At 16, he becomes involved in a murder that occurred forty years before his birth. Steven, in his late fifties, and Jason have a connection that neither of them become aware of until Jason finds his life interconnects with the death of Stevens young brother. Jason struggles to use his gift to assist in locating loved ones, killers, and others. Jason weeps as a young boy tells of being buried alive at an orphanage. A serial killer targeting young men kills for love. The Soviet Union orders the murder of a young college student, and two high school boys kill themselves when the fear of discovery forces them to make a rash decision. Yoga of Light Pauline Wills,2019-08-06 Move into a fifth-dimensional way of living by engaging the energy lines between the chakras that form energetic triangles of light • Includes illustrated, step-by-step instructions for yoga asanas with explanations of the triangles of light created by each as well as their specific health benefits • Explains how the triangles of light energize the body, wake up our cells, and connect us to our own inner light • Introduces the 10 major and 21 minor chakras that form the triangles of light • Paper with French flaps We are all beings of light. Our bodies are pervaded and rejuvenated by energy lines between our major and minor chakras. When we practice yoga asanas (postures), these energy lines create triangles of light that connect us to universal light and energy. Focusing on them and feeling them during yoga practice can raise our vibrational frequency and help us move toward yoga's eighth step--the state of enlightenment. Drawing on yoga's original teachings, Yoga of Light reveals how to awaken and energize the chakra triangles of light with the practice of asanas, breathing, visualization, and meditation. Exploring the universal web of light and our place within it, as well as the body's electromagnetic field, or aura, yoga expert Pauline Wills provides a concise introduction to the ten major and twenty-one minor chakras instrumental in forming the yoga triangles of light. You will discover how visualizing and, eventually, feeling these triangles as you practice the postures energizes the body, allowing you to connect to your own inner light. This wakes up all cells in the body and imbues them with increased energy. The triangles also firmly connect us to the sacred geometry of the universe, aligning us with the greater cosmos. The author includes an illustrated, step-by-step guide to the asanas, detailing how to perform them correctly, and clearly explains and depicts the triangles of light formed within each posture and their specific health benefits. She also includes a series of exercises and breathing techniques to affect and increase control of prana, the life force within the body, as well as simple exercises, warm-up movements, meditations, and visualizations to help familiarize yourself with the major chakras instrumental in forming the triangles of light. Yoga of Light reveals how, by working with the triangles of light, we can each become more aware of our connection to the web of light and the greater universe. This book, for beginners and advanced practitioners alike, shows how anyone can increase the benefits of their yoga practice by engaging and energizing the triangles of light.

Teachings from the Sacred Triangle David K. Miller,2002-01-01 Three forces must come together for a planetary healing to occur ... The concept of

the Sacred Triangle was introduced in David Miller's first book, *Connecting with the Arcturians*, which explored the fifth dimension and our relationship to higher Extraterrestrial groups. This new book explains how the Arcturian energy melds with that of the White Brother/Sisterhood and the Ascended Native American Masters to bring about planetary healing. David offers the reader an understanding of the soul, the nature of soul evolution, and how the human species is advancing towards the next evolutionary step. There will be many of you in this time who will be able to complete fantastic tasks. If I would declare to you what I see, you would be astonished that you could possibly carry out such tasks. You must think that you have the ability to do this. You have the personal power. I ask you to look at the Sacred Triangle and see what role you can play in this. Others will be very interested when you explain this mission. I guarantee you there will be a very strong contingent that will ascend together as we are invited to join you in the Crystal Temple. We are very eager to meet you there as well. This is Chief White Eagle.

The Secret Triangle Rebecca Lynne,2011-10-18 Get ready for surprises! Discover the foundation of creation and the blueprint of our universe. Author Rebecca Lynne explains it with a blend of scientific theories and the symbolic language of Genesis. Amazingly, quantum physics, holograms, DNA structure, and sound power are found in a story of epic proportions, with you in the center. Genesis is simple physics! Could your body be a hologram? Are you involved in a quantum jump? This interpretation removes all separation between God and man and among all religions and nations; it solves the mystery of all mysteries—that of life and death. The reason for evolution and the means by which it proceeds is made clear. The impact of Jesus Christ is defined from a scientific viewpoint that broadens his true mission. Lynne offers an alternative to traditional biblical thought and intertwines her personal story of how the Secret Triangle was revealed to her and changed her life's purpose. A teacher of metaphysics for over forty years and an ordained minister in the Unity Movement, Rebecca Lynne is now in her eighties but still going strong. She now lives in Baltimore, Maryland.
