker,2002-03-31 Similarly, leadership can be seen as an obstacle to sustainable development if leaders form close circles and are not willing to share experiences with other actors; but leadership could also be considered as an important element to keep concepts and practices forward. The book holds this double perspective: explaining, mapping and analyzing different goals/format/methods of more and less collaborative approaches, but at the same time taking a critical approach to the theme by understanding related risks, effects, prospects and corrective actions.

Decentralization of Forest Administration in Indonesia Christopher M. Barr,Ida Aju Pradnya Resosudarmo,Ahmad Dermawan,John McCarthy,Moira Moeliono,Bambang Setiono,2006-01-01 Since the collapse of Soeharto's New Order regime in May 1998, Indonesia's national, provincial, and district governments have engaged in an intense struggle over how authority and the power embedded in it, should be shared. How this ongoing struggle over authority in the forestry sector will ultimately play out is of considerable significance due to the important role that Indonesia's forests play in supporting rural livelihoods, generating economic revenues, and providing environmental services. This book examines the process of forestry sector decentralization that has occurred in post-Soeharto Indonesia, and assesses the implications of more recent efforts by the national government to recentralize administrative authority over forest resources. It aims to describe the dynamics of decentralization in the forestry sector, to document major changes that occurred as district governments assumed a greater role in administering forest resources, and to assess what the ongoing struggle among Indonesia's national, provincial, and district governments is likely to mean for forest sustainability, economic development at multiple levels, and rural livelihoods. Drawing from primary research conducted by numerous scientists both at CIFOR and its many Indonesian and international partner institutions since 2000, this book sketches the sectoral context for current governmental reforms by tracing forestry development and the changing structure of forest administration from Indonesia's independence in 1945 to the fall of Soeharto's New Order regime in

1998. The authors further examine the origins and scope of Indonesia's decentralization laws in order to describe the legal-regulatory framework within which decentralization has been implemented both at the macro-level and specifically within the forestry sector. This book also analyses the decentralization of Indonesia's fiscal system and describes the effects of the country's new fiscal balancing arrangements on revenue flows from the forestry sector, and describes the dynamics of district-level timber regimes following the adoption of Indonesia's decentralization laws. Finally, this book also examines the real and anticipated effects of decentralization on land tenure and livelihood security for communities living in and around forested areas, and summarizes major findings and options for possible interventions to strengthen the forestry reform efforts currently underway in Indonesia.

Public–Private Partnership Monitor: Indonesia Asian Development Bank,2020-12-01 This publication provides a snapshot of the overall public–private partnership (PPP) landscape in Indonesia. It includes more than 500 qualitative and quantitative indicators to profile the national PPP environment, the sector-specific PPP landscape (for eight identified infrastructure sectors), and the PPP landscape for local government projects. This downloadable guide also captures the critical macroeconomic and infrastructure sector indicators (including the Ease of Doing Business scores) from globally accepted sources. Through Presidential Regulation 38/2015, the cornerstone of the country's robust PPP enabling framework, Indonesia expects PPPs to continue playing a pivotal role to achieve its infrastructure investment target of \$429 billion for 2020–2024 and mobilize 59% of this value from the private sector.

Infrastructure for a Seamless Asia Asian Development Bank,2009 This study examines major challenges and issues associated with developing regional infrastructure through the fostering of regional cooperation in Asia, and provides a framework for pan-Asian infrastructure cooperation. The study's long-term vision is the creation of a seamless Asia (an integrated region connected by world-class, environmentally friendly infrastructure) in terms of both hard (physical) and soft (facilitating) infrastructure. The soft part supports the development and operation of the hard component. Findings indicate that the benefits of upgrading and extending Asia's infrastructure networks are substantial, and that all countries in the region would benefit. A logistics network is only as good as its weakest link; each country in a regional supply chain gains from infrastructure improvements made in others. Improving connectivity in the region would bring Asia large welfare gains through increased market access, reduced trade costs, and more efficient energy production and use. According to the study, to achieve this Asia needs to invest approximately \$8 trillion in overall national infrastructure between

2010 and 2020. In addition, Asia needs to spend approximately \$290 billion on specific regional infrastructure projects in transport and energy that are already in the pipeline
