David Sadowski

Trolleys of the Capital District Gino DiCarlo,2009 When it came to first-class transportation, not many regions of North America had more to offer than the trolley lines of New York's Capital District. From their humble beginnings as horse roads forming belts around Albany, Schenectady, and Troy, these trolley lines helped move people around Upstate New York from the late 1800s until their final exit after World War II. The lines of the United Traction Company, Schenectady Railway, and the Hudson Valley Railway provided hundreds of miles of track around their home cities, as well as direct routes to resorts in the Adirondacks, Lake George, and Saratoga Springs. The trolley lines became famous for disasters that made national headlines, labor disputes, and engineering wonders that included the longest trolley bridge in the world. The vintage images in *Trolleys of the Capital District* provide insight into an era gone by and an often forgotten form of transportation.

Lost Trolleys of Queens and Long Island Stephen L. Meyers,2006 An amazing assortment of electric trolley lines once traversed the towns and villages of Queens and Long Island. With names like Jamaica Central, Northport Traction, Ocean Electric, and the Steinway lines, some meandered across meadows and hills while others sped over elevated tracks. There was even one line that had streetcars but no tracks. In the end, all of them helped stitch the countryside into the concentrated suburban area it is today--with barely a trace of the trolleys left anywhere.

The Forgotten Trolley Mary Ruth Weaver,2020-06-25 Inspired by her husband's love of trolleys, Mary creates an ironic, funny and altogether timeless tale of the trouble one retired trolley has in keeping the faith when he is no longer of service to his passengers.

The Trolley R.H. Yodice,2012-03-27 The Trolley is a painfully raw story of growing up during America's darkest era: The Great Depression. It follows a young boy's life from childhood through adulthood and chronicles his family life, day to day trials and tribulations, hopes and dreams. It is a story of survival and courage pitted against overwhelming odds and reinforces the resiliency of the human spirit.

Waterbury Trolleys ,2005 Waterbury Trolleys traces the growth and expansion of the streetcar system throughout the Naugatuck Valley. This system became part of the Connecticut Company's extensive streetcar network, spanning 1,138 miles statewide at its peak in 1918. As automobiles became a primary mode of transportation, the streetcar lines in Waterbury transitioned to bus routes. By 1937, streetcars were officially replaced by buses. This wonderful collection of vintage photographs documents the network of streetcars that once thrived in Waterbury.

Suburban Philadelphia Trolleys Kenneth C. Springirth,2007-08-08 The Philadelphia Suburban Transportation Company prospered through the hard times of the 1930s and was the last privately-owned trolley system in the United States. Aerodynamically designed Bullet cars of the Philadelphia and Western Railway dramatically reduced travel time on the Sixty-ninth Street to Norristown line. The Presidents' Conference Committee trolley cars of the Philadelphia Transportation Company linked the boroughs of Darby, Colwyn, and Yeadon with Philadelphia. Photographs of Media's 1977 town fair feature vintage trolleys in the only suburban community in the United States with a trolley line ending in its main street. *Suburban Philadelphia Trolleys* covers the history of the trolleys that served Philadelphia's western suburbs.

Trolley Car Treasury Frank Rowsome,1956 A century of American streetcars, horsecars, cable cars, interurbans, and trolleys.

Mountain View Trolley Line William E. Rogers Jr.,2009-01-21 The Mountain View Trolley was established on July 10, 1907, after booming tourism increased the need for transportation between Stroudsburg and the town of Delaware Water Gap. In the late 1800s, visitors began flocking to the region to enjoy the beautiful scenery and pristine wildlife. Built by the J. R. Brill Company in Philadelphia, the Mountain View Trolley ran on a narrow-gauge track and was capable of hauling a large number of passengers. The trolley cars operated on overhead wires and battery power and ran year-round, shuttling residents and visitors and working as a school bus for local schoolchildren. The

introduction of motor coaches and automobiles brought about the end of the trolley age, and the Mountain View Trolley ended its run in September 1928.

Bucks County Trolleys Mike Szilagyi, 2020 Cover series statement differs from title page series statement.

Straphanging in the USA Martin W. Sandler, 2003 An illustrated look at how the problem of moving large numbers of people within cities has been addressed through a series of vehicles and systems, from horse-drawn cars to the modern subway.

Chicago Trolleys David Sadowski, 2017-09-25 Chicago's extensive transit system first started in 1859, when horsecars ran on rails in city streets. Cable cars and electric streetcars came next. Where new trolley car lines were built, people, businesses, and neighborhoods followed. Chicago quickly became a world-class city. At its peak, Chicago had over 3,000 streetcars and 1,000 miles of track--the largest such system in the world. By the 1930s, there were also streamlined trolleys and trolley buses on rubber tires. Some parts of Chicago's famous L system also used trolley wire instead of a third rail. Trolley cars once took people from the Loop to such faraway places as Aurora, Elgin, Milwaukee, and South Bend. A few still run today.

Pittsburgh Streamlined Trolleys Kenneth C. Springirth, 2006-11-29 Pittsburgh Streamlined Trolleys covers the history of the trolley car system that once had the third largest fleet of Presidents' Conference Committee trolley cars in North America. Pittsburgh Railways Company was very innovative and constantly made design improvements in its trolley cars. This led to increased ridership, as these streamlined trolleys were quiet, fast, and had comfortable seating. With the increased use of automobiles, ridership declined. After the Port Authority of Allegheny County took over Pittsburgh Railways, most of the trolley routes were abandoned. However, a number of trolleys were refurbished with paint schemes that included psychedelic commercial advertising and community messages. The last runs of these trolleys occurred in 1999, and new light rail vehicles are now in service.

Greater Erie Trolleys Kenneth C. Springirth, 2006-03-29 When the first electric trolley car entered service in Erie in 1889, it revolutionized public transportation in the region. Within a few years, Erie became a major trolley hub linking the eastern and central United States. With the exception of a 15-mile gap at Little Falls, one could travel from New York City to Chicago via Erie. Greater Erie Trolleys covers the network of trolley lines that operated between Erie, Conneaut, Buffalo, and Meadville. Greater Erie Trolleys illustrates the vital role trolley cars played in the expansion of the urban population. It documents the beginning of pleasure travel with photographs of the special trolley car excursions from Erie to Elk Park for picnics, dances, and sporting events. Ridership began to decline just as the automobile came on the scene and dirt roads became paved highways. Eventually the lines were abandoned, but the trolleys left an important mark in transportation history.

Hartford County Trolleys Connecticut Trolley Museum, 2005 During the golden age of the trolley, Hartford County was crisscrossed with over 200 miles of trolley lines, reaching to all major cities and towns in the county. Only 8 out of the 29 cities and towns in the county were without some type of public transit. A busy and prosperous area, Hartford County played a major role in banking, insurance, and manufacturing during the trolley era in Connecticut.

Trolley Days Robert T. McMaster, 2012-06 A joyful, engaging read from beginning to end.... Mark Ashton, Southbridge Evening News If you love period pieces then this is the book for you... Mary Haggerty, Goodreads.com Trolley Days is the story of an unlikely friendship between two boys growing up in Holyoke, Massachusetts, in its industrial heyday. Jack Bernard is the son of a mill worker who emigrated from Canada, Tom Wellington the son of the mill owner. Jack is shy and socially a bit awkward, Tom self-assured and smooth-talking. But for all their differences, the two boys have much in common. They love fishing, sports, and all manner of youthful tomfoolery. Each has suffered the loss of a sibling, tragedies that have affected both families deeply. In the opening chapter a blizzard is approaching as Jack boards a train for the long trip to Boston. He has received a cryptic letter informing him that Tom is in a Boston jail. Despite a recent falling-out between the

two, Jack still considers Tom his best friend, and he refuses to allow a snowstorm to prevent him from going to Tom's aid. Soon Jack will be plunged into a mystery that calls on all his courage and determination to solve, even as his friend's life hangs in the balance. To save his friend, Jack will need the assistance of Tom's sister, Anne, but that will require Jack and Anne to reconcile their fractured relationship. Does friendship have its limits? Can bonds of trust, once broken, be repaired? Can we learn from life's tragedies and move on, or must we carry them like lead weights on our hearts forever? In *Trolley Days* it seems it is the young who bear the heaviest of life's burdens and must marshal the strength to free themselves and their parents.

Greater Wyoming Valley Trolleys Harrison Wick, 2009 The Wyoming Valley is nestled among the Endless Mountains in Luzerne County with the scenic Susquehanna River meandering through it. Best known for its rich deposits of anthracite coal, the Wyoming Valley was first colonized by Connecticut settlers in 1769. Electric trolleys served many urban centers in Pennsylvania. Trolley service in the Wyoming Valley started in 1888 and lasted for more than 60 years. Trolley lines went through the boroughs and townships of Ashley, Courtdale, Edwardsville, Forty Fort, Hanover, Kingston, Larksville, Miners Mills, Nanticoke, Parsons, Pittston, Plains, Plymouth, Sugar Notch, West Pittston, West Wyoming, Wilkes-Barre, and Wyoming. *Greater Wyoming Valley Trolleys* features rare photographs dating from the 1890s to 1950 documenting the trolley system and the communities of the Wyoming Valley.

Philadelphia Trolleys Roger DuPuis II, 2017-01-23 Using evocative photographs from private collections, *Philadelphia Trolleys: From Survival to Revival* carries readers on a nostalgic trip through nearly 50 years of transportation history, starting with the takeover of local transit service from the private sector by Southeastern Pennsylvania Transportation Authority (SEPTA). Sporting a rainbow of paint schemes in the 1970s, Philadelphia's fleet of streamlined 1940s trolley cars brought a welcome splash of color to gritty city streets. But more than a coat of paint was needed for America's largest surviving streetcar network, and SEPTA faced tough choices about how much to keep as aging vehicles and infrastructure desperately required renewal or replacement. Long-lived Presidents' Conference Committee (PCC) streamliners were retired, and SEPTA invested in Kawasaki light-rail vehicles, which are still serving Philadelphia commuters 35 years later. Many SEPTA PCC cars found new homes, from Maine to San Francisco—and, more recently, on SEPTA's own revived Girard Avenue line. The story comes full circle as SEPTA officials once again gear up to select a new generation of Philadelphia trolleys.

Trolleys Under the Hub Frank Cheney, Anthony M Sammarco, 1997-09-01 *Trolleys Under the Hub*, a fantastic collection of photographs and captions documenting the history of Boston's Green Line, commemorates the 100th anniversary of America's first subway system
