**City Sketching Reimagined** Jeanette Barnes,Paul Brandford,2022-04-07 Acclaimed Royal Academy artist Jeanette Barnes and Paul Brandford breathe new life into sketching for town and city dwellers everywhere. Mercurial, inspirational, practical and charming, this guide covers everything from architecture to accidental paintings, cocktails to clouds, smudges to skyscrapers. With easily digested bite-size entries, it introduces many types of art materials, their uses and a number of insights and exercises to build confidence in a range of approaches to drawing. For the more experienced sketcher, the artists discuss the processes behind drawing and strategies to inject more creativity and open-mindedness about how to take a drawing forward. With great charm, the book gives a window onto the experiences of Jeanette, who has travelled to many cities worldwide in search of inspiring city subjects and a half-decent cocktail. Full of tips and ideas about working on location and back in the studio, this book is filled with the scribbles, sketches and preparatory

drawings that feed into the larger works for which she is known. As a whole, the book is a multipurpose tool which can be used to unlock the potential of drawing both technically and philosophically so that the reader can be the architect of their own drawing experience rather than the recipient of someone else's. After thirty years of drawing, many of them teaching, the authors still feel an excitement when picking up a pencil or some charcoal. This book gives every reader the chance to share that excitement and bring urban living to life.

*Derelict London: All New Edition* Paul Talling, 2019-07-11 \_\_\_\_\_ The huge word-of-mouth bestseller – completely updated for 2019 THE LONDON THAT TOURISTS DON'T SEE Look beyond Big Ben and past the skyscrapers of the Square Mile, and you will find another London. This is the land of long-forgotten tube stations, burnt-out mansions and gently decaying factories. Welcome to DERELICT LONDON: a realm whose secrets are all around us, visible to anyone who cares to look . . . Paul Talling – our best-loved investigator of London's underbelly – has spent over fifteen years uncovering the stories of this hidden world. Now, he brings together 100 of his favourite abandoned places from across the capital: many of them more magnificent, more beautiful and more evocative than you can imagine. Covering everything from the overgrown stands of Leyton Stadium to the windswept alleys of the Aylesbury Estate, DERELICT LONDON reveals a side of the city you never knew existed. It will change the way you see London.

\_\_\_\_\_ PRAISE FOR THE DERELICT LONDON PROJECT 'Fascinating images showing some of London's eeriest derelict sites show another side to the busy, built-up capital.' Daily Mail 'Talling has managed to show another side to the capital, one of abandoned buildings that somehow retain a sense of beauty.' Metro 'Excellent . . . As much as it is an inadvertent vision of how London might look after a catastrophe, DERELICT LONDON is valuable as a document of the

one going on right in front of us.' New Statesman 'From the iconic empty shell of Battersea Power Station to the buried 'ghost' stations of the London Underground, the city is peppered with decaying buildings. Paul Talling knows these places better than anyone in the capital.' Daily Express '[London has an] unusual (and deplorable) number of abandoned buildings. Paul Talling's surprise bestseller, DERELICT LONDON, is their shabby Pevsner.' Daily Telegraph \_\_\_\_\_

My Kind of City Hank Dittmar, 2019-08-20 Hank lived by the credo, 'first listen, then design'. -- Scott Bernstein, Founder and Chief Strategy + Innovation Officer, Center for Neighborhood Technology Hank Dittmar was a globally recognized urban planner, advocate, and policy advisor. He wrote extensively on a wide range of topics, including architectural criticism, community planning, and transportation policy over his long and storied career. In My Kind of City, Dittmar has organized his selected writings into ten sections with original introductions. His observations range on scale from local (My Favorite Street: Seven Dials, Covent Garden, London) to national (Post Truth Architecture in the Age of Trump) and global (Architects are Critical to Adapting our Cities to Climate Change). Andrés Duany writes of Hank in the book foreword, He has continued to search for ways to engage place, community and history in order to avoid the tempting formalism of plans. The range of topics covered in My Kind of City reflects the breadth of Dittmar's experience in working for better cities for people. Common themes emerge in the engaging prose including Dittmar's belief that improving our cities should not be left to the experts; his appreciation for the beautiful and the messy; and his rare combination of deep expertise and modesty. As Lynn Richards, CEO of Congress for the New Urbanism expresses in the preface, Hank's writing is smart without being elitist, witty and poetic, succinct and often surprising. My Kind of City captures a visionary planner's spirit, eye for beauty, and love for the places where we live.

**Wild Pets** Amber Medland, 2021-06-29 'Smart and funny... Wild Pets is an instant set text of the emerging canon of millennial fiction.' Guardian 'A wickedly funny and emotionally complex novel.' Jenny Offill, author of *Weather* and *Dept. of Speculation* 'An impressive, cumulatively powerful first outing.' Daily Mail 'A ripe and excellent debut... funny and smart and human and true.' Andrew O'Hagan, author of *Mayflies* Wild Pets follows Iris, Ezra and Nance in the years after university. They fall in and out of bed with each other, reread *The Art of War*, grieve the closing of Fabric and write book proposals on the history of salt, while submerging their nights in drink and drugs. Confronting adulthood with high wit and low behaviour against contemporary political and social turmoil, these young men and women seem to have everything going for them. So why are they still swimming desperately against the tide? A bold, honest novel, Wild Pets is about the fragility of mental health, power imbalances in friendship and sex, and creative ambition fused with destruction - and the lingering power of first loves.

**The Maze** Kendra Wilson, Angus Hyland, 2018-09-25 Mazes have been a part of civilization for at least 4,000 years, and there are more being built now than ever before. What is it about these magical life-size puzzles that continues to intrigue us? The idea of the maze taps into so many subconscious notions: the game, the quest, the spiritual journey. Perhaps this is the key to their enduring appeal. This beautifully illustrated book will delight lovers of mazes, acting as a guide, directory, and puzzle book combined. Specially commissioned illustrations by Thibaud Hérem represent 60 real and imagined mazes from around the world, with a bird's eye view of each maze so that readers can make their own journey. Each maze is also accompanied by a fascinating and witty short history.

London's Lost Rivers Paul Talling,2020-04-02 Packed with surprising and fascinating information, London's Lost Rivers uncovers a very different side to London - showing how waterways shaped our principal city and exploring the legacy they leave today. With individual maps to show the course of each river and over 100 colour photographs, it's essential browsing for any Londoner and the perfect gift for anyone who loves exploring the past... 'An amazing book' -- BBC Radio London 'Talling's highly visual, fact-packed, waffle-free account is the freshest take we've yet seen. A must-buy for anyone who enjoys the hidden side of London -- Londonist 'A fascinating and stylish guide to exploring the capital's forgotten brooks, waterways, canals and ditches ... it's a terrific book' - Walk 'Pocket-sized, beautifully designed, illustrated and informative - in short a joy to read, handle and use' -- \*\*\*\*\* Reader review 'Delightful, informative and beautifully produced' -- \*\*\*\*\* Reader review 'A small gem. A really great book. I can't put it down' -- \*\*\*\*\* Reader review 'Fascinating from start to finish' -- \*\*\*\*\* Reader review

\*\*\*\*\* From the sources of the Fleet in Hampstead's ponds to the mouth of the Effra in Vauxhall, via the meander of the Westbourne through 'Knight's Bridge' and the Tyburn's curve along Marylebone Lane, London's Lost Rivers unearths the hidden waterways that flow beneath the streets of the capital. Paul Talling investigates how these rivers shaped the city - forming borough boundaries and transport networks, fashionable spas and stagnant slums - and how they all eventually gave way to

railways, roads and sewers. Armed with his camera, he traces their routes and reveals their often overlooked remains: riverside pubs on the Old Kent Road, healing wells in King's Cross, 'stink pipes' in Hammersmith and gurgling gutters on streets across the city. Packed with maps and over 100 colour photographs, London's Lost Rivers uncovers the watery history of the city's most famous sights, bringing to life the very different London that lies beneath our feet.

**Performance Drawing** Maryclare Foá, Jane Grisewood, Birgitta Hosea, Carali McCall, 2020-09-03  
What is 'performance drawing'? When does a drawing turn into a performance? Is the act of drawing in itself a performative process, whether a viewer is present or not? Through conversation, interviews and essays, the authors illuminate these questions, and what it might mean to perform, and what it might mean to draw, in a diverse and expressive contemporary practice since 1945. The term 'performance drawing' first appeared in the subtitle of Catherine de Zegher's Drawing Papers 20: Performance Drawings, in particular with reference to Alison Knowles and Elena del Rivero. In this book, it is used as a trope, and a thread of thinking, to describe a process dedicated to broadening the field of drawing through resourceful practices and cross-disciplinary influence. Featuring a wide range of international artists, this book presents pioneering practitioners, alongside current and emerging artists. The combination of experiences and disciplines in the expanded field has established a vibrant art movement that has been progressively burgeoning in the last few years. The Introduction contextualises the background and identifies contemporary approaches to performance drawing. As a way to embrace the different voices and various lenses in producing this book, the authors combine individual perspectives and critical methodology in the five chapters. While embedded in ephemerality and immediacy, the themes encompass body and energy, time and motion, light and space, imagined and observed, demonstrating how drawing can

act as a performative tool. The dynamic interaction leads to a collective understanding of the term, performance drawing, and addresses the key developments and future directions of this applied drawing process.

Collective and Collaborative Drawing in Contemporary Practice Helen Gørrill, Jill Journeaux, 2018-01-23 Whilst both collective and collaborative drawing is being widely explored internationally, both within and beyond educational institutions, there is surprisingly little serious research published on the topic. This realisation led to the first international Drawing Conversations Symposium, accompanied by the Drawn Conversations Exhibition at Coventry University, UK, in December 2015. The two events drew a strong and global response, and brought together a wide range of participants, including academics, artists, researchers, designers, architects and doctoral

students. This book considers what happens, and how, when people draw together either in the form of a collaboration, or through a collective process. The contributions here serve to establish the field of collective and collaborative drawing as distinct from the types of drawing undertaken by artists, designers, and architects within a professional context. The volume covers conversations through the act of drawing, collaborative drawing, drawing communities, and alternative drawing collaborations.

**This Other London: Adventures in the Overlooked City** John Rogers, 2014-04-22 Join John Rogers as he ventures out into an uncharted London like a redbrick Indiana Jones in search of the lost meaning of our metropolitan existence. Nursing two reluctant knees and a can of Stella, he perambulates through the seasons seeking adventure in our city's remote and forgotten reaches.

**Seashaken Houses** Tom Nancollas, 2019-08 Lighthouses are striking totems of our relationship to the sea. For many, they encapsulate a romantic vision of solitary homes amongst the waves, but their original purpose was much more utilitarian than that. Today we still depend upon their guiding lights for the safe passage of ships. Nowhere is this truer than in the rock lighthouses of Great Britain and Ireland which form a ring of twenty towers built between 1811 and 1904, so-called because they were constructed on desolate rock formations in the middle of the sea, and made of granite to withstand the power of its waves. *Seashaken Houses* is a lyrical exploration of these singular towers, the people who risked their lives building and rebuilding them, those that inhabited their circular rooms, and the ways in which we value emblems of our history in a changing world.
