MAKING Wise History Fanny Magnificat,2015-06-29 The poet is given the gift of speech, the gift of never ending words. These words flow for as long as we will to let Poetry unveil herself. What words do I speak? What words will I give birth to? Will my words become flesh? Will my words heal? Will my words stand? Will they make wise history?

Trinity Minds 1317-1945 Philip Allott,2020 I. Foundation. II. Reformation. III. Revolution. IV. Renaissance. V. The Past of the Future. ____ There they go, our brothers who have been educated at public schools and universities, mounting those steps, passing in and out of those doors, ascending their pulpits, preaching, teaching, administering justice, practising medicine, transacting business, making money. It is a solemn sight always – a procession, like a caravanserai crossing a desert. Great-grandfather, grandfathers, fathers, uncles – they all went their way, wearing their gowns, wearing their wigs, some with ribbons across their breasts, others without. Virginia Woolf, *Three Guineas* (1938), in one of her powerful assaults on the place of women in British society and their absence from the official ruling class. The next generation – there will be a next generation, in spite of this war and whatever it brings. Have we time for a rapid glance, for a hurried guess at the next generation? The next generation will be, when peace comes, a post-war generation too. Must it be a leaning tower generation – an oblique, sidelong, squinting, self-conscious generation with a foot in two worlds? Or will there be no more towers and no more classes and shall we stand, without hedges between us, on the common ground?

TRINITY Jacques Vallée,Paola Leopizzi Harris,2021-05-07 Hard evidence has existed since 1945 for the actual recovery of unidentified flying craft in the United States, according to a new research book, *TRINITY: The Best-Kept Secret* written by two seasoned analysts of the global patterns behind the UFO phenomenon. Italian investigative journalist Paola Leopizzi Harris and French-born information scientist Dr. Jacques F. Vallée have teamed up to uncover the details of a New Mexico crash in 1945, fully two years before the well-known incident at Roswell and the famous sighting by pilot Kenneth Arnold in 1947. Over several site investigation surveys Harris and Vallée reconstructed the historic observations by three witnesses, two of whom are still living, who described to them the circumstances of the crash, with details of the recovery of a nearly-intact flying vehicle and its occupants by an Army detachment. Combining their long experience in field research around the world, the authors have documented the step-by-step efforts by the military to remove the object, an avocado-shaped craft weighting several tons, from the property where it crash-landed during a storm. Surprisingly, the literature of the field only includes a few passing mentions about the case, and only one (foreign) TV documentary has mentioned it, but the correlation between the crash of the extraordinary object and the explosion of the first atom bomb at White Sands, less than 20 miles away, has been missed. Harris and Vallée suggest that the correlation is significant for physical, geographic and biological reasons, quite apart from the obvious strategic implications. The witnesses were able to observe not only the actual crash of the object on their property but every step of the military efforts to lift it and take it away. Fearing retaliation, they remained silent for some 60 years about what they had seen and done over those nine days at the site while the recovery was proceeding. When placed in the context of the history of chemical and physical analysis of retrieved UFO debris--an area where Harris and Vallée have long collaborated--the devices observed by the witnesses raise a number of very important scientific questions. The Honorable Paul Hellyer, former Minister of National Defence of Canada, has stated: Paola Harris and Jacques Vallée have spent much effort doing field research on location (...) It is now time that their discovery be revealed to the world.

Abraham The Trinity And Lot Exonerated Genesis 18 & 19: Abraham and the Trinity and Lot Exonerated Terry Lee Miller,2019-12-20 For centuries the Christian church has overlooked irrefutable proof of the Trinity as found in the Old Testament. Sadly mostly due

to weak translations of Genesis 18, and skewed interpretations from theologians. Also, Lot has been falsely accused of being a compromising backslider. Read this book to see the truth in Genesis 18 & 19.

Soul Revolution - Trinity of Humanity Dr. Shmuel Asher, 2019-04-05 Where the Land of MEAT & Honey proved religions falsities, opened long-hidden truths and taught how to make the much needed physical and soul return trip to our Creator; SOUL Revolution combines new and amazing findings from our modern sciences with our many ancient stories, myths, and superstition narratives, and weaves the many parallels between them. Finally reconciling both the ancient and modern back together to provide a panoramic view

of WHO our souls truly are; WHERE we are; WHY we are truly here within this physical existence; WHAT this physical existence actually is; WHO it is that has and continues to control us physically and spiritually by their evil stream of consciousness, and HOW they thwart our souls return back to our true Creator!

Which Winegrape Varieties are Grown Where? Kym Anderson,Nanda R.

Aryal,2013-12-13 In an increasingly interconnected world wine market, evolving consumer demands, technologies, and climate have all contributed to large shifts in global patterns of production and consumption of wine. These shifting patterns of wine production and consumption have entailed changes in the vineyard in terms of total area planted, production practices, and the mix of grape varieties grown. In this book, for the first time, we have a detailed empirical picture, country by country and region by region within countries, of which varieties of grapes have been grown where, and how those varietal choices have changed over time. This statistical compendium will be directly useful for anyone interested in knowing about and understanding the changing patterns of production of wine and wine grapes around the world. It also will serve as an invaluable resource for economists and others who seek to analyze those patterns and their causes.

The Letters of A. E. Housman Alfred Edward Housman,2007-03-29 The Letters of A. E. Housman is a scholarly edition of over 2200 letters. (The previous edition, edited by Henry Maas, contained just over 880.) The letters cover the whole range of Housman's daily activities, whether he writes as poet, Professor of Latin, son, brother, uncle, friend, or citizen. Thus they allow the fullest possible revelation of a man whose reserve was legendary. He emerges as a more amiable, more sociable, more generous, more painstaking, and more complex person than has previously been realized. In most cases the source of the text is a manuscript, and this has resulted in a text that is more accurate and more complete than any previously available. Accompanying the text are notes covering persons and places, poetry, classical scholarship, publishing history, and literary allusion and echo.

Dark Iron King I Lee Bond,2015-01-16 Other than a delicious root beer float and access to proper pizza, all Garth 'Nickels' N'Chalez wants is to see the creation of reality 2.0 happen. He already knows it's going to be bloody, rough and extremely trying, but when you sign up to be the Engineer of that new birth, you have very few choices regarding how it goes down. And when you've got the ancient, venerable and godlike Kith Antal leading an army of unstoppable Harmony soldiers coming at you with the express purposes of being the Victor.... You just can't help but feel it's gonna be even worse. But before Garth can even think about dealing with dear old dad, he's got to get inside Arcade City and deal with the so-called mad Goth king Blake. No one really knows what's under the gigantic clockwork dome that's lasted for thirty thousand years and Garth -not for a lack of trying to get proper Intel- finds himself doing what he does best. Which is basically charging in without thinking to see what happens next; forced to kill an innocent man in order to be sentenced to Arcade City for crimes against a King's Son, Garth's only information concerning the Domed, ancient city is that it is thirty thousand years old and filled to the brim with madness and chaos. The moment our hero steps through the Geared Doors leading into the fabled and storied Arcade City, Garth finds himself in -as usual- so far in over his head that his only choice is to push forward, ever forward. Inflicted with a terrible case of nanotech derived-Kingsblood poisoning, assaulted by fear, hunted by Gearmen,

surrounded by hideously mutated gearheads and wardogs, saddled with an itinerant –and crankier than thou- blacksmith named Barnabas and balked at every turn, Garth begins the trek to Arcadia, wherein the Dark Iron King waits. Along the way, he and his reluctant companion seek to find a cure for Garth's maladies, all while skirting dark resurgences of that thing the Engineer fears more than anything: Specter. Outside The Dome, the war for Trinity and It's Armies does not go well; led by SpecSer Commander Aleksander Politoyov, his forces cannot get through the systemic shield created by Huey, and so he turns his attentions outwards. Employing the resourceful –and uncannily insightful- Tendreel Salingh to discover Garth N'Chalez' true plans, Aleksander unwittingly sets into motion a series of events that will spiral wildly out of control. Herrig, now Chairman of the renamed Latelyspace Commonwealth, is assaulted on all sides. When Garth escaped the confines of Hospitalis aboard Bravo, the shield protecting Latelyspace from invasion dropped just long enough for him to escape, but also for a handful of Trinity's forces to sneak in. His system is plagued by Heavy Elites, Specter Techs, and regular Army, and the original Horsemen are chomping at the bit to rain wrack and ruin upon everyone and everything that stands in their way. All this and more awaits. The Unreal Universe gears up for the end and everything is quite literally going to Hell in a hand basket. Will Garth survive Arcade City? Against the mighty Dark Iron King and his even mightier King's Will ... well. Garth will need to bring his 'A' Game... Won't he just?

Citizen Pariah Lee Bond, 2015-01-16 This is it. This is everything Garth Nickels has worked for since landing on Hospitalis. The Box is ... The Box is within his grasp at long last. Gametime, the penultimate showdown between champions looms in the distance. There's just a few problems. Of course there are problems. Naoko Kamagana has been kidnapped by Jordan Bishop and cannot be found. Chadsik al-Taryin has decided to forego all artistic sentiment in favor of murdering Garth Nickels so he can return to Ground Zero, his happy, twisted home of fiends and the fiendish. Kant Ingrams has landed on Hospitalis to discharge his duty to Trinity Itself and is ... is not right. Griffin Jones, Enforcer and Kin'kithal Warrior is desperate to free himself from Trinity's embrace and is willing to do anything to be the one at the top of the heap. Sa Gurant, last Game's victor is ... different. More. Deadlier and infinitely more dangerous than anything in the known Universe. Chairwoman Alyssa Doans has lost her mind and will do whatever it takes to ensure that Garth 'Nickels' N'Chalez doesn't make it out of the ring alive, up to and including dropping missiles on Port City. The beings seeking to attend to Garth Nickels arrive at Hospitalis, bringing with them myths and legends. But ... but that ain't a lot for a guy like Garth to handle, is it? There's just one problem. Garth is powerless. The events of The Museum and Bravo's interference have rendered him virtually human and our faithful hero takes steps to ensure that he survives to enter that most ancient vessel, to find out why he and his slept thirty thousand years. What answers lie inside Bravo? What reasons could push a man to catapult himself thirty thousand years into the future? Only time, perseverance and a whole lotta luck and help from long-missing friends will see Garth 'Nickels' N'Chalez through to the end!

Prime Ministers and Some Others George William Erskine Russell, 1918

Subversive Elements Lee Bond, 2015-01-16 "It was the most goddamn fun I've had in thirty thousand years." Garth Nickels regrets a lot of things he's said in his life, but those twelve words rank highest on his list. He said them, though, and there's nothing he can do except change. Warned that his actions since coming to Hospitalis have been driven by the very thing he seeks, Garth resolves to undertake a new, less violent approach to his goals ... a worthy plan given his newest ... 'problem': He's become a celebrity. Surviving the Port Disaster, defeating an augmented soldier in hand-to-hand combat in The Game, donating billions of dollars to the relief effort and offering to essentially build a new spaceport for Hospitalis ... all this has transformed him into something of a systemic hero. How in the hell can he get into The Box if every camera, every reporter, every man, woman, child and avatar in Latelyspace is looking for an autograph or an interview? Still as desperate as ever to get into The Box, Garth begins laying down roots in his adopted city, preparing for the future, preparing to one day -hopefully soon- discover the truth behind his existence, the reasons he slept for thirty thousand years ... everything. First, though, he has to survive a date with Naoko Kamagana. The two lovebirds decide to take a day off so he can get a better view of just how very important The Museum, The Box and The Game are to Latelians. When The Museum becomes the scene of a terrorist action that pushes the Chairwoman and the OverCommander into revealing the true military might of the Latelian Regime, when Chadsik al-Taryin decides to 'protect' the man he's been hired to kill, when Trinity begins to unveil It's manipulations... It becomes exceptionally difficult for Garth to take the high road.

Eta Prime of Kappa SIGMA, an Historical Sketch, 1873-1908 John Cooper Winslow, 2017-10-16 Excerpt from Eta Prime of Kappa Sigma, an Historical Sketch, 1873-1908: Being a Short Narrative of Kappa Sigma's Career at Old Trinity, With an Account of the Fraternity at New Trinity to the Present Time In an issue of the Star and Crescent, March, 1906, a suggestion appeared that the early history of Eta Prime would afford a fertile field for investigation. Acting upon this suggestion, the Chapter, late in the session of 1905-6, made me Historian. Eta Prime existed at Old Trinity under its old name Eta from 1873 to 1879, then became inactive, and was revived at Trinity, Durham, N. C., in 1892. Under the instructions of the Chapter, I considered my work as Historian finished, when the period at Old Trinity had been written up and published in pamphlet form. This pamphlet came from the press on December 14, 1907. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Foreign Devil Lee Bond, 2015-01-09 The future is broken. Garth 'Nickels' N'Chalez doesn't know how he knows the future is broken, but after being invited to enjoy a ten-year stint in Trinity's officially-unofficial crew of roughnecks and madmen known Universe-wide as Special Services in lieu of paying for ... accidental damages to a Tynedale/Fujihara mining facility, there's no one better to make that assessment. And from his point of view, it couldn't be more broken. But he's gonna find out, even if it kills him, because it's not just the future of the Universe that doesn't make sense, it's his whole damn life; being woken up from deep cryosleep -in a spaceship that technically shouldn't exist- and being told that you and the other fourteen people you were found with napped away the last thirty thousand years of Human expansion across the Universe and then being interred for an

entire year so you can be grilled non-stop by an increasingly angry Historical Adjutant who fell just shy of actual torture and then being politely told that since you were the only one to not be killed in a rather fantastic and wildly violent, destructive bid for freedom, you get to pay for the umpty-gazillion dollar facility can kind of make a guy feel like something's wrong, dreadfully wrong, with everything, everywhere. The fact that he has highly specific amnesia about who he is, what he and the other fourteen were doing in the ship, why they were there, how the ship was constructed, well, that only hammers home the whole 'everything is broken' feeling. But Garth Nickels can sure as hell tell you anything you might ever want to know about the A-Team. Or Bugs Bunny. Or Rob Zombie. But nothing historically significant. Well, Garth did his bid in Special Services and made quite a name for himself. Granted, it's a name he'd prefer stay lost to the darkness across The Cordon where he did horrible, awful things in the Trinity AI's name, but it's a name nonetheless. During that time, the thirty-thousand year old Specter discovered that he not only has the same kind of powers and abilities as those who got killed during their escape, his seem to grow in direct correlation to the threat. He has become a man of strength and speed, of violence and mayhem, and he does not like it. But he's free now, from the haunting Specter he became, free to hunt for something that he suspects might only be a dream: somewhere out there, in the depths of Trinityspace, there is a ship the equal of the one he and his fourteen cryosleep buddies were discovered in. The dreams tell him there are answers within, and he'll do anything at all to find the answers to who he is, and how the future is broken. Garth's quest takes him to Latelyspace, the last of the Sovereign Systems, thinking the task ahead would be easy. How wrong can one man be? As it turns out, very. Garth's exploits on the Latelian home world of Hospitalis set in motion a chain of events that will have him labeled Foreign Devil before he's done. It'll take every ounce of self-control, patience and luck one Universe-weary ex-Specter can muster, but will it be enough?
