Television Cartoon Shows Hal Erickson, 1995 In 1949 the first made-for-television cartoon series debuted on a major network. Tele-Comics embraced the popular cliffhanger serial genre, using nonmoving comic strip panels and a handful of radio actors to produce a show at a fraction of the cost accrued by a live show. Despite the success of Tele-Comics and a few other such shows, television cartoons languished until 1954 when Walt Disney produced Disneyland. From such pioneers as Tele-Comics and Crusader Rabbit to modern fare such as X-Men and Beavis and Butthead, this is the first reference book to detail animated cartoons made exclusively for television from 1949 through 1993. Each entry includes the shows title, network, studios and full production information when available. An essay blending plot description, critical commentary, and background information is also provided for each cartoon. A discussion of the voice artist concludes the work.

Entertainment Weekly • San Francisco Chronicle • Village Voice • Chicago Sun-Times • iO9 • The AV Club “Delightful . . . the grown-up’s Harry Potter.”—HuffPost “An addictive read . . . part intergalactic scavenger hunt, part romance, and all heart.”—CNN “A most excellent ride . . . Cline is that rare writer who can translate his own dorky enthusiasms into prose that’s both hilarious and compassionate.”—NPR “[A] fantastic page-turner . . . starts out like a simple bit of fun and winds up feeling like a rich and plausible picture of future friendships in a world not too distant from our own.”—iO9

**Mechademia 3** Frenchy Lunning, 2014-11-01 Dramatic advances in genetics, cloning, robotics, and nanotechnology have given rise to both hopes and fears about how technology might transform humanity. As the possibility of a posthuman future becomes increasingly likely, debates about how to interpret or shape this future abound. In Japan, anime and manga artists have for decades been imagining the contours of posthumanity, creating dazzling and sometimes disturbing works of art that envision a variety of human/nonhuman hybrids: biological/mechanical, human/animal, and human/monster. Anime and manga offer a constellation of posthuman prototypes whose hybrid natures require a shift in our perception of what it means to be human. Limits of the Human—the third volume in the Mechademia series—maps the terrain of posthumanity using manga and anime as guides and signposts to understand how to think about humanity’s new potentialities and limits. Through a wide range of texts—the folklore-inspired monsters that populate Mizuki Shigeru’s manga; Japan’s Gothic Lolita subculture; Tezuka Osamu’s original cyborg hero, Atom, and his manga

version of Fritz Lang's *Metropolis* (along with Ôtomo Katsuhiro's 2001 anime film adaptation); the robot anime, *Gundam*; and the notion of the uncanny in *Ghost in the Shell 2: Innocence*, among others—the essays in this volume reject simple human/nonhuman dichotomies and instead encourage a provocative rethinking of the definitions of humanity along entirely unexpected frontiers. Contributors: William L. Benzon, Lawrence Bird, Christopher Bolton, Steven T. Brown, Joshua Paul Dale, Michael Dylan Foster, Crispin Freeman, Marc Hairston, Paul Jackson, Thomas LaMarre, Antonia Levi, Margherita Long, Laura Miller, Hajime Nakatani, Susan Napier, Natsume Fusanosuke, Sharalyn Orbaugh, Ôtsuka Eiji, Adèle-Elise Prévost and MUSEbasement; Teri Silvio, Takayuki Tatsumi, Mark C. *Anime* Jonathan Clements, 2023-08-24 Japanese animation is at the nexus of an international multimedia industry worth over \$23.6 billion a year, linked to everything from manga to computer games, Pokémon and plushies. In this comprehensive guide, Jonathan Clements chronicles the production and reception history of the entire medium, from a handful of hobbyists in the 1910s to the Oscar-winning *Spirited Away* and beyond. Exploring the cultural and technological developments of the past century, Clements addresses how anime's history has been written by Japanese scholars, and covers previously neglected topics such as wartime instructional animation and work-for-hire for American clients. Founded on the testimonies of industry professionals, and drawing on a myriad of Japanese-language documents, memoirs and books, *Anime: A History* illuminates the anime business from the inside – investigating its innovators, its unsung heroes and its controversies. This new edition has been updated and revised throughout, with full colour illustrations and three new

chapters on anime's fortunes among Chinese audiences and subcontractors, 21st century trends in 'otaku economics', and the huge transformations brought about by the rise of global streaming technology.

### **Apocalypse in Contemporary Japanese Science**

**Fiction** M. Tanaka, 2014-01-29 Starting with the history of apocalyptic tradition in the West and focusing on modern Japanese apocalyptic science fiction in manga, anime, and novels, Motoko Tanaka shows how science fiction reflected and coped with the devastation in Japanese national identity after 1945.

### **Rediscovering French Science-Fiction in**

**Literature, Film and Comics** Philippe

Mather, Sylvain Rheault, 2016-02-29 French science-fiction (SF) is as old as the French language. Cyrano de Bergerac wrote about a trip to the moon that was published back in 1657, as did Jules Verne in 1865, this time using hard, scientific facts. The first movie showing a trip to the moon was made by Georges Méliès in 1902. In the comics' format, Hergé had Tintin walk on the moon in 1954, 15 years before Neil Armstrong. These are just a few of the many unique French contributions to SF that rightly deserve to be better known. One of the purposes of this collection is to introduce French SF to an English-speaking audience. Rediscovering French Science Fiction... first revisits proto science-fiction from authors like Cyrano de Bergerac and Jules Verne, before delving into contemporary science-fiction works from authors such as René Barjavel and Jacques Spitz. A contribution from preeminent SF author Élisabeth Vonarburg, from Québec, helps to understand the constraints and advantages of writing SF in French. A third section is devoted to French SF in movies and graphic novels, media where French creators have been recognized worldwide. This collection explores many aspects of French SF,

including the genre's deep roots in popular culture, the influence of key authors on its historical development, and the form and function of science and fantasy, as well as the impact of films and graphic novels on the public perception of the genre's nature.

*Gods and Robots* Adrienne Mayor, 2020-04-21 Traces the story of how ancient cultures envisioned artificial life, automata, self-moving devices and human enhancements, sharing insights into how the mythologies of the past related to and shaped ancient machine innovations.

*Bowker's Complete Video Directory*, 1996

Locating Science Fiction Andrew Milner, 2012 In *Locating Science Fiction*, Andrew Milner looks at science fiction within the context of a host of other genres—including fantasy, romance, and the thriller—and explores the historical and geographic contexts of science fiction's emergence and development. Bringing in Raymond Williams's cultural materialism, Pierre Bourdieu's sociology of culture, and Franco Moretti's application of world systems to literary studies, he offers a persuasive, synthetic, and ultimately new mode of science fiction analysis that will become essential reading.

*No Place For Heroes* Laura Restrepo, 2010-07-20 From one of the most accomplished writers to emerge from Latin America, *No Place for Heroes* is a darkly comic novel about a mother and son who return to Buenos Aires in search of her former lover, whom she met during Argentina's Dirty War. During Argentina's "Dirty War" of the late '70s and early '80s, Lorenza and Ramon, two passionate militants opposing Videla's dictatorship, met and fell in love. Now, Lorenza and her son, Mateo, have come to Buenos Aires to find Ramon, Mateo's father. Holed up in the same hotel room, mother and son share a common goal, yet are worlds apart on how they perceive it. For Lorenza, who came of age in the political ferment of the '60s, it is intertwined with her past ideological and emotional anchors (or were they illusions?), while her postmodernist son, a child of the '90s who couldn't care less about politics or ideology, is looking for his actual father--not the idea of a

father, but the Ramon of flesh and blood. Anything goes as this volatile pair battle it out: hilarious misunderstandings, unsettling cruelty, and even a temptation to murder. In the end, they begin to come to a more truthful understanding of each other and their human condition. No Place for Heroes is an addition to that long tradition of the eternal odd couple—in works ranging from Waiting for Godot to Kiss of the Spider Woman—waiting for their fortunes to change, written by one of the most talented and internationally celebrated authors at work today.

*Sugar, Spice, and Everything Nice* Frances K. Gateward, Murray Pomerance, 2002 From the Wizard of Oz to Lolita, from the Heathers to the Spice Girls, images of girlhood have been projected on the silver screen in myriad ways. Whether a girl is taught that there is no place like home or is seeking adventure on her own terms, whether she is a seductress or a nerd, a babysitter or a murderer, films have depicted society's problematic expectations of girls together with the dreams, anxieties, and tensions experience by girls themselves. In examining the construction of girlhood from many angles, this collection of essays not only captures the richness of meaning behind girl films, but also explores the recent resurgence of youth-oriented cinema and the relationship of young female viewers to that medium. The twenty essays approach to the construction of girlhood from a variety of perspectives, including reception, production, star images, and textual analyses, while exploring such topics as star power, the Riot Grrrl movement, coming of age, and loss of innocence. Among the characters given special attention are those in Gidget, Crooklyn, Titanic, Freeway and Girls Town. Written for general and academic readers, this work offers a lively, unprecedented discussion of gender in youth-oriented films.

**Zelda** Nicolas Courcier, Mehdi El

Kanafi, 2019-02-19 A collector's book to learn more about the world of one of the most legendary video games! To celebrate the 30th anniversary of The Legend of Zelda, Third Editions wanted to pay respect to this legendary saga, one of the most prestigious in the gaming world. This work chronicles every game of the series, from the first episode to the latest Hyrule Warriors on 3DS, deciphering the whole universe using deep analysis and reflection. Dive into this unique publication, presented as an ancient tome, which will allow adventure fans to finally (re)discover the amazing Legend of Zelda. Immerse yourself in this unique collection, presented in the form of an old grimoire, which will delight all adventure lovers to finally discover the fabulous legend of Zelda! EXTRACT In the kingdom of Hyrule, a legend has been passed down since the beginning of time: A mysterious artifact known as the Triforce, symbolized by three golden triangles arranged to form a fourth triangle, is said to possess mystical powers. It is hardly surprising that this object has been coveted by many power-hungry men over the centuries. One day, the evil Ganon, the Prince of Darkness whose ambition is to subjugate the entire world to his will, sends his armies to attack the peaceful kingdom. He manages to capture one of the fragments of the Triforce, the triangle of power. Daughter of the king of Hyrule, Princess Zelda is terrified at the prospect of seeing Ganon's armies swarming over the world. She, too, seizes a fragment of the Triforce, the triangle of wisdom, and chooses to break it into eight pieces, which she then scatters across the world, hiding them to prevent Ganon from ever acquiring them. She then orders her faithful nursemaid Impa to go forth and seek a warrior brave enough to challenge Ganon. As Impa roams the kingdom of Hyrule in the hope of finding a savior, Ganon learns of Zelda's

plans and has her locked up before sending his men to track down the nursemaid. Surrounded by these ruthless creatures, Impa is saved by a young boy named Link at the very moment when it appears that all is lost. As unbelievable as it may seem, Link has been chosen by the golden triangle of courage, and thus holds a part of the Triforce himself. Convinced that she has finally found the one who will save the kingdom, Impa hurries to tell him her story. Link accepts his mission to rescue Zelda without hesitation. Before confronting Ganon, however, he will have to gather the eight fragments of the triangle of wisdom, which are his only hope of gaining entry to the dungeon deep beneath Death Mountain where the Prince of Darkness hides. His quest has only just begun.

ABOUT THE AUTHORS Nicolas Courcier and Mehdi El Kanafi - Fascinated by print media since childhood, Nicolas Courcier and Mehdi El Kanafi wasted no time in launching their first magazine, Console Syndrome, in 2004. After five issues with distribution limited to the Toulouse region of France, they decided to found a publishing house under the same name. One year later, their small business was acquired by another leading publisher of works about video games. In their four years in the world of publishing, Nicolas and Mehdi published more than twenty works on major video game series, and wrote several of those works themselves: Metal Gear Solid. Hideo Kojima's Magnum Opus, Resident Evil Of Zombies and Men, and The Legend of Final Fantasy VII and IX. Since 2015, they have continued their editorial focus on analyzing major video game series at a new publishing house that they founded together:

**Global Entertainment Media** Anne Cooper-Chen, 2006-04-21 Global Entertainment Media offers a unique perspective on entertainment media worldwide. As one of the first comprehensive books

to address entertainment mass media worldwide, it addresses students as TV watchers and takes them to new places, both geographically and intellectually. Editor Anne Cooper-Chen has gathered an international group of scholars to explore such concepts as psychology, gratifications, and effects of media entertainment and its relation to national cultures, as well as to discuss the business of international TV trade by transnational media corporations. In this volume, experts discuss the content, audiences, and cultural and legal aspects of their respective countries, all of which are major TV markets. The country-specific chapters draw on the individual insights, expertise, and currency of 10 resident authors. Contributions represent every hemisphere of the globe, offering detailed examinations of media entertainment in United Kingdom, Germany, Egypt, Nigeria, South Africa, India, Japan, China, Brazil, and Mexico. The two concluding chapters provide cross-national case studies that look at familiar TV experiences--The Olympics and the Who Wants to Be a Millionaire show--in global and novel ways. Global Entertainment Media is intended for students in international media, comparative media, cross-cultural communication, and television studies, and it also has much to offer scholars and researchers in entertainment media.
